

Parliamentary Law.

A raw citizen in Idaho was elected a Justice of the Peace, and the only law book he had was a Cushing's Manual.

The first case before him was that of a cowboy for stealing a steer. When the case was called the only lawyer in the little town was there to defend the prisoner.

"As there is no counsel for the other side," he said, "I make a motion that the case be dismissed."

The Justice looked over his manual. "A motion has to be seconded," he said.

"I second the motion," promptly responded the prisoner.

"The motion has been made and seconded, that the case be dismissed," said the court. "All in favor will please say 'ay.'"

The prisoner his attorney voted ay. "All opposed say 'no.'"

Notbody voted. "The motion is carried and the case is dismissed," remarked the court. "A motion to adjourn is now in order."

The prisoner made the motion and court adjourned.—Washington Critic.

Of the 33 1/2 miles of the new Croton Tunnel, 8 1/2 miles have been opened, and the present weekly rate of advance is one third of a mile; 4,000 persons are at work, and 50,000 pounds of explosives are consumed weekly.

Probably 5,000,000 pounds of explosives will have been consumed in the entire work of shattering 50,000,000 cubic feet of rock.
