After a time they will run a factory and boring machine in connection with the gun shop. As long as life tolerates us, we think we can find the reflections cast upon by our worthy correspondent, "Gossip" alias "Potato Blossom" or "Potato Pen." Even if you are an extraordinary personage, you may find that, in this contest that there will be blows to take as well as blows to be taken. That others can state comparisons significant, at least, as your own; that your impunity may possibly stand on your whatever powers of taunt or insult you may possess. However, only remember that, if a bushel of "Potato Blossom" or "Potato Pen" be shaken in a famer's barn that has no springs to it the small always get to the bottom; and where one all his conceits taken out of him, his feathers soon soak through and he will fly no more. Use Hoop. BAKERS TAKE NOTICE.—A good dinner can be had at Baker's Hotel for 25 cents.

SIUSLAW BAY.

Joaquin Miller tells the Chicago Tribune about this Splendid Harbor. "I set out to tell you of the Chicago Tribune something of the resources of Oregon and her newly discovered Bay. This State has many hundreds of miles of sea front, but has not a single good harbor. That is recognized as yet. The mouth of the Columbia (or Oregon) river is a graveyard for ships. Yet it is the only harbor for which the Government seems willing to do anything this side of the Golden Gate. But a new harbor—has been found of late, which, I am told, may revolutionize the coast. It is a short ride from Eugene City to the Pacific Ocean. But all these years the route, and the sea bank as well, have remained an unknown land. The reason is the high, black mountains that lift up and hang almost over the sea are entirely inaccessible. No horse, much less a vehicle, can cross the densely timbered and sombre sea walls. Yet one little stream has made its way to the sea here through a tangled and impenetrable mass of vine maple, myrtle, cedar and indeed, all sorts of jungle, in which the sportive bear likes to make entirely his own habitation. Naturally one would think that the fishermen or the few old seamen drifting up and down the coast would have found this Oregon seaport ere this, and maybe they have, after a fashion. But no one ever seemed to take any interest in it before, and I have never heard of it until now, although I was raised right here almost within the sound of the breakers that roll in and waken the hush of the densely wooded shore. I regret that I have not yet been able to visit this new and entirely unknown seaport of Oregon. But I have applied to a reliable party for information, and I beg to submit his statements and suggestions on the subject, for I know him to be truthful and think him to be correct in his observations. How strange that Congress should feel justified in dividing up the river and harbor money? It should go to the new ports. This gentleman says: "There is a beautiful harbor here, mid way of the coast of the State, broad and well protected, known as the Siuslaw Bay. Through the jealousy of rival ports of entry it is not permitted to be much known, not even surveyed by the Government. Late soundings, however, demonstrate that its bar has twenty-six feet of water at high tide, and that the bay has from thirty to sixty feet. And this in its native and unimproved state." This reminds me that the whole coast of Oregon is in an almost primitive state, so far as the harbor improvement goes. Along the 250 miles of Oregon coast—air line—there is no place for a large ship to enter. The Siuslaw Bay affords the best entrance between the Golden Gate and Puget Sound. The condition of the river and harbors of this country is indeed shameful. Some of the money now in the public treasury should be spent for their improvement, so that this growing and brave young State may be able to have use of the high seas for the purpose of sending her produce to market, instead of being compelled to pay heavy freight tolls to railroad companies. Such outlay of the public funds as the improvement of our rivers and harbors add greatly to the country adjacent. You of the East and older States ought not to tie up this money and shut off our supplies. Your harbors are already improved; ours are hardly as yet discovered. Were it paid out for this purpose it would work its way into the channels of trade and become what it was intended to be, a circulating medium of exchange. Let the people use the money. They will give it up when wanted. When the debts of the government become due, or when our government needs money the people will respond instantly and pay their just taxes. A nation can no better afford to neglect public improvements for the sake of keeping a full purse than a farmer can neglect to plow his field for the sake of saving the price of the plow. Nature has provided the cheapest and safest of highways—our rivers, bays and oceans—so let us take and use them for our own comfort and benefit. To provide safe ports of entry is the duty of the government, and is by far the cheapest way to build up our commerce. Let the government open and make safe our rivers and harbors and private enterprise will soon supply the ships. We, as a nation, are running wild over railroads, while we almost wholly neglect the far cheaper method of navigation. Surrendered, almost by deep water, this nation ought to take at least the second place in commerce, but as it is we are not even contented. The Siuslaw bay affords an excellent harbor, is easy of access for railroads, and will in all probability be the commercial outlet for this State before another generation."

Springfield Items.

September 24, 1886. Whooping cough in town. Mr James Armstrong is treating his dwelling to a fresh coat of paint. Mrs Laird returned on Monday last from a short visit to friends and relatives at Pleasant Hill. Our merchants have been receiving fresh shipments of goods this week. Looks as though business is improving. Mr Linder will soon open a general livery and feed stable. Where is the enterprising man that will open a first class hotel? Now, Mr Editor, of course, we don't approve the idea of using the columns of your valuable paper for the purpose of advertising a private enterprise without pay, but permit us to say to the snap and lye company of which mention was made in the Dexter items of last week, that in the event of their store of lye becoming exhausted, it can be procured from persons who are located not many miles from Springfield and at extremely low figures. We have no hesitation in recommending the firm. We know them to be experienced workmen and believe they will guarantee their goods to be strictly American lye, and the very essence, too. The rumor has reached the ears of your correspondent that a certain hop grower in Lane county discharged a young lady for screaming at the sight of what she supposed would end in a dog fight. One being a large mastiff, the other a very small poodle dog. Notwithstanding the hop man had given notice that he would ship the first one that spoke above a whisper, or should speak in favor of dancing. Due allowance should be made for screaming young ladies, especially when a large mastiff is about to pounce upon a little whining poodle. Suffice it to say that the lady was not discharged for hallooing, but because she was an unprotected fatherless child. Vengeance must be wreaked out on some one, hence the discharge of the poor girl. IRREGULAR. List of Letters. Remaining uncalled for in the Post Office at Eugene City, Oregon, Friday, Oct 1st, 1886: Bailey, Jas Lynch, Wm Ellis, Bert Randall, Jas B Ware, Mrs E F E. L. Warren. Persons calling for the same will please say advertised, giving date of advertisement: F. W. OSBURN, P. M. THE POSTAL TELEGRAPH CO.—A string of men will begin to day the work of setting poles and stretching wire at Goshen for the new Postal Telegraph Company's line. This company has a cable from Europe to America, and 30,000 miles of wire in the Eastern States, and their wires will be sent wherever a W U T exists in the U. S. The company have wires along the Canadian Pacific, and the section from Goshen to Roseburg is now the southernmost to San Francisco, where the line is to be built. Immediately on reaching that point their men will be set to constructing a telegraph line to Salt Lake City where they join on the Eastern system. The wire used by this company is of copper, and is both heavier and more durable than other wire, and the poles will be celled cedar ones. By the 1st day of January next their Eugene office will be in operation and it is said to say that the new company will get four-fifths of the business in Eugene City. THE HOP MARKET.—New York dispatch, 29th ult: In the hop market there is little more than a retail business here. At the present time some very good quality of new Pacifics are offered on spot at 32c, and a fair article went at 29c. In states there is not enough doing to agitate the market. Western parties are said to have given 50c for a fifty bale lot of choice new white. Common grades and inferior lots go begging at 25c and thereabouts. Some fair quality of 1885 states, lately shipped from abroad, are offering at 17c and 18c. The following are as near as can be got to market values: New York state crop of 1886, common and medium, 25c to 30c; do 1885, prime choice, 17c to 22c; do common to medium, 12c to 15c; do 1884, 10c to 15c; Pacific coast crop of 1887, good to choice, 20c to 32c; do 1885, good to choice, 15c to 20c. ACCIDENT PROVES FATAL.—On Saturday, Sept 18, L D C Latourette, of Oregon City, was driving, when the team ran away, throwing him out and fracturing his ankle. The wound, was, at that time, considered a serious one although not a necessarily dangerous one. The leg finally had to be amputated, however. The shock proved so great that death ensued on Friday last. Mr Latourette was aged 63 years, and was one of Clackamas county's most respected citizens. SELLING LIQUOR TO INDIANS.—The first of the week the sheriff arrested James McFarland, Ben Stewart and Frank Higsby on the charge of selling whisky to Indians. A deputy U S marshal took the individuals to Portland yesterday, where they will be tried on the charge before Judge Deady. They are all old offenders and should be given terms in the penitentiary. LECTURE.—A Mr Hood sign of the Temperance Work, by Mrs M B Reese, of Ohio, organizer for the W C T U, at the Presbyterian Church in this city on Tuesday evening, Oct 5th, at 7:30 p. m. Mrs Reese having recovered from her recent illness, will doubtless be punctual to her appointment, and deliver a lecture worthy of a crowded house. CARD OF THANKS.—The W C T U hereby extend their sincere thanks to kind friends, including the merchants and marketmen, for generous donations to their lunch table, whereby their success was made possible, and also to the public generally for their liberal patronage. MRS. C. J. CONDON, Pres. COUNTY FAIR.—The receipts of the County Fair amounted to \$1516. Outstanding indebtedness and 80 per cent. of the par value of premiums can be paid from this sum. Were it not for the bad weather during fair week the premiums could have been paid in full. Siuslaw Wagon Road.—We learn from Mr W W Neely that the Siuslaw wagon road was completed to the head of tide last Thursday. Anyone wishing to go to the head of tide can now make the trip easily in any four wheeled vehicle. NOTICE.—Ladies whose baskets, plates, etc., have not been returned from W C T U lunch stand will find them at Pacific Tea Store. COMMITTEE OF ARRANGEMENT. TO FARMERS.—Wanted to exchange a Piano for good stock sheep. Enquire of W B Andrews, at the depot, Eugene City.

Brevities.

The days are shortening. Several light frosts this week. Jerry Horn's new dwelling house is finished. E H & L Co No 1 meets next Monday evening. Large quantities of hops are being brought to town and stored. The material for Bang's new livery stable on Ninth Street is arriving. Judge Walton recently erected a wind mill on his residence property. Ed Baum will make an important announcement next week. Reimer & Weider have sold the City Grocery to C H Cottle of Salem. The roof of Walton's block was treated to a coat of tar and sand this week. Dealers in Eugene are willing to pay 65 cents per bushel for good potatoes. All the Jewish stores were closed last Monday being the Hebrew New Year. The jobs for the first floor of the new Hoffman House have been placed in position. The train from the north was two hours late Tuesday caused by a car being derailed at Junction. There are now 431 patients confined in the Oregon Asylum, 297 of whom are males, and 134 are females. Prof F E Patterson's private school will begin next Monday. There will undoubtedly be a large attendance. Rheumatism and similar diseases, caused by a low state of the system, are cured by using Ayer's Sarsaparilla. An account of the failure and suicide of W F Owens, of Roseburg, will be found on the first page of the GUARD. It is said Miss Binnis De Forest, of Salem, will give a reading for the benefit of the University societies in a few weeks. Some unknown person attempted to assassinate D L Patten at Prineville one day last week by shooting but luckily failed. Albany is to have another daily newspaper. It will be called the Daily Bulletin, and is to be owned, edited and published by O T Porter. The farmers are now praying for the Oregon mist to descend in such quantities as will give the ground a thorough wetting so they may begin plowing. Mr Robt Pratt's residence on Seventh Street is being rapidly pushed forward to completion. Further announcements will be made in the near future. The net proceeds of the lunch stand conducted by the Woman's Christian Temperance Union, during the county fair last week were nearly \$55. A 150-yard foot race was run on the Lane County Fair tract between Wid McGhee and a Roseburg runner, last Sunday, for a purse of \$50. McGhee won easily. Matlock has moved into his new store building on the corner Eighth and Williamette streets. It is the handsomest store building south of Portland. I will pasture horses at the rate of 75 cents per month. I will call and take the horse out to my place when notified of anyone wanting pasturage. FLOTT VAUGHAN. All the Jewish stores in Eugene will be closed next Saturday from 6 a m to 6 p m, it being "Yom Kippur," or the Day of Atonement. All interested parties will please note the fact. A fine constitution may be broken and ruined by simple neglect. Many bodily ills result from habitual constipation. There is no medicine equal to Ayer's Pills for restoring the system to natural, regular and healthy action. The Albany Herald of September 23, says: "D G Clark, of this city, is sending daily to his daughter-in-law, who resides at Eugene and is ill, ripe strawberries picked each day from the vines in his garden." It must be the climate. Mr A K McPherson secured the contract for graveling the two blocks on Ninth Street at 50 cents per yard; A J Babb, two blocks on East Seventh at 47 1/2 cts, and two blocks further west at 50 cents; E R Hollenbeck five blocks on the west end of Seventh at from 57 1/2 to 70 cents per yard. A runaway occurred last Wednesday from the alley west of Williamette street up to the brewery on Ninth street, when the wagon was overturned, spilling the contents, flour and shorts, and mixing them badly. The wagon was broken up considerably. We failed to learn the name of the owner of the vehicle. The store on 9th street, opposite Rhinehart's Hall, appears to be doing a rushing business. This is a natural and legitimate result of selling good goods at less than wholesale prices, and of giving the price of every article in plain figures. Go early and get your share of the bargains. They will not be long on the market. Mrs M B Reese, of Ohio, organizer for the National Women's Christian Temperance Union, was announced to lecture in this city on Tuesday evening last, but owing to sickness was unable to come. She will probably speak here at some time in the near future. She is well spoken of by those who have heard her both in Washington Territory and in this State, and may possibly make her home on this coast. Developments show that the causes which led to the suicide of Mr W F Owens at Roseburg were numerous, and of a character to make that the only alternative of serving a term in the penitentiary. He used thousands of dollars advanced to him to buy wheat and wool to pay off old debts; he drew checks on banks in which he had no money deposited, and he was even guilty of forgery. He had been "robbing Peter to pay Paul," which is a very dangerous proceeding, as the sequel more than proves. His affairs are as yet in a very bad and complicated shape. It is asserted that the Washington monument is slowly sinking. It has already given down four inches, and is settling at the rate of about the thousandth part of a foot per month. If it keeps on, therefore, the office holders may be inhabiting the capital city in the year 46,116 A D will see the aluminum tip disappear in the mud. But what has that to do with Sam Friendly's new stock of Winter goods. If all his dry goods, clothing, boots and shoes, hats and caps, furnishing goods, etc., were piled up, they would make a grand monument that represents a vast amount of wealth.

The County Board of Equalization will meet Monday and continue in session three days.

Rev Mr McKinley and family arrived in Eugene by Thursday afternoon's train. They will live for the present in a dwelling house owned by Mrs Phoebe Kinsey, West Fifth street. Mcney! Cash! Coin!! I hereby notify all that are indebted to me that I must insist on the payment of the same at a time not long hence. I appreciate your patronage and hope for a continuance of the same, but it takes money to buy goods. I shall expect a response soon, and to those whose accounts are of long standing I will say, don't blame anyone but yourselves if ever it is made against you, for I shall collect the same if possible. F. B. DEXE. WILL BE CLOSED.—The store of Mr G Birtrott will remain closed Saturday, Oct 6th, on account of the Jewish holiday on that date.

Trent Items.

Mr B B Rutledge has moved to Eugene. Mr C M Hamilton has just returned from Seio. There has been considerable trouble with fires in the last few days. Mr Gilfray bought several head of beef of H C Morgan one day this week. There seems to be considerable room to doubt some of "You Nohoo's" statements in his last from Dexter. We notice a good many farmers have raised several acres of corn the past season in this vicinity. The yield is from 20 to 60 bushels per acre. Who says corn will not grow in Oregon? O most noble youth! most illustrious Sampson! most gracious "Rusty Pen!" O "his poor tam lepids ac delicatus" to think that we could have been guilty of such a base crime as not to have regulated our size to meet your approval. But we only beg from your mightiness the poor privilege of living. And gracious Sampson, please draw the sweet veil of silence over the vacuum and gaping void which ought to contain your brains and suffer us to say once for all that we never at any time wrote a communication to the GUARD or to any other paper signed "Uno Hoc." AVIS. ONE THOUSAND DOLLARS.—A match for \$500 a side has been made for a hundred yard foot race between Geo Noland and Ed Rea, the race to be run between 3 and 4 o'clock on the afternoon of Saturday, Oct 24. G C Fulton backs Ed Rea, and Sam Harris backs Geo Noland. The thousand dollars was paid into the hands of J F Haloran at 8 o'clock last evening, he being designated as the final stakeholder. Two judges and a starter are to be selected on the day of the race, the decision of the judges to be final, and on receipt of a written certificate designating the winner of the race and signed by both judges, the stakeholder will pay the winner the thousands dollars. There is no talk about this. The thousand dollars is up and whichever of the two is awarded the race will get the coin.—Astorian, Sept 25th. LOOKING FOR HIS SEAT.—Hon Lark Bilyen, re-elected Representative from Lane county, came down yesterday, "presumably to pick out his seat in the new legislative hall" (cheatnut), but he said he could not tell the Democratic from the Greenback side of the house, so he will wait until the furniture is in place.—Salem Statesman, Sept 25th. THE BOSS WHEAT GROWER.—The exhibits at the pavilion had the merit of being good so far as they went; but there were so many empty shelves that it looked exceedingly slim. The display of cereals by George Bolshaw was the redeeming feature of the exhibit. It was a magnificent one and cannot be surpassed in the United States.—From the Albany Democrat's description of the State Fair. MARRIED.—In Eugene City, Oregon, Sept 25, 1886, at the residence of the bride's father, by Prof Thos Condon, Mr Wm Long and Miss Ada Snodgrass. "The couple left the same day for Harrisburg, near where Mr Long owns a farm and upon which they will reside in the future. MARRIAGE LICENSES.—Since our last report the following marriage licenses have been issued by the county clerk: Martin V Pritchett and Emma Clark, N Feldervert and C Burke, M L Hendricks and Inez Shaub, Isaac Lane and Emma Bramletts, Wm Lane and Ada Snodgrass. DIED.—Near Irving, Sept 23, 1886, at 6 o'clock a m, of consumption, William H Pitzer, aged 36 years, 1 month and 25 days. He leaves a father, mother, one sister and four brothers, besides many friends to mourn his loss. REMOVAL NOTICE.—The postoffice will be removed to the old Hendricks corner tomorrow, Sunday. The express office and Patterson & Christian's book and stationery store will be moved Monday. The family have the sympathy of many friends who take place from the residence of Mr Cockerline this afternoon at 2:30 o'clock. Friends are invited.
