

THE EUGENE CITY GUARD.

SATURDAY, NOVEMBER 14, 1885.

State Central Committee.

The Democratic State Central Committee met in Portland Saturday evening and transacted the following business: E. J. Jeffrey acted as chairman and John Adair Jr as Secretary. After short but earnest expression of opinion, the chair appointed the following committee on resolutions, viz: Sidney Dell, W. H. Effinger, John Myers, W. M. Townsend and W. R. Bilyeu.

After a short recess the following address was offered by the committee and adopted by the State Central Committee by an unanimous vote:

This committee having been called together to consider the recent action of the governor in convening the legislature in extraordinary session, does declare:

First, There is no such extraordinary occasion as is contemplated by the constitution justifying, or in any other way excusing this proclamation, and we denounce the same as a flagrant and oppressive abuse of public office in the interest of a mere political party.

Second, We declare to the electors of this state that the burden of taxation necessary to meet the expense of this special session has been brought upon us by the clamor of the Republican leaders and the weakness of the executive in issuing this call; and we therefore ask that the republican party in this state, thus jointly responsible be held to a strict account before the court of last resort—the people.

Third, This extraordinary state of public affairs demands at the hands of our representatives in the two houses, as leaders of the party, such wise and thoughtful action as shall preserve and strengthen in the state our party organization. We do not regard it as properly within our province to make or offer any suggestions to them as to these matters. We publicly here make record of our appreciation of their sagacity and wisdom at the last session, and we have an abiding confidence that they will, at the session to be convened, discharge their duties as democrats so as to merit the respect and cordial approval of their fellow citizens.

On motion, the resolutions below were added to the report:

Fourth, that the calling of the special session for the special purpose of electing a U. S. Senator is especially unjust to the people in view of the fact that we are on the eve of a general election; that nearly two years have elapsed since the election of the present representatives; that public issues and public opinion have changed, and that the people themselves should now be permitted by the republican majority to settle the senatorial question next June.

Fifth, That we view with alarm the manifest agency of "organized capital" in the indecent haste of this special session to settle the senatorial question June.

In accordance with the suggestion of Judge Deady that mortgages might be valued for the assessment of taxes in proportion to the valuation placed upon real estate; for that purpose, mortgages have been assessed in Multnomah, Clackamas and Columbia counties at 50 per cent of their par value, in Polk at 66 2/3, in Washington at 75, in Marion at 80; and in Benton, Douglas Lane, Linn, Umatilla and Yamhill at par. It is stated that large owners of mortgages will refuse to pay taxes where they are assessed at par, and carry the contest to the United States supreme court. We doubt whether that court will undertake to regulate the assessment of taxes in this state under a law which the supreme court has decided to be constitutional. Such a compromising method as Judge Deady suggested if adhered to, will never prove whether the mortgage tax law is a good law or not. General Grant said the best way to secure the repeal of a bad law is to enforce it. He might have said the way to test the merits of a doubtful law is to enforce it.—Portland Standard.

President Cleveland gave \$1,000 to the New York Democrats and went home and voted the straight Democratic ticket; he gave the money voluntarily and of his own free will and in going home he only followed the example of Arthur, who went home last November and cast a vote for a person by the name of Blaine.

It is rumored that England has declared war against Burma. That power is weak and another colony will be added to the British possessions. But that won't raise the price of wheat. Why doesn't England tackle Russia and give our wheat-growers a show.

The Legislature has convened, Gov. Moody has delivered a dull but lengthy message and the Republican drill masters are confident that the recalcitrant members will bow down in meek submission to the bosses.

The Albany, N. Y., Argus, Secretary Manning's paper says: "The Mug wumps are now crowding close together to keep warm. But wasn't it a terrible cold day on November 3d."

A Rich Man's Party.

Roscoe Conkling, just before the last election in New York said that the Republican ticket in that State represented nothing but money bags. It was a millionaire ticket from top to bottom, with but one exception, and as Mr. Conkling in substance said, it represents the dominating influence in the Republican party.

Probably he remembered the twenty years of active service that he gave the Republican party and its reward. The breath of scandal never touched his name, and his personal honesty was beyond all question. And such is his breadth of thought and vigor of statement that an utterance from him will attract more attention than from any other man in the United States. Yet a man who owned a wood pulp paper mill was chosen over Mr. Conkling himself, and the world never hears of Warner Miller except when he rises and votes to protect the American laborer, by allowing Miller to sell the product of his mill at 50 per cent, above the market rate. It may be that Mr. Miller is very benevolent in all this but we can't see it.

To come near home, who does the President of the Central Pacific railroad represent in the U. S. Senate, California or the Central Pacific railroad? Who does John F. Miller stand for, the Alaska Fur Seal Co., or the people of California. In Oregon we all know that our Senator owes the major portion of his wealth to railroad stock, and that but for his money-bags he would never have reached the Senate. And the Republican party in the last few years discriminates against the poor in office giving as in legislating, and the majority of them in Congress vote money into their own pockets and out of the people's.

Leland Stanford wants cheap labor and has done more to bring the Chinese here than any other man in America. A half-dozen manufacturers who occupy seats in Congress have done more to pauperize American labor by importing contract labor from Europe than all the free-trade men in the world. All the influence these men possess will be thrown against any effective restrictive act, and never with their consent will the laborer get any measure protecting him passed into laws. Notwithstanding that Stanford will vote to help himself to a large portion of the public domain this winter without a cent's consideration therefor, the Republican party, which in California, is the C. P. R. will go to the polls and vote for seville labor, high freights and land grants for the railroads, and the issues are similar in this state.

Who is to blame for this, the great monopolists or the men who sustain them with their votes?

Earl Salisbury in a speech the other day virtually declared himself in favor of an import tax on American wheat. As sure as the English Tories succeed in the coming election so sure will they protect the English workman against the "pauper labor" of America.

It is telegraphed from India that from 30,000,000 to 50,000,000 bushels of wheat will be exported to England from India. If that intelligence is true it means continued hard times all over the United States.

The polygamists are daily being convicted at St. Lake. The falsity of the Republican cry that the Mormons were leagued with the Democrats is now apparent.

The registration law has been amended and passed by the Legislature. The luxury will cost Lane county two thousand dollars each election.

G. Bettman.

The agent of a Scotch company trying to grab public lands in New Mexico was convicted of fraud the other day. It is said that nine-tenths of the land entries in that territory are fraudulent.

The bloody shirt will not avail in New York. And as this is the only issue they can unite on elsewhere the chance of the Republican candidates for 1888 are not of the most hopeful nature.

DYSPEPSIA.

Sedentary habits, mental worry, nervous excitement, excess or imprudence in eating or drinking, and various other causes, induce Constipation followed by general derangement of the liver, kidneys, and stomach, in which the disorder of each organ increases the infirmity of the others. The immediate results are Loss of Appetite, Nausea, Foul Breath, Heartburn, Flatulence, Dizziness, Sick Headaches, failure of physical and mental vigor, distressing sense of weight and fullness in the stomach, and increased Costiveness, all of which are known under one head as **Dyspepsia**. In every instance where this disease does not originate from scrofulous taint in the blood, AYER'S PILLS may be confidently relied upon to effect a cure. These cases not amenable to the curative influence of AYER'S PILLS alone will certainly yield if the PILLS are aided by the powerful blood-purifying properties of AYER'S SASSAPARILLA. Dyspeptics should know that the longer treatment of their malady is postponed, the more difficult of cure it becomes.

Ayer's Pills

Never fail to relieve the bowels and promote their healthy and regular action, and thus cure Dyspepsia. Temporary palliatives all do permanent harm. The fitful activity into which the enfeebled stomach is spurred by "bitters" and alcoholic stimulants, is inevitably followed by reaction that leaves the organ weaker than before.

"Costiveness, induced by my sedentary habits of life, became chronic; AYER'S PILLS afforded me speedy relief. My occasional use has since kept me all right." HERMANN BUSCHOPF, Newark, N. J.

"I was induced to try AYER'S PILLS as a remedy for Indigestion, Constipation, and Headache, from which I had long been a sufferer. I found their action easy and obtained prompt relief. They have benefited me more than all the medicines ever before tried." M. V. WATSON, 152 State St., Chicago, Ill.

"They have entirely corrected the costive habit, and greatly improved my general health." REV. FRANCIS B. HARLOWE, Atlanta, Ga.

"The most effective and the easiest physic I have ever found. One dose will quickly move my bowels and free my head from pain." W. L. PAGE, Richmond, Va.

"A sufferer from Liver Complaint, Dyspepsia, and Neuralgia for the last twenty years, AYER'S PILLS have benefited me more than any medicine I have ever taken." P. H. ROGERS, Needmore, Broken Co., Ind.

"For Dyspepsia they are invaluable." J. T. HAYES, Mexico, Texas.
