

The fastest trotting horse in the world, so far as has been proven, is Maud S, whose record stands undisputed and unrivalled at 2:08 1/2 to the mile. This little "flyer" is owned by Robt. Bonner, who, it is said, has never ridden behind her but once. Her trotting has always been for the benefit of the public, because Mr. Bonner would not permit her to go on the turf to contest for purses. She has made two or three attempts to beat her own fastest time, but has not succeeded in so doing. Mr. Bonner proposes now to give her a rest, and when in harness to draw the reins on her himself. She is an expensive luxury, and as Mr. Bonner purchased her for a high price, he ought to enjoy a "spin" behind her on this occasion; if for no other reason than to remind him that he must improve his time, as it will only be a few years until her trotting days are over.

The growth of opium in China is attributed by a good observer to the increase of Mohammedans in the empire: There are now not less than 20,000,000 Moslems in China, and as these people are forbidden to smoke tobacco or to drink wine or liquor, they fall back for stimulant and narcotic in one opium, which they eat in large quantities. The North China provinces now supply nearly all the opium consumed there, and the prospect is that a few years will see a great falling off in the imports of Indian opium, and that before the close of the century China will virtually produce all her own opium.

When the Senate meets there will be a list of between 500 and 600 postmasters appointed during recess submitted for confirmation. In addition, it is estimated that during the session of Congress the terms of at least 600 postmasters will expire, so that nominations of over 1000 postmasters will come before the Senate during the next session. There are 2335 presidential postmasters in this country, and at the rate observed during the past six months all the presidential postmasters will be changed in two years.

"Your studies are costing me a great deal," said a father to his son, as he reached in his pocket for money to buy more books with. "I know it father," replied the son with some emotion, as he pocketed a ten dollar bill, "and I do not study very hard, either."

An exchange says the bells of their city can sweep the floor with her hair. We would advise her not to follow that practice if she desires to succeed in this world and marry a well-to-do husband. Sweeping the room with a broom is in better taste.

**ROBUST HEALTH**

Is not always enjoyed by those who seem to possess it. The faint of corrupted blood may be secretly undermining the constitution. In time, the poison will certainly show its effects, and will be allowed to permeate the system. Each purple, stony, blot, skin disorder and sense of unnatural lassitude, or languor, is one of Nature's warnings of the consequences of neglect.

**Ayer's Sarsaparilla**

Is the only remedy that can be relied upon, in all cases, to eradicate the faint of hereditary disease and the special corruptions of the blood. It is the only alternative that is sufficiently powerful to thoroughly cleanse the system of Scrofulous and Mercurial impurities and the pollution of Contagious Diseases. It also neutralizes the poisons left by Diphtheria and Scarlet Fever, and enables rapid recuperation from the debility and debility caused by these diseases.

**Myriads of Cures**

Achieved by AYER'S SARSAPARILLA. In the past forty years, are attested, and there is no blood disease, at all possible or cure, that will not yield to it. Whatever the ailments of this class, and wherever found, from the scurvy of the Arctic circle to the "veldt-sore" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggists everywhere can cite numerous cases, within their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to

**Trust Nothing Else**

than AYER'S SARSAPARILLA. Numerous crude mixtures are offered to the public as "blood purifiers," which only allure the patient with the pretense of many cheap doses, and with which it is folly to experiment while disease is steadily becoming more deep-seated and difficult of cure. Some of these mixtures do much lasting harm. Bear in mind that the only medicine that can radically purify the vitiated blood is
