

THE EUGENE CITY GUARD.

SATURDAY.....SEPTEMBER 25, 1886.

Forty Pennsylvanians were arrested the other day for buying delegates in a Republican convention.

The hat size of Mr. Gladstone is 7 1/2, Lord J. Russell, 7 1/4, John Bright, 7 1/4, the Prince of Wales, 7. The Scotch head is larger than the English.

An Italian named Succi has discovered a concoction of African herbs which enables one to subsist for thirty days without food. The mixture would be popular in Chinatown.

The charter of the William and Mary College, in Virginia, is retained by the old President ringing the college bell every morning. No student responds, for the institution has been defunct for years.

The letter from the Prince of Bulgaria, commencing "My dear Czar," seems to have brought as much trouble on the writer as did a famous epistle, once upon a time, which began with, "My dear Fisher." Princes and politicians should beware of letter writing.

The bloody shirt is again flung to the breeze in Ohio. The striking white miners in that State have gone for the negroes who have taken their places, with shot guns. Where is John Sherman! Another southern—no, Ohio outrage.

It is complained that there were more Democratic office-holders in the Wisconsin State Convention than for fourteen years. Well, we have more office-holders than for fourteen years, which is really the reason for this complaint.

It is remarkable how accurate science has become. The recent scientific convention at Buffalo laid down the doctrine that men who think live thirty-three years longer than those who never think. Maybe this will cause some men to stop talking and go to thinking.

Dr. Lesseps is a magician whose zeal for great public works no Frenchman can regard with indifference. With the last wave of his hand he has invoked subscriptions for 458,802 shares in the new Panama canal loan. It is a colossal proof of his resolution to succeed or "die in the ditch."—Ex.

Eloping in Texas are as common as divorces in Chicago. A citizen of Waco had a remarkable experience one day recently. He went to visit his mother, who is nearly 60 years old, in a neighboring town, but found she had eloped with a man half her age. On his return home he was met with the startling information that his wife had eloped with a handsomer man. He has now sold out and gone to Utah.

Six young boys of Seattle have been sentenced to the penitentiary for considerable terms, ranging from one to four years, for grand larceny, because there was no reform school where they could be sent. There is no disputing the fact that a term in a penitentiary, surrounded by hardened convicts, will make a criminal of almost any youth, what ver his early training may have been. The exceptions to this rule would only prove it. Oregon and Washington Territory both need reform schools, and that as quickly as it may be provided.—Telegram.

Regarding the credibility of Chinese witnesses, Collector Hager is very skeptical, say a writer in the San Francisco Chronicle, and relates that on one occasion when a Chinese was refused a landing he had the Mongolian brought to his office as asked him a series of questions, such as: "Have you lived here before?" "Did you live in this city?" etc., to which he received affirmative replies. Finally, he asked: "Now, all you have told me is false, isn't it?" "Yes," replied the Chinaman. "Not a word of truth in it; all a — lie!" "Yes; all heap — lie."

There are said to be fewer idle men in the United States now than at any time since the days of the boom. More men are employed in the iron and steel mills, coal mines, lumber camps and machine shops and factories than ever before. Moulders, machinists, tool-makers, hardware shopmen and the members of the building trades, have full and regular employment. The average rate of wages is higher, but the prices of products show very little if any change. Common labor averages 25 per cent. more than a year ago.

It is estimated that there are now with the colors in Europe very nearly 4,000,000 men, rather more than 5 per cent. of the adult male population. This tremendous armament forbodes war. Recent estimates show that Russia is spending \$225,000,000 a year on her army and navy; France, \$200,000,000; Great Britain, \$150,000,000; Germany, \$100,000,000; Austria, \$80,000,000; Italy, \$50,000,000; Turkey, \$30,000,000; Spain, \$30,000,000. These powers spend together the enormous sum of \$845,000,000 annually in preparing for war. Can any one believe that a faith manifesting itself by such works as these can be mistaken? There are 800,000,000 arguments advanced each year in support of the thesis that a great European struggle is imminent. Who can doubt it in the face of such reasoning.

Schwatka Finds Another River.

The New York Times has a dispatch from Frederick Schwatka, in command of its Alaskan expedition, dated Sitka, Sept. 10th, via Naniamo, British Columbia, Sept. 19th. Schwatka says his party, on July 26th, got to a height 17,200 feet above sea level, on Mount Elias, the highest climb above snow level ever made. One of Schwatka's most important discoveries was an immense river emptying into Icy bay, which is a mere indentation of the coast sixty miles west of Yakutat bay. The stream is from a mile to a mile and a half wide, 800 to 1000 yards of which is running water, the remainder being at low tide mud, sand and gravel. It was surmised at the time, and afterwards partially corroborated, that the great river is entirely too big in every way to be draining only the seaward slopes of the Mt. Elias mountains, from which it apparently comes. It must head far beyond the range, and break through them. Icy muddy waters, from glaciers, discolor all the waters of Icy bay, and for many miles out to sea. It was named Jones river, after George Jones of the New York Times. It is not thought to be rivaled by any Alaskan river emptying into the Pacific ocean.

The showing made during the first fiscal year of Democratic rule is a sad blow to many wise (f) Republicans who were able to tell during the campaign how rapidly government affairs would go to the demitition how-woes. The revenues increased \$13,000,000 over the last year of Arthur's administration, while the expenditures were nearly \$15,000,000 less. The public debt was decreased \$36,037,766, against \$63,494,708 the year before, and the surplus in the treasury after all expenses of the year were deducted from the revenues reach \$47,000,000 against \$18,000,000 last year. This is the answer that the Democratic administration makes to the doleful Republican prophets and ranting demagogues who went about saying that under a Democratic President everything would be stolen, the treasury bankrupted and the country go to the dogs. Instead of that the first complete fiscal year under a Democratic President ends with increased revenues, decreased expenditures, decreased public debt and increased surplus in the treasury.

The builders of the Republican platform at the north have this year omitted two planks which in other times were regarded as an essential part of the structure. Indeed, to exclude an expression which has now passed into ancient history, we might call them the very "meatballs" of the Republican political edifice. We refer to the "negro resolution," and the "view with alarm" plank, which have heretofore played such a prominent part in the complication of principles when "our friends, the enemy," were wont to air their political faith. It would seem from these omissions that the northern Republicans are no longer in such awful dread of the bold, had Confederate brigadiers, to whom they ascribe the full purpose of doing many awful things to the government and the country, when the Democrats gained the political ascendancy.—Raleigh, (N. C.) News.

A perusal of the organs of "protection" shows an inclination to have it if people believe that the South is drifting toward the policy which robs the producer to benefit the manufacturer. Of the 35 votes cast by men representing a democratic constituency against considering a revision of the tariff, during the last session of Congress, but 6 came from the Southern States, while 120 southern Congressmen voted for a consideration of the same. That does not look as though "protection" ideas were growing in the south.

"How he saved St. Michaels," once a popular poem, was descriptive of a heroic act of a colored slave in saving St. Michaels church in Charleston. The earthquake destroyed that historic structure.

Here is an old prophecy that is revived by events in Europe:

By the Danube and the Dnieper Will the Cossack warrior sleep; By the Volga and the Don Will the Cossack mother weep; There'll be sold, too, on the Severn, And walking on the Thames, And Europe will a picture be Of blood and tears and flames.

The Pioneer-Press estimates that during the past five months between two and three hundred persons have been killed in Minnesota, Dakota and Montana by atmospheric electricity and by tornadoes.

It is rumored that Governor-elect Pennoyer will secure a house in Salem and occupy it during the legislative session only, it being his intention to make Portland his home during his official term.

Get down the matchlock, lumber up the campaign jaw! Seventy-five peaceable negro coal miners have been fired on, and some of them shot down in their roomy tracks! But hold a minute! It happened in Coshocton, Ohio.

Mr. Louis Vossion, consul of France at the port of Philadelphia, has arranged to translate and produce in France Henry George's book entitled Protection or Free Trade.

Remember, you can purchase Justice Blank summons, civil and criminal only, cases and complaints at the Guard office at Portland prices.

Cure For Piles.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulence, uneasiness of the stomach, etc. A moisture, like perspiration, producing a very disagreeable itching, after getting warm, is a common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Bosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, allaying the intense itching and effecting a permanent cure. Price 50 cents. Address the Dr. Bosanko Medicine Co., Piqua, Ohio, Sold by Osburn & Co. and W. S. Lee, of Junction.

Health is wealth. Wealth means independence. The keynote is Dr. Bosanko's Cough and Lung Syrup, the best Cough Syrup in the world. Cures Coughs, Colds, Pains in the Chest, Rheumatism and Primary Consumption. One dose gives relief in every case. Take no other. Price 50 cents and \$1. Samples free. Sold by Osburn & Co.

Delinquent Tax Notice.

Notice is hereby given to all owing taxes, now delinquent, that the County Court at its late session ordered me to collect the same forthwith. This is therefore to notify all concerned that if they wish to save costs they must come forward at once and pay the same or I will be obliged to proceed against them legally. J. M. SLOAN, Sheriff Lane Co. Sept 15, 1886.

PRIVATE SCHOOL.—F. E. Patterson's private school will open Monday, October 4th, 1886, in Rhinehart's parlors. Pupils will be permitted to take such studies as they wish. A thorough course of University book-keeping will be taught without extra charge.

B. F. DORRIS, INSURANCE AND REAL ESTATE AGENT.

ROBUST HEALTH

Is not always enjoyed by those who seem to possess it. The taint of corrupted blood may be secretly undermining the constitution. In time, the poison will certainly show its effects, and with all the more virulence the longer it has been allowed to permeate the system. Each simple, sty, boil, skin disorder and sense of unnatural lassitude, or languor, is one of Nature's warnings of the consequences of neglect.

Ayer's Sarsaparilla

Is the only remedy that can be relied upon, in all cases, to eradicate the taint of hereditary disease and the special corruptions of the blood. It is the only alternative that is sufficiently powerful to thoroughly cleanse the system of Scrofulous and Mercurial impurities and the pollution of Contagious Diseases. It also neutralizes the poisons left by Diphtheria and Scarlet Fever, and enables rapid recuperation from the enfeeblement and debility caused by these diseases.

Myriads of Cures

Achieved by AYER'S SARSAPARILLA, in the past forty years, are attested, and there is no blood disease, at all possible of cure, that will not yield to it. Whatever the ailments of this class, and wherever found, from the scurvy of the Arctic circle to the "velvet-sores" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggists everywhere can cite numerous cases, with- in their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to

Trust Nothing Else

than AYER'S SARSAPARILLA. Numerous crude mixtures are offered to the public as "blood purifiers," which only allure the patient with the pretense of many cheap doses, and with which it is folly to experiment, while disease is steadily becoming more deep-seated and difficult of cure. Some of these mixtures do much lasting harm. Bear in mind that the only medicine that can radically purify the vitiated blood is

Ayer's Sarsaparilla, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists: Price \$1; Six bottles for \$5.
