PRODUCE MARKET.

Eugene City Business Directory.

Boot and Shoe Store.

Hon. Frank Tilford, a pioneer of California, died at Denver on the 2d.

It is reported that at the instance of France the allied powers have ordered their fleets to raise the blockade against Venezuela.

A dispatch from Australia reports the loss of the steamer Lycomon, from Melbourne for Sydney, off Green Cape. Seventy persons were drowned.

Robert Slaughter, a cattleman, was assassinated near Monahan, Texas, on the 29th ult., by a man named Jackson. The body was taken to Colorado for burial.

A cave-in occurred in the Col. Sellers mine, near Leadville, in which Joseph Petti, Louis Miller, H. Hitchcock and Louis Pretti, four miners, were caught.

A special dispatch from Halifax says the captain of a coaster just arrived reports that the L. Howlett has seized an American mackerel fisherman off the Gasparov coast.

The funeral of Stillman S. Davis, past grand chancellor of the Knights of Pythias, occurred on the 30th at Nashua. His wife, who died at the same hour, was buried with him.

Andrew Carnegie, the great steel manufacturer, has given \$250,000 to Allegheny City for establishing a free library and music hall. This is in addition to his gift of \$500,000 to Pittsburgh.

Johann Most, the anarchist, was sentenced at New York, on the 2d, to the penitentiary for one year and fined \$500.

His associate, Brunschweig, got nine months in the penitentiary and was fined \$50. Schenck was sent to the penitentiary for nine months, but not fined.

In pursuance to instructions from the United States government, Minister Phelps had an interview on the 29th ult. with Lord Roseberry, foreign secretary of the fisheries question. It is learned from official quarters that the government is rather glad than otherwise that the trouble has occurred, as it is thought the present dispute will hasten to a lasting settlement.

MINING NEWS.

The Ketchum smelter will start up for the summer run next week. The outlook is favorable for prosperous times in the entire Wood river country this season.

Bedrock Democrat: We were yesterday shown by Jas. W. Virtue a fine solid gold nugget picked up in one of the placer claims near Pocatohas. The nugget is about one inch and a half long and about one inch wide, and weighs \$90.

The Wagner Creek mining company has filed articles of incorporation in the office of the secretary of state, with J. W. Walsh and H. T. Bragdon, of Ashland, and J. Brandt and K. Koehler, of Portland, as incorporators. Principal office at Portland, and capital stock \$25,000.

Idaho Statesman: Yesterday the News Miner was informed by Superintendent Havens that he would declare a \$20,000 dividend on Friday. This makes \$71,000 in dividends that has been declared since Havens took charge of the mine the latter part of April, 1885. The Idahoah is one of our steady producing properties and bids fair to turn out abundant mineral wealth in the future.

Bedrock Democrat: A rich strike of quartz was made last Tuesday near the Nelson placer mines, on Salmon creek, about seven miles from this city, by a Mr. Gray and partner. The vein is ten inches wide and shows indications of great richness. A small piece brought to this city, picked up at random, contains about \$3 gold. The work of development will be pushed as rapidly as possible, and good returns are expected from the new find.

Boise Statesman: There is great activity in all the mining camps in Idaho, and all accounts agree that the present will be the most successful and prosperous year to mining men of any since mining first began in the territory, and the output of gold and silver will run well into millions in excess of the yield in any former year. This is very encouraging, and making all due allowance for over-estimates, the production of gold and silver in Idaho during 1886 will scarcely fall below \$8,000,000.

From the Scout: We were shown this week by Mr. M. E. Legore, of Wallawa, some extremely rich specimens of ore taken from the Little Giant and Pine Leaf mines, which are situated about three miles south of Joseph. Various assays have been made, and those from the former runs from \$23 to \$50 to the ton in gold. The snow has been too deep for much work to be done on the mines as yet, but operations will commence now that the snow is about all gone, and the mines will be developed as rapidly as possible. Other locations in the Wallawa promise to be extremely rich, and in all probability there will be almost as much of a boom there this summer as in the Pine creek region.

Cornucopia correspondence to the Sagebrush: Cornucopia is experiencing a slight boom at present; building is going up at a brisk rate. The hotels have been opened and are doing a fair business; four saloons are dispensing liquors to the thirsty public; a brewery is in operation; a large blacksmith shop under the able management of Wm. F. Rea; three stores which contain complete stocks of general merchandise have recently opened. Snow has almost entirely disappeared, so that the prospector can wend his way out over the hills in search of the precious metal. Within the last few days there have been some good locations made on what is called the Simmond's mountain. The Simmond's mine is now being worked, a force of ten men being employed. The ledge is very rich in galena ore. The Whitman mine is now down 160 feet; a large size winze has just been placed in position; the extension of the Whitman mine, the Alta, is to be sunk 250 feet; the contract has been let out to Messrs. Lindner and O'Malley. James Maloney's ledge, the O. R. & N., has been in dispute in the justice court, other parties claiming the same; it is undoubtedly a rich ledge; fourteen ounces of gold were recently pounded out in a sand mortar. The dominion, Burdette Co., is now tunneled to a depth of 140 feet, a contract has been let to H. Kern Co. to tunnel 150 feet deeper; the ledge assays very rich in silver. A two stamp quartz mill has been put in operation by Portland parties; if the enterprise succeeds the company will soon put a large mill. The O. G. M. Co. have just started to work clearing off a mill site a quarter of a mile above town, a saw mill will also be erected on the same by the company.

Crops in Yakima valley look well. North Yakima is to have a grist mill. Pomeroy boasts of a female dentist. A number of buildings are being erected at Seattle. Many cattle dealers have been buying in the Palouse country. J. E. Booth will soon launch a newspaper at Salmon City. A band of 2200 sheep at Pomeroy sheared 22,000 pounds of wool. The Cheney flouring mills are to be renovated and put into operation. Jos. M. Snow has been appointed probate judge of Douglas county, W. T. The Northern Pacific trains run into Ellensburg three times a week with the mails. James Sullivan, deputy marshal under the late Marshal Hillyer, of Alaska, died at Sitka May 9th. The Right Rev. Daniel Sylvester Tuttle, bishop of Idaho and Utah, has been elected bishop of the diocese of Missouri. It is expected that Kittitas county will this year produce 650,000 bushels of grain. In 1885 the yield did not much exceed 250,000 bushels. A side track is being put in at the horn of the Yakima, sixteen miles below where a trading post is to be established for the Horse Heaven country. The one-story frame house of John Brown, the musician on Eleventh street, in Walla Walla, was destroyed by fire, with its contents, last week. It is reported that the Cascade branch of the Northern Pacific railroad on the west side of the mountains will be ready for use to the fifty-mile post in a few days. Walla Walla Statesman: The body of George L. Ravenaugh was found last week, four miles from Rockford in a ravine, apparently having been dead five or six days. The sisters of charity have purchased a lot 202x450 feet in Spokane Falls, on which they will erect their hospital. The building will be brick, 80x50 feet, three stories high. One hundred tons of steel rails for the Satsop railroad company arrived in Seattle on the 20th, to be used in the extension of that company's line. Other shipments will arrive on the ocean steamers. Wm. Miller, oldest son of the man held for the murder of Coleman and Paten at Seattle, was again examined for insanity in the probate court and pronounced insane. He was sent to Stella-com. John Swanson, one of the men engaged in the Tacoma mill, was, on Tuesday, struck in the back and side by the breaking of one of the saws, a piece of which cut a gash between the ribs, seriously injuring him. Dr. M. Jones has been indicted at Bellevue for manslaughter. Some time since Frank McDaniel, a young man, broke his leg, and Jones set it wrong. McDaniel died from the effects of the operation to re-set the limb. Lee Shon, a Chinese gambler of Walla Walla, made love to a married Chinese woman, and because his love was not reciprocated, proceeded to kill her. He cut her on the wrist and forehead, and was then gathered in. James Close, who was convicted of manslaughter for killing an Indian at Walla Walla, was sentenced to one year in the penitentiary, and also to pay a fine of \$5. Close's attorney may possibly move for another trial. The Cheney Sentinel says: A private company, in which President Smith, of the O. R. & N., is interested, has been organized to build a railroad from Farmington to the south fork of the Cour d'Alene river in the mining region. Including the cost of constructing the Cascade tunnel, building the switch-back and closing the gap of seventy-five miles with track, the Northern Pacific will expend no less than \$3,000,000 in Washington territory within the next two years. All the bridges on the railroad between Pomeroy and Starbuck are now completed and the bridge carpenters have taken their departure for Farmington, where they will build the necessary bridges on the extension from that place to Colfax. Lieut. Kimball, of the Fourteenth infantry, is the happy father of the first twins ever born in Spokane Falls. His father, Gen. Nathan Kimball, was the first man who whipped Stonewall Jackson, and the lieutenant feels bigger than his father did on that celebrated occasion. J. M. Buckley, assistant general manager, Northern Pacific, has made a trip down the Clark's Fork river to the British line. He has been in the Calispel country making an examination of its agricultural and mineral resources with a view of running a branch of the Northern Pacific down that way. The Commissioners of Spokane county have offered a reward of \$500 for the arrest and conviction of the murderers of R. J. Rusk, of Spokane Falls, who was killed about the 22d of last April; and \$300 reward for the arrest and conviction of the murderers of Charles G. Geiger, killed on or about June 20, 1885, near Spokane Falls. Joe Bowzer many years ago planted six hundred \$20 gold pieces in a stone jar in Yakima City at the foot of a tree on the corner formerly occupied by Bowzer's livery stable, but during three years past occupied by the First National bank. It had been buried so long that roots as large as a man's wrist had grown over the jar. Bowzer left for the east a few days ago, but before going dug up the jar and carried off the coin. Prosser City is situated fifty-seven miles southeast of North Yakima, on the Cascade branch road. It has two stores, a livery stable, two hotels and a saloon. The first settlers suddenly left, unable to find sufficient water. But Colonel Prosser came, and saw and conquered the difficulty, and he is now selling his town lots and water privileges. Pomeroy Times: Last Sunday as John Mitchell was coming down the canyon from Brooks', south of Pomeroy, the team which he was driving took fright and ran away, inflicting injuries to the young man from which he may never recover. His injuries were more serious than at first supposed, two of his ribs having been broken, together with other internal injuries from which his recovery is doubtful. His mother, Mrs. Mitchell, was considerably shaken, but will recover in a short time. The young man is about 19 years of age.

Baker City hotels are crowded. Hillsboro can soon boast of planked streets. An Odd Fellows' lodge is talked of at Medford. Dr. J. Ashton was found dead in his room at Smith's hotel, Liakville, on the 25th ult. Al Vogel was arrested at La Grande on a charge of perjury and taken back to Pendleton. A postoffice has been established at Milwood, on Hubbard creek, with John L. Baker as postmaster. McQuarry, a typo in the Pendleton Tribune office, was kicked and run over by a horse and severely injured. A. W. Stanton sold 39,000 lbs. of wool at Echo, Umatilla county last week, at a net price of 14 1/2 cents per pound. The residence of J. S. Linscott, living near Lake city, Laice county, was destroyed by fire last week. Loss \$2,500. In a few days the steamer Cleveland will be ready for work, and two steamers will be run between Newport and the docks at Yaquina. The governor has appointed C. B. Carlisle, of Portland, and Edwin Howland, of Cornucopia, Union county, notaries public for the ensuing two years. Last week the dwelling house of Mr. L. A. Rose, on the county road just north of Phoenix, was entirely destroyed by fire, together with nearly all the contents. Sheep shearing is about done with in Eastern Oregon, the clip being better and larger than ever before, and with fair rates, will circulate considerable money. Leader: Mr. Jenkins has a large contract for ties for the O. P. road. He has come up to the Mohawk to get them out, whence they will be floated down the river to Corvallis. Fifteen carloads of rails were brought to Corvallis last Wednesday. Enough iron is being brought to Corvallis now to lay the road to some point beyond Albany. The right of way is being secured. Hon. A. C. Wallace says Yamhill county is going to have a fair. Considerable work is being done on the track, and it is now in good condition for training. Some good racing is promised for the Fourth. Farmers on Coos river have had to resort to poison to rid themselves of pigeons, which are destroying the crops. The birds are said to be very numerous in Daniel's creek, and near the forks of the north fork. Dalles paper: The old gentleman, Mr. S. A. Patterson, who died at the county hospital last Thursday, we learn, was a pioneer resident of California, and was the first secretary of state after its admission into the union in 1849. Polk county paper: The prospect of a bountiful harvest was never, in the memory of the "oldest inhabitant," more flattering than at present. A good crop this year will put the farmers square upon their hind legs. Roseburg paper: Mr. James A. McCormick, special agent of the interior department, staid over one day this week in his way to examine the records of the Lakeview land office, which, under the recent division of the department, is a part of his district. Cannerymen report that they are running on "about half time," some putting up 200 cases a day, some more, some less. The Chinese, who get from 35 to 38 cents a case, are fretting their oriental gizzards over the light catch. The season thus far shows little semblance of the old-time activity, when 750 cases was no unusual day's pack. The State grange, at its recent session in Portland, elected the following officers for the ensuing year: R. P. Boise, worthy master; A. Luelling, overseer; H. E. Hays, lecturer; J. W. Cook, steward; J. Voorhees, assistant S. A.; F. Miller, chaplain; E. Strong, treasurer; M. J. Train, Sec.; J. Simpson, gate-keeper; S. M. Cook, Pom.; E. Russell, Flora; Annie Simpson, Ceres; Lydia A. Brooks, stewardess; John Minto, member of executive committee. Gold Beach Gazette: Mr. Macy is engaged in building four barns near the race track for the accommodation of the flyers. The schooner Helen Merriam was towed to sea Friday last by the tug Pelican, and sailed for San Francisco. Her cargo consisted of salmon, cord wood and wool. A new company has been organized, consisting of Frank Daniels, Albert Smith, Dennis Conniff, Jr., and George Forty, for the purpose of sealing on Blanco reef. The Ochoce Review says: Within the past month B. E. Allen has bought 10,000 head of mutton sheep for Turner & Co., of Fremont, Nebraska, paying for them an average of \$1 75 per head. The sheep were started for their destination last week and will be driven across the plains. During the same time C. M. Cartwright bought 6000 head for Mr. Rannels, also of Fremont, and these sheep passed through town Wednesday, en route for Nebraska. The sale of these sheep left about \$28,000 distributed among the sheep men of Crook county.

Portland. FLOUR—Per bbl. standard brands \$4.00; others, \$2.25 to \$3.25. WHEAT—Per ctn. valley, \$1.20 to \$1.24; Walla Walla, \$1.10 to \$1.12.
