#### What Shall Our Fair Be?

As the time approaches for holding our regular annual county fair the question is often asked, "What are you going to take to the fair?" and is generally answered, "Oh, torney fees and costs.

A V Peters va D E Watson; judgment know, and ask each and every one of you that same question. The fair is for the people, and they alone will reap the benefit. The society has incorporated and stock has been subscribed, yet nether the stockholders nor directors receive a cent in return for time spent or dividends on stock. The money received by the society is all paid out again, first for the necessary expenses of conducting the fair, such as rent for pavilion, rent and repairs on track, printing, and hire of assistants during the fair; and second, the remainder is applied on the payment of premiums. Our fair is not a circus or theater where the principal part of the money received at the door is carried away; but is scattered again throughout the county. Last year Cole's circus took in eight or ten thousand dollars, and probably carried half of it away. Our fair took in something over \$900 not even send out of the county for our printing. It being, therefore, a home institution, conducted solely for the benefit of the people, it ought to commend itself to every one in the county. The intelligence of the people is the bulwark of our freedom. The society aims to become a help to the people of this county in gaining a knowledge of the best methods of doing things, of gaining individual wisdom from collective experience, and, in general, provide the means of instruction and recreation at the same time. The people of the county are asked to assist this laudable enterprise, both with their presence at the fair and with counsel in the deliberations of the board.

A Sad Accident.

Last Thursday afternoon Mrs M J Thompson and Mrs S M Yoran procured a dog cart and borrowed a three-year-old horse from Mr T N Segar, and started out for a pleasure drive about our city, It is but just to say that the animal had never been known to stare, and was considered very gentle. As the ladies were turning into Fifth Street, just opposite the residence of Mr John Harris, it is supposed the horse became frightened at an engine that was saw ing wood and grew unmanageable and started to run when the vehicle collided with a shade tree, and the occupants were thrown to the ground with such force that Mrs Thompson was hurled 27 feet and her head struck the edge of the sidewalk, while Mrs Yoran was thrown about 24 feet. Ladics in the vicinity, noticing the accident, run immediately to render assistance, while a man went for medical assistance and procured Dr Sharples. Mrs Thompson was taken to the residence of Mrs Businell and

Mrs Yoran to that of Mr John Harris. The doctor hastily made an examination of the injured ones and pronounced the case of the former lady hopeless and the latter as being severely injured. About 5 o'clock the parties were taken to their respective homes. At this time Mrs Thompson recovered consciousness, but it was only for a short time, when she lapsed into unconsciousness, and remained in that condition until death came, Friday at about 11:45 A. M. Mrs. Yoran, although receiving severe injuries, is doing as well as could be expected, and there is hardly

a doubt but what she will recover.

Mrs. Thompson came to this city from Indians on a visit to her son in law and daughter,
Mr. and Mrs. J. M. Hedson, about one year ago, and liking our people and country so well, she concluded to make this her permanent residence. She was about 54 years of age, and also leaves another married daughter in the East to mourn her death. The old lady was greatly beloved by our people for her many noble qualities.
