

THE EUGENE CITY GUARD.

BATURDAY.....APRIL 10, 1888.

The Democratic Party.

Never in the history of the party has there been a time when the Democracy was more united and harmonious, and more powerful than at present.

The cause is plain: A party that seeks votes on living issues, that appeals for charity and moderation in the discussion of historical questions, that seeks to heal feuds, and directs the attention of the people to questions of taxation, land legislation and to form a quiet and peaceful solution of the labor question will win on its merits, as it should succeed.

In the results of the elections the Republican party has had no little hand. It has been asserted that the Democratic party is unalterably opposed to the post bellum legislation, yet the Republican leaders are not able to show any infraction of these laws after a year of Democratic administration.

We hope and trust that the worthy Senators and Representatives in Congress who are personally interested in silver mines, cattle ranches, land grant railroads, and tariff legislation will have some sympathy for poor Attorney General Garland.

The old-time Virginians were a proud set. There once lived in Henrico county a Sir Patrick Coutts, who was a regular "blood."

In a letter to George W. Childs, General James B. Fry says: "While General Hancock was economical in all things, the demands that pressed him for supporting needy kinsfolks and for aiding destitute followers and old soldiers were so constant that in spite of all he could do he fell behind."

We are free to say that, taken all in all, the appointment of Mr. Matthews will meet with the hearty approval of the race. For very many years he has been identified with the Democratic party of New York State.

About the hardest working individual in this land of freedom just now is the editor of the daily newspaper who advocates protectionism. As he glances at his first page and beholds two solid columns devoted to labor troubles and strikes, it requires tenacity to write the usual editorial on the benefit of high taxes to the workmen.

If the labor strikes over the country indicate anything of a political significance, they will force the conclusion that the laboring men have become impatient in their wait for their share of the promised returns to be derived from a protective tariff.

The S. F. Post, always Republican, tells what is to be in California, in the coming election: "There is no longer the smallest chance for a Republican walk-over. The Democrats have the federal and state governments, and the cry of 'Hearst and harmony' will be immensely potent for closing the party ranks. There is a hard fight ahead."

It is said the Chinese merchants in San Francisco are closing up their business and leaving as fast as they can; every steamer carrying out numbers of them. Their business being gone of course they must go.

The Republican State Convention meets in Salem next Wednesday.

Hear the unnamed Mexican hidago! He is mad and he doesn't care who knows it. El Tiempo, a paper published in the City of Mexico resurrects the old story of 1846 and makes the following indignant comment: "We are neither anti-English nor anti-German, and least of all anti-Spanish. The only exception which our blood imposes upon us, the only one which the duty of self-protection, this from the standpoint of civilization and honor most justifiable sentiment, demands of us this exception, as can easily be guessed, refers to the Yankees, and we glory in it. We do not conceal this fact, but proudly proclaim it on every occasion with the warmth and indignation which rise in the soul with the recollection of that which these iniquitous filibusters did with us in 1846, and with thought of that which they are doing and are intending to do."

It is most amusing to note the stern determination of the protection organs to throw men out of employment if a reform tariff bill should be passed by Congress. It is affecting and pathetic, but there is no truth in the assertions, for business will go on then as now. Let the organs devise some other scare, for instance, how the rebel debt and rebel claims were to be paid, the rights of the colored people to be violated, and the national treasury to be swept bare by a horde of Democratic plunderers. Give us an original bugaboo, so nothing new, and we will bless you.

Our new Minister to Persia is a man of enterprise. He left Chicago for Teheran, a lonely bachelor forlorn. He was fancy free until he got into the Mediterranean, but between Constanti nople he met his fate, proposed, was accepted, married, and goes marching on to his mission. Incidents like this increase Florida's shame for Jones.

A party of missionaries left New York last week for Africa, carrying a cargo of drygoods, hardware, Bibles, tracts, hymnbooks, rifles and shotguns. They are going up the Congo. Some of them from Oregon, which the New York papers regard as sufficient preparation for the hardships of Central Africa.

Our army is considered to have a rather hard time in fighting Indians, but its casualties are insignificant, compared to those of the railway brakemen. Professor Hadley of Yale estimates that 15,000 people are injured every year in this country from the single duty of coupling cars.

Mr. Geo. E. Edmunds, Senator from Vermont, is the attorney of a rival of the Bell telephone company. It may puzzle the pharisees to denounce Garland without damning Edmunds, incontestably the greatest Republican in or out of Congress, but the "organs" are equal to the occasion.

Although Russia is considered an Arctic country its vast extent gives it almost every variety of climate. The government is now experimenting in cotton culture in the Black sea provinces, and an Atlanta manufacturer has just sent over ten improved gins.

It is said that the Emperor's Williams chest, once so broad and massive, has fallen in, his voice has become weak, and he is very tottering on the legs. Yet he dislikes to be called an old man.

Washington dispatches regard the passage of the Free Coinage Silver bill, by the house as a foregone conclusion. It is in the Senate that the measure will probably hang fire, if any where.

That \$10,000 steal in the United States sub-treasury at San Francisco, is not receiving as much attention, we fear, from the Republican press as formerly. Cause why: The rascal is not a Democrat.

Gen. West of Kentucky has been appointed Governor of Utah by President Cleveland. We believe the new Governor will enforce the laws in that part of the United States.

Bismarck was 71 years of age on the 1st of April. He is no fool, however, but he has played several rare "April fool" jokes on Austria, France and other nations.

Isn't it a little funny that the man who is beaten in a political convention is always most praised by the organ of the other party—Exchange.

The Panama Star and Herald wants \$250,000 for being suppressed by the Government. Those despotic countries are much the best for newspapers.

Col. Potter and Roger have been appointed Brigadier Generals in the places of Gens Howard and Terry, who were promoted.

It is sad news for several old officeholders that Secretary Manning has recovered the use of his right hand. He swings the axe with that hand.

Mr. Conkling will not re-enter politics. Neither will New York vote the Republicans into power again.

A prominent Minnesota politician is named Heathole. It is an attractive winter name.

Bacon's

A Pretty Woman's Secret.

Fear of discovery, when she resorts to false hair and dye, is a source of constant anxiety to her. The very person from whom she most desires to hide the want of her charms are the ones most likely to make the discovery. But there is no reason why she should not regain and retain all the beauty of her hair that was her pride in youth. Let her use AYER'S HAIR VIGOR, and not only will her hair cease to fall out, but a new growth will appear where the scalp has been denuded; and locks that are turning gray, or have actually grown white, will return to their pristine freshness and brilliance of color. AYER'S HAIR VIGOR cures Hereditary Baldness.

GEORGE MAYER, Flatonia, Texas, was bald at 23 years of age, as his ancestors had been for several generations. One bottle of HAIR VIGOR started a growth of soft, downy hair all over his scalp, which soon became thick, long, and vigorous.

Ayer's Hair Vigor

Is not a dye, but, by healthful stimulation of the roots and color glands, speedily restores to its original color hair that is turning gray.

Turning Gray.

Mrs. CATHERINE DEAMER, Point of Rocks, Md., had her hair suddenly blanched by fright, during the late civil war. AYER'S HAIR VIGOR restored it to its natural color, and made it softer, glossier, and more abundant than it had been before.

Scalp Diseases

Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and annoying sores, are all quickly cured by AYER'S HAIR VIGOR. Healed HERBERT BOYD, Minneapolis, Minn., of itching of the scalp; J. N. CUTLER, Jr., Georgetown, Va., of Scald Head; Mrs. D. V. S. LOWLACE, Leesville, Fla., of Tetter Sores; Miss BESSIE H. BRIDLE, Burlington, Fla., of Scald Disease and Dandruff. The piling of the roots of the hair, which, if neglected, may result in incurable baldness, is readily cured by AYER'S HAIR VIGOR. AS A Toilet Luxury

AYER'S HAIR VIGOR has no equal. It is colorless, cleanly, delightfully perfumed, and has the effect of making the hair soft, pliant, and glossy.

Ayer's Hair Vigor,

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.
