Geo. M. Hoyt.

The death of Geo M Hoyt, at Paraiso Springs, Cal, took from the Alumni of the State University one of its most brilliant members. Those whose school-days were contemporaneous with his, may remember him as one of quiet, nuassuming manner, yet at the same time the recognized leader of his associates. The pleasing address peculiar to him as a student, was characteristic of him in after life, and won him that same

leadership among men that was incident to his college career. Mr Hoyt after graduating in '82, accepted a position in the U S Inspector's office and at the same time prosecuted his law studies, graduating from the Law School of the State University in '86, carrying away the highest honors of his class. To this overtaxing of his physical abilities we must ascribe his premature death. It long had been recognized that naught would prevent Mr Hoyt's success in life but his health. His standing success in his but his health. His standing as a student was very high. As a speaker his style was conversational, and of a very high order. In '54 his annals read below the Alumni of Oregon University wers pro-nonneed by a college professor to be the finest he had ever heard. Hoyt had els-ments of greatness in him, and above that "he was a man take him for all in all." These who saw him to Europe Due 31st and Those who saw him in Eugene Dec 31st and
