The County Ticket.

Robt M Veatch, who heads our ticket has served in the Legislature two terms. A brilliant and ready speaker, he won a State reputation in that brief time. To this he adds unswerving honesty, and pleasing manners. He is in no way dependent on any time. J. Blyeu, for Representative, was in the last Legislature, and was one of the leaders in that body. A fine speaker, an efficient worker and an honest man of the people, his popularity is unquestioned. C. K. Hale for Representative, is a young man of sterling character, honest, popular and an unusually eloquent and fluent speaker. Mr S. G. Thompson, for Representative has before served in the Legislature; he has a strong judgment and a telling way of putting his points in debate. Every body in Lane county knows and likes Presley Cheshire; they know his common sense and honesty, and they will elect him therefor. For Commissioners, A. N. Green and Geo. Day. Both men of property and affairs, prudent in their business, straightforward and honest, this is the reputation they bear with their neighbors. For Sheriff, J. R. Campbell. Born and raised in Lane county, knowing and known to her people, having filled the office as well before as his opponents can find no fault with his administration; competent, always at his post and attending to duty; there is his record. For Clerk, Ben Dorris. For nearly twenty years a resident of Lane county, a fine acrobat through business man, genial and accommodating, no one is better qualified than Mr Dorris. As a man the soul of generosity and kindness those who know him best like him best. No better man lives in Lane county. For Treasurer, J. J. Walton, Sr. J. J. Walton is deservedly popular with all parties. He is a capable business man, he is honest, he is liberal and tolerant; his good qualities will win by a big majority. Dr A W Patterson, for School Superintendent: The efficient manner in which he has filled the office is beyond carping and fault finding. He is thoroughly educated, takes great interest in school matters and is a plain man of the people. Chas Huffman, for Assessor. A lifelong resident of Lane county, intelligent and honest, well educated, popular and of easy address. He lacks not one qualification for the office, and he will be elected. Dr J W Mahon, for Surveyor. An old pioneer, a skillful surveyor and a good citizen and liked by all. Dr A W Prather, for Coroner. An educated physician and a man of ability, competent and qualified.

"All opposing candidates are hereby invited to participate in the canvass" Democratic announcement of speaking. In the announcement signed by the Republican Chairman there is no invitation expressed or implied or that can be interpreted that way. The trickery and littleness is shown by the setting of the dates in three solid Democratic precincts on the same day with the Democratic speaking. The Senate has passed the Cullom railroad bill. It is like one of Dolph's bills which he introduced lately which in the title professed to revoke the land grant of a corporation and in effect confirms it. The House has passed the Reagan Interstate commerce bill. It is just what it is labelled, and will never pass the corporation Senate. At the laboring men are to be condemned for boycotting the goods of the manufacturer, what is to be thought of the manufacturers who combine to boycott certain laborers, pertinently asks Mr. Powderly. We ask every Democrat in the county to work for the success of the ticket. See to it, especially, that every Democrat goes to the polls. In this battle the fate of many other elections are held. In Marion and Linn counties the Democratic, Prohibition and Republican candidates are stamping the county in company. No ringmaster there. Believe no stories circulated at the eleven hour, when no chance is given to the truth.

The "cooked" figures prepared by the State ring and published in their organs are broadly humorous. There is no mention there that the greater part of the State debt was contracted under preceding State administrations, Republican at that. Nor do they compare the expenses of the preceding Republican administrations, nor take into account the present cheapness of all articles purchased by the State. They say the school fund has increased. Well, it is derived from the sale of public lands; and that shows that as under Democratic rule, the property of the state is being disposed of. But the penitentiary, say the little boss' organs. By entering the slave labor of the prison pen in competition with the honest workmen they have thrown a thousand laborers out of employment and they claim have made a small reduction in expenses. The ring when putting out their figures conveniently forgot to mention the fact that while the rate of State taxes have decreased less than one half the taxable property has been increased three times, that where \$200,000 was paid to support the State government then, it now costs the State \$300,000 yearly under ring rule. Tell the whole truth.

Vote for Judge Strahan. He is a thorough lawyer, and a man of great qualifications. Mr. Strahan in his minority report on taxation a short time since defended the assessment of farms, and denied that farms were assessed only for a third or a fourth of their value, as was asserted by the tax commission, at the head of which was Banker Henry Failing. Farmers and workmen, stand with the man who stood up for you. The Republicans candidate for Governor did not deny that he was at one time a Know-nothing, or that after his votes for Holladay in the Legislature, Holladay attempted to tear down the towns of Hillsboro and Forest Grove, to build up Cornelius, nor he deny that he bleeds the farmers around Cornelius by a warehouse monopoly at that place.

John G. Carlisle, of Kentucky, Speaker of the House, and Col. Morrison, leader of the House were Union soldiers in the late unpleasantness. They are both Democrats, and receive their enthusiastic support from the South. Col. Morrison fearfully wounded, lay all night on one of the battle fields of the late war. He does not denounce the South of to-day because of the South of twenty one years ago. The men who are accusing the South now, stayed at home years ago. They are getting angry now; in the words of the brave hero of the late war, "they are just warming up."

One of our brother citizens is greatly grieved at the plank in the Democratic State platform censuring the Republicans for reducing the duty on raw wool and raising the same on woolen goods. The Democrats opposed that measure. It was a discrimination, onerous, unequal, and unjust. We do not blame the writer for getting irritated, his party blundered and he knows it. There is the record, and only three short years ago, too.

Two years ago James W. Hamilton received 600 majority in his home county, Douglas, which cast 150 majority for the Republican ticket. That is the testimonial of his neighbors to his fitness and worth.

The preposterous lies that are being circulated in remote precincts against some of the Democratic candidates bear their own refutation in this that they are not told where the candidates live.

James W. Hamilton, as prosecuting attorney, has saved the taxpayers of Lane county thousands of dollars. Taxpayers, think twice before you change officers for this place.

The robber tariff takes at least \$100,000 a year from the farmers of this county, and gives it to men who are importing Hungarians and Poles to take places of American workmen.

No loopholes nor blundering indictments by which criminals may escape are to be found in any indictment drawn by District Attorney Hamilton.

Cornelius is the embodiment of monopoly, the favorite of Holladay, the henchmen of corporations, and the defender of the "dirty shirt."

George W. Webb is honest and conservative and wears no collar nor belongs to any ring. His election is a foregone conclusion.

R. F. Gibbons, will make a splendid Secretary of State. He will see that the bills passed are safely recorded and guarded.

Napoleon Davis, is a college graduate and a teacher in the public school. His qualifications cannot be impeached.

Common sense joined with eloquence is the gift of N. L. Butler. We believe they will prevail over puffery.

Democrats be on the alert. The ring methods include a sack. See that no fraud is practiced.

As a lawyer and a man Judge Burnett is in every way qualified for the position he is named for.

Pennoyer, honest and able, the enemy of special privileges, will become the next Governor of Oregon.

Out of 108 ships that left Portland from September last to May of this year precisely 8 were American vessels. The best commentary on this is found in the last National Democrat platform: "Under a long period of Democratic rule and policy, our merchant marine was fast overtaking, and on the point of outstripping, that of Great Britain. Under twenty years of Republican rule and policy, our commerce has been left to British bottoms, and almost has the American flag been swept from the high seas. Instead of the Republican party's British policy, we demand for people of the United States an American policy. Under Democratic rule and policy, our merchants and sailors, flying the stars and stripes in every port, successfully searched out a market for the varied products of American industry. Under a quarter of a century of Republican rule and policy, despite our manifest advantages over all other nations in high paid labor, favorable climates and teeming soil, despite freedom of trade among all these United States, despite their population by the foremost races of men, and an annual immigration of the young thrifty and adventurous of all nations, despite our freedom here from the inherited burdens of life and industry in Old-World monarchies, their costly war navies, their vast tax consuming non-producing standing armies, despite twenty years of peace, that Republican rule and policy have managed to surrender to Great Britain along with our commerce, the control of the markets of the world."

England has 4,850 ocean steamers, or 58 per cent. of the commercial steam tonnage of the world. The United States have 355 steamers, or 4 1/2 per cent. of the total. The principal commercial nations carry in their own ships the following percentages of their ocean freight: England, 86; Sweden 40; Norway, 40; France, 32; Germany, 38; Holland, 22; Italy, 18; United States, 15. In 1859 we were carrying in our own ships 75 per cent. of our ocean tonnage. A decrease of 60 per cent in twenty eight years is terribly significant. It means that in shipping crews alone American labor has been edged out of an avenue of profitable employment, which would have greatly relieved the present industrial pressure. Shipbuilding has waned and declined. We pay \$120,000,000 annually to British ship owners, enough to buy a fleet in a very few years. Exorbitant tonnage taxes and laws under which the American shipowner must pay twice more for his vessels than the British shipowners. The Republican party organs vociferate in a chorus that they are "protecting" our shipbuilders and owners. They are, indeed, and England is reaping the benefit of that policy.

Barnums circus showed in Washington last week at a dollar a ticket and made a mint of money. It will be remembered that Mr. Barnum was going to sell all he had, at twenty-five cents on the dollar and take to the woods if Cleveland was elected.—S. F. Alta. It will also be remembered that Barnum refused more than the full value of his property from an association of Democrats, headed by Hon. W. H. Barnum of Connecticut. The men who are asserting that the country is going to the low wows, don't believe it a dollar's worth.

The New England manufacturer, by importing contract paper labor has driven the great majority of the descendants of the puritans from their homes or forced to drudge and work for a mere pittance. Western Pennsylvania is filled with Hungarians and Poles, working in Protected Industries for the scantiest wages. The first man to introduce them into the United States was Chairman Jones of the Republican National Committee. No wonder the Republican candidates take to the woods and refuse to debate.

The Republican candidates knew they would have to answer how it was that House Bill 190 was lost, the clause requesting Congress to repeal the land grant of the military road leading from Albany across the Cascades, omitted, the enacting clause of the Keady bill scratched, etc. And they knew they couldn't explain satisfactorily, they thought it best to go it alone. Like the Russian despot, they fear discussion.

The total area of the public domain granted to railroads is 210,000,900 acres, valued at five dollars an acre, or a total of \$1,050,000,000. It was Republican legislation that gave this land to the corporations. No wonder the candidates of that party are afraid to go on the stump.

The Burlingame treaty was negotiated by the Republicans. Five Republican members of the House Foreign Affairs Committee voted against the Morrow anti-Chinese bill a few days since. The Republican candidates in this county could not oppose these facts and so they dodge.

The Republican party has appointed Ex Confederates to office without number. Ackerman and Key, in the cabinet, Gen Longstreet, Guerilla Mosby Fort Pillow Chalmers, and others are penned in the Republican sheepfold. Let the truth be known.

Col. Cornelius was not a boy in blue; he commanded the Oregon militia for a short time in the Cayuse Indian war in 1855; and was a mighty poor fighter if report is true. No chance to build a monument there.

The fish ladder that cost the State \$10,000, was it built for \$200, as charged by the Albany Bulletin, a Republican paper? We wait with anxiety that refutation. The Republican county candidates we think were afraid to meet this, and so they pergrinate the county alone. But they can console themselves with the thought that In all the trade of war, no feat is nobler than a brave retreat.

Over \$36,577,000 have been invested in the the Southern States during the first quarter of the present year in industrial enterprises. Fold the bloody shirt, brethren, for it is time. Leave the South alone, and treat them like any other section of our country, and we suppose they will get along. Let us here in Oregon talk about extra session, mutilated bills, fish ladders, rings and "sich" like.

"The Republican prospect of recapturing the White house under any leader is not flattering at present" said the Oregonian recently. In every Republican State which have held elections since 1884, the pluralities were whittled down, and one State lost. The Cleveland States all increased their Democratic pluralities. There is a world of significance in that to the party of yesterday.

Marston, the Republican candidate for State Treasurer, is a moving individual. In four years he has changed his residence six times, and he left Yamhill county as soon as he betrayed his trust. He is the ring candidate, as they know the kind of a man they have to deal with.—Review.

Voters should examine the railroad record of Col. Cornelius. No railroad ringster should be Governor—such a Governor would probably veto all legislation which is distasteful to railroads. Vote for Pennoyer, the people's candidate.—Review.

If you want a monopolist and railroad henchman for Governor vote for Cornelius. If you want an honest able Governor who cannot be made the tool of any man or ring, vote for the abhorring man's friend, Sylvester Pennoyer.

If 25 years of protection brings organized and unorganized labor in the United States into the state of turmoil and tribulation which now exists where will we land with a few years more of it?

How do you like Portland ring management in Lane county? we would like to ask the intelligent voter.

Multnomah county is Democratic on a fair vote and that is the kind of vote they intend to have there in June.

Prof. Leopold von Ranke, the great historian is dead. He was over 90 years of age.

Prohibition Again.

EDITOR GUARD.—The following communication was written for the Register, but as the proprietors of that paper have refused to publish it, for reasons that will appear obvious to the most casual reader; and in so doing have put the Register in the attitude of having committed a most flagrant blunder, while it does not have moral stamina enough to correct it or permit it to be corrected, I am, in the interest of truth and temperance, forced to ask its publication in the columns of your paper. Special attention is called to this by all readers of the Register.

EDITOR REGISTER.—In your attempt at reply to my article in your issue of the 19th, you say "genuine temperance men who desire prohibition, etc. will vote according to their party affiliations in county when the old parties are pledged, etc." Now that there are genuine temperance men who will so vote is admitted. But why a genuine temperance man should continue to vote with a whisky party is not so understood. And that there are genuine temperance men who will not vote with the old parties, even the Registerman, ought to know; men who for the last ten, twenty and thirty years, have stood in the thickest of the temperance fight, with no hope of reward, except that which accrues through a consciousness of having done right. They are men who are not to be scared or swayed from the path of duty by silly impudences, such as "the slyster who wants to be kicked into rotundity, and who is a temperance man for revenge only." May I not suggest, Mr Editor, that you are aiming too low? Such arguments will not win thoughtful, temperance men. They may be appreciated by the seditious element, but that element is already with the two G O P's, and is in no danger of being drawn away by the third party. Save your ammunition, Mr Editor, or elevate your little gun. "Pious as a martyr, etc." Mistaken again, Mr Editor. No temperance man craves martyrdom, especially when he sees so much needed, in the way of political reform. We want to save the 60,000 victims, from the worst form of martyrdom, who are actually thrown into the jaws of the rum fiend through the avarice and contemptible cowardice of the old parties in their frantic efforts to propitiate his favor. "That plainest proposition." Now, Mr Editor, we own up on that; we do not know that the third party is run in the interest of defeating the Republican ticket, and might be tempted to stay away from the polls, rather than cast an unintelligent vote, but for the fact that our would be instructor continues to make such egregious blunders that we lack confidence in his judgment. Witness the following, viz: "All the stockholders in the Prohibition Star are Democrats; all the State organizers of the third party are Democrats." Now the fact is that three out of the five incorporators were formerly Republicans. And as to the State organizers think of such starting men as D. W. Stearns, of Douglas; C. M. Hart, of Malheur; S. P. Wilson and Z. T. Wright, of Multnomah; G. M. Miller and W. L. Nash, of Benton; P. W. D. and H. S. Lyman, of Washington; Fess Van Scoy, J. W. Webb and E. E. McKenny, of Marion; Ashley White and J. R. Shepher, of Polk, all of whom were Republicans before they went into the third party, and this scarcely begins the list of the noble, solid, strong men who are now engaged, heart and hand, in this grand movement, and who were Republicans before they went into the third party. And do think of a respectable newspaper standing up before an enlightened community and asserting in the leastest terms that all the State organizers are Democrats. Mr Editor, there is but one excuse in the world for you that I can possibly think of, and that is that you are a new-comer, and have suffered yourself "steamed." Finally, you say, "Where it (the third party) has ever accomplished a single political result, this is the sum total of it." And yet a grand host of the best thinkers of this or any other age, readily concede that nothing in the last decade has so "look up the nation on the question of temperance reform as the St John vote.

C. A. WOOLLEY.

There is no better printer in this State than Chas. Nickell candidate for State Printer.

The blunders of the last Republican Legislature were only equalled by its phenomenal bigotry. This is one reason why the boss will not allow discussion, we suppose.

When they recall the profuse and lavish distribution of public lands to corporations the Republican leaders may say in Shakespeare's words "We have kissed away kingdoms and provinces."

O. T. Porter is known to nine tenths of the people of Lane county as a staunch Republican, and his paper is supporting the Republican ticket. The charges he makes are very direct, and if there is no truth they can be easily disproved. So fire away.

Republican Speaking.

The Republican candidates for State officers spoke at the Court House last Saturday afternoon to a fair audience. Cornelius first appeared. He apologized for his appearance before the people; virtually admitted that he would not agree to meet Pennoyer when consulted about the matter in Portland; omitted the record given him by his opponent; voted in favor of the capitalist, monopolist and Chinaman; claimed that he had known Pennoyer for 30 years and that he was an honest man; talked "bloody shirt" the most of the time he was speaking; was in favor of the State building roads; the best way to get rid of the Chinamen he said was to pass sanitary laws; was in favor of protection; was in favor of submitting the "Prohibitry" amendment to the people; said that Pennoyer was in favor of riding the Coast of Chinamen; said he had a pleasant home, built, we suppose from the toil taken from the Washington county farmers who are bound to store grain in his warehouse.

He proved himself to be ignorant and illiterate. His speech abounded with such expressions as: "Me and Pennoyer;" "I tuck and done;" "I were in favor;" etc. The Republicans were disgusted.

Melrose, a crippled fellow, and Marston, also made a few incoherent remarks. No enthusiasm prevailed.

Deputy Sheriff Cochran and Mr Cochran took Mr Champion to Eugene Saturday. It is rumored. He says that the spirit told him to kill a number of persons, who he will soon do. He was in the asylum some time ago and was supposed to be insane, but his mania has returned.

Messrs Sam and Oliver Vantch had an adventure with a mad bull a few days ago. They were chased had to climb trees for safety. The bull was not to be done, so lay himself down hard by to guard while the men rested in their place. They rested until they were tired of resting the bull keeping a faithful watch. After an hour passed, still no sign of the bull growing weary, but the boys' place of refuge not being as comfortable as one could wish, one of them being up a thorn bush, and the other approaching and being out of hearing of human being, they naturally grew restless. The watcher kept his place. At length darkness came and still no sign of change in the enemy. So they held a council of war and planned a retreat, and slid down to ground and made for a fence, the vigilance of the bull in hot pursuit. Oliver fell down falling over him, both got up in quick time and got to the fence in safety, but the moment too soon, and reached home about 10 p m.
