

THE EUGENE CITY GUARD.

SATURDAY, NOVEMBER 13, 1886.

From appearances there are a large number of high handed desperadoes in Oregon. Only last week an old and highly respected citizen of Lafayette was cruelly cut to pieces in his own private chamber, and killed for the gain of a few dollars.

The brilliant speech of Gov. Hill of New York at Philadelphia has been answered by Blaine of Maine. The gentle badinage by Hill, who, after reading a letter of Blaine's published in 1883, advocating a lower tariff, remarked that he had read it as he did not see at the bottom "Burn this letter," was parried skillfully by the Maine man calling the Governor, "His Excellency," a great many times in one of his replies.

Yesterday's bond call for another ten millions of the three per cents of 1882 places the Democratic administration on record as having reduced the public debt over one hundred and seventeen millions since it came into power.

The London Times prints the following startling information: "Guy Wilkes, son of the late George Wilkes, who founded the Spirit of the Times, trotted a mile in 2 min. 15 1/2 sec., at Santa Rosa, Cal."

The communal authorities in some Swiss villages, instead of leaving each citizen to insure his own property, insure all the buildings, public and private, in the town.

A Concord organ, the day before election, cried out: "Republicans of New Hampshire, keep an eye on the battle!"

Fred Archer, the noted English jockey is dead by his own hand. Starving himself to reduce his weight brought on typhoid fever, when he cured himself by a pistol shot.

The industrial growth of the southern states may be judged from the fact that within nine months no less than \$83,000,000 have been invested in their manufacturing and mining enterprises.

I. Milton Turner, the leading negro Republican of Missouri, supported the Democratic ticket, and was promptly burned in effigy by his tolerant and colored fellow citizens.

How is this! It is said that the Mormons of Nevada all voted the Republican ticket. The g. o. p. and the "twin relic" must have made up their quarrel.

The next U. S. Senate will stand 37 Democratic to 39 Republican, counting Riddleberger as a Republican. This is a Democratic gain of two.

Mr. Powderly recently explained that he was a "Free Trader from the crown of his head to the soles of his feet."

The San Francisco Post, Republican says: "The Solid South is not so solid there as parts of the North are."

President Elliott of Harvard University, announces that hereafter he will vote with the Democratic party.

The majority of Judge Peckham, the Democratic candidate in New York State, was above 10,000.

California elected all but one of the Democratic State ticket. The average majority was about 2,000.

A son of William Lloyd Garrison canvassed Massachusetts for the Democratic ticket.

The Democrats carried Colorado in the election two weeks ago.

An enthusiastic supporter of the Administration who has been investigating, said recently regarding the majority which the Democrats have in the 50th Congress: "The Administration has won a great victory, for it has held control of the House despite the obstacle which the giving out of the office has created. This is the only instance in which a Democratic Administration has, since Van Buren, obtained a majority in the House in its second Congress. Polk lost the House in 1846, Pierce in 1854 and Buchanan in 1858. The opposition has not fared much better. Tyler lost it in 1842, Fillmore in 1852, Grant in 1874, Hayes in 1878 and Arthur lost it in 1882. Lincoln carried the House in his second year, but the South was not represented in that Congress, and in the election of 1862 Lincoln suffered far more severely than the present Administration has at the late election. Grant held the House in 1870 but lost it by a decided majority in 1874. Cleveland is the only Democratic President since Van Buren who has held a majority of the House in the Congress which was chosen during his second year.

The allegations of Republican papers that the clerks and judges in San Francisco counted out Swift comes under the head of the humorous. The election boards in all cases had two Republican members to one Democrat, making any crookedness in favor of Bartlett, impossible. A Republican dive politician who stole a ballot box from a judge of election in that city and who at the same time with two pals attempted to steal the election sheets of the same precinct, is in jail. That precinct is heavily Democratic and if the attempt had succeeded Swift would have been the next Governor of California. No, the organs are mistaken; the people counted out Swift, and the judges and clerks can't count him in. Hence these tears!

Seven Republicans were on the Board of Aldermen in New York City, in 1884. The Republican organs are not distressing themselves in exhibiting their records to the public. Every one of them is under indictment, for bribe-taking, and the men who offered the bribes are Republican. As Gov. Tilden showed you as ago every scheme of villainy has inculcated in the New York Legislature. There the iniquitous Tweed ring had its origin, and the theft of Broadway by a corrupt legislature, and a purchased Board of Aldermen, who delivered the goods to Jake Sharp, was a child of Republican misgovernment.

The San Francisco Examiner in the last campaign, went out for Republican scalps, and the rooms of its office are now adorned with the head coverings of departed Republican politicians. To the Examiner more than any other agency the Democratic victory is due. The vivacity, ability and versatility of that paper are appreciated by Democrats and the unbroken chorus of Republican newspapers denouncing it, testifies a keen sense of its importance in achieving the defeat of their party.

Following is a telegram from New York dated Nov 8th, which will be of interest to Oregon readers: "Henry Villard is negotiating with C P Huntington for the final transfer of the Oregon & California Railroad company, though it was thought this had been consummated some time ago. Villard was a bidder for \$5,000,000 worth of Oregon Railway & Navigation bonds sold by Elijah Smith to a syndicate, but was not successful."

Lately the coal mine owners of Pennsylvania pooled and raised the price of coal 50 per cent. However they did not raise the wages of their laborers a quarter of a cent. As the laborer buys coal this winter, he can learn at considerable cost to himself that whatever profit the "Protected" coal mine owner may make, that the man who works does not get any share of it.

LA CAMAS PAPER MILL BURNED.—On Saturday night last, the immense mills of the Columbia River Paper Co, at La Camas, W T, were totally destroyed by fire. The fire caught in a pile of paper in the bleaching room, but how it caught is not known. The mills were built in 1884 and began working in 1885. The main building was 182x80 feet, 2 1/2 stories high above the basement. The wing or machine room was 26x156, one tall story above the basement. Those who have never seen the mill can form some idea of its size when they learn that it was about as large as the Mechanics' pavilion. The winter's supply of raw material, consisting of 400 tons of jute and 700 tons straw, stored in the mill yard, caught from burning embers and was destroyed. About 105 tons of manufactured wrapper, muslin and newspaper burned in the mill. The total loss is between \$80,000 and \$95,000; insurance, \$45,000, of which \$30,000 was placed in Portland and \$15,000 in San Francisco. The mill was owned entirely by Portland men, and gave employment to 74 men and women. The mill will probably be rebuilt.

C. F. HYD COMBINATION WIRE AND PICKET FENCE, Improved Combination.

Patented May 22, 1883. No. 277,877.

Wire and Picket Farm Fence and Machine for its Manufacture.

The Cheapest and Most Perfect Fence in Use.

Pig Tight, Horse High, Cattle Strong; STEEL & WOOD INTERWOVEN.

We use from six to eight wires interwoven solidly, with from forty to forty five light wooden slats to the rod, thus producing a fence that will hold all stock, from the smallest pig to the largest beast.

It is the most durable fence made, as the slats are in a vertical position, clear of the ground. There are no bars to cut or main stock or tear the wool from your sheep. It is as visible to the eye as a board fence, and ten times as strong. It will stand a side pressure of from 12,000 to 15,000 pounds.

It is woven or manufactured on the posts. One man and a boy can build from 40 to 60 rods in a day. Farmers can build their own fence and use material that would otherwise be lost or used as fuel, and thus save from \$100 to \$150 per mile.

We can refer to thousands of farmers in Kansas, Iowa and Missouri who are using our fence. We feel great pleasure in presenting this fence to the farmers of Lane County, filling as it does a want long felt. Being practical farmers we know what we say.

Patent and Precinct Rights Sold. For further particulars apply to J. P. SWEET, Eugene City, Oregon.
