DR. W. C. SEHLGREDE, DENTIST.
HALL'S Vegetable Sicilian HAIR RENEWER
 IS NOW PERMANENTLY LOCATED in Cottage Grove. He performs all operations in mechanical and surgical dentistry. All work warranted and satisfaction guaranteed.

was the first preparation perfectly adapted to cure disease of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitations, but none have so fully met all the requirements needed for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: the entire fulfillment of its promise.

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

Got Married.
 The Paris correspondent of the New Orleans Picayune tells of a St Louis belle, who, while in the former city, took a dislike to a gentleman who sat at the same table with her at the hotel. One day, noticing him take some salt, she called to the waiter to remove the salt-cellar, "because the man's knife has been in it." When desert was reached "that man" ordered the waiter to remove the dish of fruit, because "that lady helped herself to grapes with her fingers." A day or two later Mlle. appeared at dinner, dressed very décolleté and determined to get even. So, toward the end of the repast, she sent the gentleman a fig, as much as to say: "A fig for you, sir!" Thereupon he sent her a fig leaf. Those two persons hated each other so much that they finally married and are now among the best beloved in Missouri.

Cleveland Expresses His Views.
 BOSTON, Nov. 22.—In the course of an interview with a representative of a Boston paper to-day, President elect Cleveland, speaking of the business and manufacturing interests of the country and the effect of the change in the administration on these interests said: "It goes without saying that the Democratic party is made up of merchants, business and working men, and every body surely deserves good times and realizes that all the people must be prosperous to insure that result. We have 55,000,000 people almost boundless resources of hundreds of the strongest financial institutions in the world, thousands of enterprising merchants, the most skillful manufacturers, and the most intelligent farmers and working men on the face of the earth. Now, surely a country with these characteristics has every qualification for solid prosperity. It will be my aim and the aim of all those associated with me in the conduct of affairs at Washington, to give the people of the United States a safe, economical and conservative government. The fact that so many business men and manufacturers and working men voted with the Democratic party this election shows that they were not afraid of a change in the administration. The Democratic party, in its Chicago platform, meant what it said and said what it meant, and will carry the provisions of that platform which relate to the business interests of the country into effect. The most important thing is a restoration of confidence and determination to forget partisan heat, and devote our lives to the country and all of its people. In this work every man should feel that he has a part to perform."

Constitutional Amendment.
 At the election recently held in California an amendment to the constitution of the state was submitted to the people to have the state printer print the school books for the state instead of letting contracts to various book publishers to furnish them to the state. Two years ago the senate of that state passed the following resolution: Resolved, That the State Printer be and is hereby directed to institute an inquiry into the cost of compiling and publishing free text-books by the state, and ascertain, in connection, the cost to pupils in common schools of Readers, Histories, Arithmetics and Spelling Books, and to report the result of such inquiry at an early day. In obedience to that resolution, James J. Ayers, Superintendent of State printing made his report which was very carefully considered after which the bill submitting the constitutional amendment was drawn up and passed. The report of the Superintendent contained the following synopsis as the final rate that the various books could be furnished at:
 Spellers, 100,000 copies, cost per copy, 8.126 cts.
 First Reader, 100,000 copies, cost per copy, 8.286 cts.
 Second Reader 60,000 copies, cost per copy, 17.920 cts.
 Third Reader, 60,000 copies, cost per copy, 24.244 cts.
 Arithmetic, 60,000 copies, cost per copy, 28.891 cts.
 Grammar, 60,000 copies, cost per copy, 20.167 cts.
 History, 60,000 copies, cost per copy, 29.658 cts.
 Grand total \$1 38 292.

IMPORTANT TO ALL.—The following is found in the new postal law and is of interest to all. "When a letter has only one stamp when two are required, it will not be forwarded, but detained at the mailing office, and the postmaster will send a postal card to the one addressed, for stamps sufficient to prepay the tardy letter. If the writers name be known to them, he is first notified, and if neither party responds, the message is sent to the dead letter office."

For sale.—A job lot of correct charts for Salt river—the result of a quarter of a century's experience on that stream—giving bars, sunken rocks, etc. Apply for this office. We have no further use for them, and will therefore accommodate our Republican friends to them.
