## BLOODY GERONIMO.

Adventures of a Bad Indian Who Long Deluded the United States Army.

United States Indian Commissioner Atkins speaking of Geronimo, the guerrilla Apache Indian Chief, who recently surrendered to General Miles said:

"There has not been such a warrior as Geronimo since the days of Rob Roy. He has subsisted on the roots of the desert and the serpents of the mountains for nearly two years. He has been his own commissary and chief of transportation; he has worn out an army, and he has kept a vast region of country in terror. Part of his time he has been wounded and siek. His barbarious hero ism and endurance are unsurpassed by any thing in history.

There are a good many points about this wonderful campaign that the public at large are not famil ar with. The revolt that has just been brought to a close by this capture was started by a woman, the wife of Chief Mangus. She is a woman of great force of character and strikingly intellectual for a squaw. She planned the escape and urged the band to desperate deeds. She was the Joan of Arc of the Apache race. The escape of Geronemo three have been rainy. - Boston Globe. from Fort Apache took place on May 17, 1885. With him he took 34 bucks, 8 boys and 91 women. They traveled 120 miles before camping, and their pursuers were hot upon their tracks. but they didn't get in sight of the Indans. For hundreds of miles this chase was kept up until Geronimo was in the fastness of the mountains. Finally, after a desperate campaign, he was captured by General Crook, but was held only one night, when he escaped aga a. A few days after this escape he returned into the fort with four bucks, and, seizing a white woman, told her that if she did not tell him where his wife's tent was he would kill her. The woman pointed out the squaw's tent. Geronimo took his wife and was again at rarge, having accomplished one of the most daring and heroic deeds ever recorded. Now that he is captured after such a desperate chase. General Miles will take good eare that he does not again escape. It would be a reflection upon the general that he will take good care not to have it occur if this desperado should again get at large."

At the Indian office the history of th's notorious Indian was fully looked up. His name, spelled Eronemo, first occurs in Agent Clum's report of the San Carles Agency in 1876. Mr. Clum writes at length in that year of the removal of the Chiricahua Anaches. In April a band of these and ans attacked Sulphur Springs Station and killed two men. Messrs. Rogers and Spence. The same band attacked the ranches of the Rio San Pedro, killed one man and very badly wounded another. A company of cavalry went from Fort Bowie to punish these murderers. They pursued them saxly miles and had a figur. They killed no Indians and returned in May, Six of the Chiricahua Apaches were removed to San Carlos.

The name of the Chiricahua Indians had been a terror to Arizona and Sonora for many years previous to this. Many graves in Arizona marked the resting places of their victims, and their raids for plunder and murder were continued until the very day of their removal. The reason for their removal was that they could be managed better n the San Carlos agency than in the mountain fastnesses.

At this time the tribe numbered five At this time the tribe numbered five hundred able warriors, well armed, brave and exper enced. They had defied the army, and had invariably been he pushed me.—Life. fied the army, and had invariably been successful in all engagements with our troops. General Kautz, who was then in command of the Department of Arzona, sent twelve companies of the Sixth Cavalry, two companies of Indian conts and a company of Indian pocemen to Apache Pass. The Indian scouts had a small engagement with Chief Taza, who commanded the Chiriahusa, but Taza and his tribe, when they nderstood what was desired, volunte-red to go to San Carlos. About sixty ndians under Juh and Geronimo ran away into Sonora, where their home had formerly been. They soon tired of remaining in Mexico, however, for they received no rations there, and so came back to the United States.

On September 2, 1877, three hundred Hot Springs and Chiricahua Ind ans suddenly deserted San Carlos. They were pursued and thirty of them cantured. The remainder went into New Mexico and began to kill and pillage set lers. After a long campaign they were captured, but while being returned to San Carlos as usual about one hundred made their e cape to the mountrins. A long and expensive campaign tollowed. The Indians were finally wern out, and came back only to again escape, this time to the San Mate; Mountains. - Washington Critic.

GRATITUDE.

Mrs. F. Oars, of Shumway, Il., writes: "When I had used Dr. Pierce's 'Favorite Prescription' one week, I could get into a wagon and ride two miles to see my neighbors. I had not been able to walk the 'Favorite Prescription' two weeks, I rode in a wagon ten miles; my neighbors were all surprised to see my nand going about and helping to do my housework, after doctoring with thirteen of the best physicians we could get — and the hast one told my husband that I would never be able to do my housework any more. I am thankful to my God that I wrote to you, for I had suffered from 'Female Weakness' until I had aimost given up in despair."

TERRIBLE "For five or six years I had been badly troubled with female weakness and terrible pains across the small of my back and pit of the stomach. Three hottles of Dr. Pierce's 'Favorite Prescription' acted like a charm, and cured the completely, to my great joy."

MARVELOUS
BENEFITS.

Rev. Sidney C. Davis, Galien, Michigan, writes:
"I wish, in this letter, to express my gratitude for Mrs. Davis and myself for the great good which has been accomplished in her case by the use of your proprietary medicines. When she began to take them, in January hist, she could not encould stay up only about thirty minutes at a time. Now she not only sits up aimost the entire day, but can walk around, call on her neighbors, two and three blocks away, and not feel any injurious effects at all. When we consider that she had kept her bed the greater part of the time for four-teen months, and would lose repeatedly the advance she had made, her progress now seems marvelous. We had almost lost confidence in medical practitioners, and advertised remedics, but have found in your Dr. Pierce's 'Favorite Prescription' and 'Pellets' the complete and final recovery."

Many times women call upon their family physicians, one with dyspepsia, another with palpitation, another with backache, or increases, another with paln here and there, and in this way they all present alike to themselves and their easy-going and indifferent all symptoms caused by some uterine disorder. While the physician is ignorant of the cause of suffering, he encourages his practice made, when the suffering patient is no better, but probably worse for the delay, treatment, and other complications I prolonged misery.

"Female Weakness" Cared. Mrs. Sarah A. Lovely, Greenfield, Adam 60., Imeo, with street a number of years, and having tried in vain almost every advertised remedy, as well as having paid nearly a hundred dollars to our local physicians, without benefit, I was finally induced to consult you. You advised me to send for your medicines. I accordingly sent for your Medical Adviser, six bottles of your 'Golden Medical Discovery,' six of your 'Favorite Prescription,' and six vials of your 'Plensant Purzative Pellets.' When I first began using these I could not stand on my feet. In ninety days I could walk a mile, and of first housework; whist in six months I was completely cured, and my health has remained perfect ever since. I recommend you and your medicines wherever I go, and loan your 'Adviser' to my friends. Two of our most prominent physicians who have read your great work 'The People's Common Sense Medical Adviser,' pronounce it the best family doctor book they have ever seen."

A THOUSAND THANKS.

Mrs. CAROLINE BYERS, corner Duke and Argole Streets, Holitar, N. S., writes: "Dr. R. V. Pierce, I thank God, and thank you a thousand times, for the relief that your valuable medicines, the 'Favorite Prescription' and 'Pellets' have given me. I am perfectly cured of a chronic siekness that had troubled me for years. How my heart is overflowed with joy and gratitude towards you, my tongue can never express."

Mrs. V. H. Peterson, of Lockport, N. F., had suffered for three years from "female weakness," was greatly emaclated and "all run down" as she expressed it, and Dr. Pierce's "Favorite Prescription" and "Golden Medical Discovery" promptly cured her, as they have thousands of

Mrs. E. F. Mongas, of Neurostie, Lincoln Communication, says: "Five years are I was a dreadful sufferer from uterine troubles. I began taking the local treatment recommended in his 'Common Sense Medical Advisor.' I communicat for improve at once. In three months I was perfectly curred, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and effering to send the full particular to any one writing me for them, and inclosing a stamped curreduce for reply. I have received over four handred letters. In reply, I have described my case and the treatment used, and have carnessly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commences the use of 'Favorite Prescription,' had sent the \$1.59 required for the 'Medical Adviser,' and had applied the local treatment as ruhy and plannly laid down therein, and were much before already."

DOCTOR'S Writes: "I had been under an eminent physician's care for eight months for what he called 'spinal disease.' I became worse during all this time, when, chancing to see a copy of Dr. Pierce's Medical Adviser at the residence of a friend, I read that part devoted to 'Woman and her Diseases.' I soon became convinced that my disease was a uterine affection, which, as you say, caused sympathetic backache, inward fever, nervousness, and general debity. I commenced the use of Dr. Pierce's 'Favorite Prescription' and 'Golden Medical Diseavery,' applying also the local treatment, which he recommends in the Adviser, and in three months I was well and strong."

"wasfing diseases."

A Wonderful Cure.—Daniel Fletcher, Esq., Gloucester. Moss., writes: "Nearly five years ago. I was taken sick with a disease regarding which the three physicians who attended ne were unable to agree. One of the foremost physicians in Boston called it a tumor of the stomach, and treated me for that, nearly killing me with physic; another, a nomeopathic physician, thought I had consumption. When taken sick, I weighed 157 pounds. I suffered from a heavy cough, night-sweats, kidney troubles, etc., and was reduced so rapidly that my physicians gave me up. They were unable to help me in the least. At that time I weighed but ninety pounds, and had not been able to he down, but had to sit up in order to breathe. I had been confined to my room for six months, expecting to die. I wasso bad at times that I could not allow any one to come into my room, as I could not take; nor was I able to walk. I picked up one of your memorandum books on the floor of the hotel where I was boarding, and after reading it I began taking your 'Golden Medical Discovery,' and the first bottle brought me around so that I could wall around the room all day. I soon began to build up, and gained so rapidly that it astonished me. I have taken no other medicine since then, and have used perhaps twenty bestics in all of this medicine. I stouped taking it in August, one year ago. I feet that it has saved my life. I now weigh about 160 pounds, and I think, and my friends with me, that this medicine saved my life. It certainly is worth its weight in gold, and I consider it a wonderful remedy from its effect in curing all my allments."
