

A Northern Outrage.

The Oregonian's attention is called to a telegram of the 20th inst, part of which appeared in its columns: "Third Auditor Williams did something last week that no official of United States Treasury before him ever dared to do, said a gentleman who is high in political circles. He found a colored man in his department working as a clerk when he came into his present position. Williams, seeing that the man was capable and efficient, placed him at the head of one of the divisions though there were a lot of white clerks who thought they should have been selected for the position, though they are all Republicans and, therefore, supposed to be in favor of giving the colored man an equal chance. There has been some growling over General Williams' action. Mr. Sherman has been talking of the rights of the colored people in the Ohio canvass, but nobody ever heard of his promoting one of them to any important position while he was at the head of the Treasury Department, and this act of justice was left to be done by a Democratic official. Two years ago, when the colored voters of Cincinnati asked that one of their number be placed on the Republican Legislative ticket, the request was refused and the nomination given to a white man. There is a vast difference between preaching and practicing among our Republican friends, I can tell you.

The San Francisco Examiner, with its characteristic enterprise, has secured the exclusive right to publish on the Pacific Coast, Henry George's new work on "Protection or Free Trade," and will run it as a serial from week to week, the first two chapters appearing in last Sunday's Examiner. It is written in admirable style, strong, pointed and able in thought, and is as interesting as a novel. Mr. George in this, as in his other works, claims that the progress of civilization depends upon the prosperity of the workingman which in turn depends upon high wages, and to secure this result he favors absolute free trade. He says that protection is supported by the ignorance, passions and prejudices of the masses, just the same as the thrones of despot are upheld by these qualities, and that investigation and education will yet achieve its downfall in every form. Whether one agrees with Mr. George or not, the book is one of great merit, and will attract world-wide attention.

Iowa paper: "Now that the colored voters of Mahaska county have some of them dared to vote the Democratic ticket, the Republican managers have commenced systematic efforts to prosecute and intimidate them. Upon a trumped-up charge of alleged voting several of them were arrested and would have been jailed, but for the fact that Democrats came to their rescue and furnished bail. The Republican party is the great friend of the colored man, as long as he votes the Republican ticket.

Ten years ago a standard carload on all first class railroads was 20,000 pounds, the weight of the cars being 20,500. In 1881 the load on most roads had increased to 40,000 pounds, but the weight of the car had increased to only 22,000 pounds. The master car builders of the Pennsylvania road have now adopted cars to carry 60,000 pounds, while the weight of the cars will be very little increased. The substitution of steel for iron rails has made the change possible.

The Panama Star and Herald of the 14th, says: "We shall see in the month of October the first section of the Panama canal opened in its full length, breadth and depth. The first section will comprise a water way from Colon to near Tiger hill a distance of twelve kilometers," or about two miles.

Dr. A. B. Adams, associate editor of the St. Helens Columbian, was arrested last Monday on a charge of criminal libel preferred by E. H. Flagg, editor of the Mist, the opposition paper. In its last issue the Columbian stated that Flagg got drunk in Portland and had to sober up in the city jail.

State elections will be held this year as follows: Ohio, October 13; Virginia, November 3; Iowa, Minnesota, New York, New Jersey, Pennsylvania, Massachusetts, November 3; Connecticut, November 3.

Gov. Moody has appointed Gen. John F. Miller, of Linkville, delegate from Oregon to attend the meeting of the National Live Stock Association which meets at St. Louis next month.

Hon. Ira Davenport has been nominated by the Republicans of New York as their candidate for Governor.

A little speck of war appears on the European horizon, but the prospect is that it will not grow much larger.

A recent novelist tells a touching story of a faithful wife. Her husband enjoyed for years a prosperous business and large income, and lived lavishly. She practiced a careful economy in secret, and when ruin suddenly threatened him, and he revealed to her his despair she brought down from a secret drawer in her chamber a large sum in gold and laid it on his table; and this sum of \$50,000 saved him! The clever writer has forgotten that gold weighs something, and that the wife must have struggled down stairs under a weight of 250 pounds! So new what similar blunders are not infrequent in romances describing the handing of coin at the gambling tables of Europe; so that a few exact figures on the subject may be interesting. Except a few of the very rare substances hardly seen out of laboratories, gold is the heaviest and the most precious metal we know. Thus, a cubic foot of pure gold would weigh 1,024 pounds, or more than half a ton, and would be worth \$331,131. All the gold in the possession of the human race might be stored in a cellar of moderate size. It is supposed to amount to about \$6,000,000,000; and pure gold to this value would just fill a room fifty feet long by twenty-seven feet eight inches wide, and twelve feet high. Thus, the vastest accumulations of capital known in the world may be conceived of as packed in a very small compass.

The Republican press is striving to persuade Gov. Moody to call an extra session to elect a U. S. Senator. Our opinion is that he can manufacture as good a Senator as the present Legislature can turn out, at a saving of over \$30,000 to the people of Oregon, a big item these hard times. The Governor, if an extra session is called, must be held responsible for their action as he well knows the history of the remarkable body. The individuals who assert that needed legislation demands an extra session deceive no one not even themselves, assuredly not the Governor. The piping voices of these little statesmen would never have been heard had the Legislature been Democratic, and if they knew that a Democratic Senator would be the result of the extra session, no hint would have reached us of distress for want of law. We simply want to protest against the unnecessary and profligate waste of the people's money. If the Governor calls an extra session, he will find that he has paid dear for his whistle. From a partisan point of view it would be eminently satisfactory to us.

Smuggling from Canada to the United States is not only very brisk, but the smugglers are bold in avowing their business. The following advertisement appears in papers along the border: "For sale—A farm within two miles of the boundary line at Lassolle, Province of Quebec, on which a row of buildings has been erected especially for trade purposes. No other house within two miles on either side of the line. Coal houses, under sheds stables, hay scales, etc. The stand is well known to the Americans, and all kinds of goods, such as liquor, butter, horses, grain, hay, etc., find an easy channel into the states at all times. A good, active business man can clear his \$100 a day, or night, besides making on an average \$10,000 a year of net profits."

Announcement was recently made of the discovery of a vein of gold bearing in Michigan. The Detroit Free Press says that this gold boom is no heedless clamor of inexperienced men. The men who are backing it are miners of experience. There is plenty of rock with plenty of gold in it.

It is reported that over \$1,000,000 changed hands in various ways during the recent yacht races for the queen's cup at New York. A large portion of this sum was expended by sightseers, who endeavored each day to follow the contestants over the course sailed.

Rufus Hatch has written a letter to the New York Sun in which he asserts as his belief that wheat will bring a good price this Fall. In case of necessity he advises the farmer to sell half his wheat and hold the balance for better prices.

Nothing that the President does, or refrains from doing, suits the Republican organs. If he performs a good action, which he is every day doing, they are sure to hint at some bad motive for it.

The hop crop of Puget sound will be about 3,250,000 pounds, or 1,625 tons, allowing a yield of 1,300 pounds per acre.

It is likely that the Chinese Government will claim indemnity on account of the Wyoming massacre.

Miss Cleveland's book has netted her \$7,250, so far. She is now engaged in writing a novel.

An Elegant Substitute

For oils, salts, pills and all kinds of bitter, nauseous medicines is the very agreeable liquid fruit remedy Syrup of Figs. Recommended by leading Physicians.—Manufactured only by the California Fig Syrup Co., San Francisco, Cal. For sale by W. S. Lee, Junction City; F. M. Wilkins, Eugene City.

Photographs finished neatly and artistically at Winter's.

Sheriff's Tax Sale

NOTICE IS HEREBY GIVEN THAT by virtue of a warrant for the collection of delinquent taxes for the years 1883, 1884, 1885 and 1884, issued out of the County Court of the State of Oregon for Lane County, by the Clerk thereof, and to me directed, on-to-wit: September 11, 1885, commanding me to make the sums therein named out of the personal property of the tax-payers therein named, and if none be found, then out of the real property as set forth in said lists. Twin Foes to Life Are Indigestion and Constipation.

Their primary symptoms are among the most distressing of minor human ailments, and a host of diseases, speedily resultant from them, mutually aggravate each other and assail at once the whole machinery of life. Nausea, Foul Breath, Sour Stomach, Dizziness, Headaches, Bilious Fever, Jaundice, Dyspepsia, Kidney Diseases, Piles, Rheumatism, Neuralgia, Dropsy, and various Skin Disorders, arise among the symptoms and maladies caused by derangement of the stomach and bowels.

A Thorough Purgative Ayer's Pills

Accomplish this restorative work better than any other medicine. They are searching and thorough, yet mild, in their purgative action. They do not gripe the patient, and do not induce a costive reaction, as is the effect of other cathartics. Withal, they possess special properties, diuretic, hepatic and tonic, of the highest medicinal value and

Absolutely Cure

All diseases proceeding from disorder of the digestive and assimilatory organs. The prompt use of AYER'S PILLS to correct the first indications of costiveness, averts the serious illnesses which neglect of that condition would inevitably induce. All irregularities in the action of the bowels—looseness as well as constipation—are beneficially controlled by AYER'S PILLS, and for the stimulation of digestive organs weakened by long-continued dyspepsia, one or two of AYER'S PILLS daily, after dinner, will do more good than anything else.

Leading Physicians Concede That AYER'S PILLS are the best of all cathartic medicines, and many practitioners, of the highest standing, customarily prescribe them. AYER'S PILLS, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. [Analytical Chemists.] For sale by all Druggists.
