A Washington report states that the Mexican Government paid, some days ago, into the State Department the eleventh installment of the award made against it some years ago. The sum paid in is about \$300,000, and it was due Feb. 1, 1887. A considerable part of This sum is paid under protest, because Mexico claims, and our Government, has under several Administrations substantially acknowledged through its executive officers, that the La Abra and Weil claims are anjust and fraudblest. Congress has been repeatedly asked to reopen these cases, and the money claimed under them lies for the most part in the Treasury still awaiting Congressional action. But, while asking for justice, Mexico continues to pay and strains her treasury by doing

Let us make a note of it. The ex penses of the Federal Government last year were \$24,240,282 65 tess than the year before. That is a saving of \$2, 000,000 a month, \$500,000 a week, \$71,428 a day, \$2,976 an hour, \$49.60 at every tick of the clock. Now listen to the clock tick and reflect what it would impart if at every tick there were an increase, instead of decrease, in the expenses. That would mean close connection made at Ashland with stages incre bonds, more debt, more debt, of the California, Oregon and Idaho Stage Company. unore taxation, interest stopped, taxes traduced. After a reduction of 10 per cent, on wool in 1883, the price of wool began to steadily advance in this country, increasing the worth of wool at least 100 per cent, showing that other causes than the tariff advance and depress the price of wool.

The debt of the Cay of Buffalo double that of the State of New York, and increases at the rate of \$200,000 a year. It never was checked except during Mayor Cleveland's term.

Leadville, the great mining camp of Colorado, increased its silver product in 1886 by one-third more than it secured in 1885. Evidently its exhaustion is still a matter of the indefinite future.

A Safeguard.

The faial rapidity with which slight Colds and Cougras frequently develor into the gravest maladies of the threat and imags, is a consideration which should imper every prudent person to keep at land, as a household remedy, a bottle of AYLITS CHERRY PECTORAL.

Nothing class gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brusswick, Me., says:—

"Medical science has produced no other anodyne expectorant to good as AYRA'S CHERRY PECTORAL. It is invaluable for diseases of the threat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of segrent valuess-Ayan's CHERRY PROTORS, for treatment of discusse of the throat and lungs. It not only breaks up colds and cares severe coughs, but is more effective them anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been thandoned, and thore is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well as the same and the same and well as the same and the

Well's the AYERS CHERRY PECTORAL has, AYERS CHERRY PECTORAL has, AYERS CHERRY PECTORAL has, in muniscriess instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pacamonia, and has sared many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in simil doses, is pleasant to the faste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Crong and Whooping Cough.

Wire and Picket Farm Fence and Machine for its Manufacture.

The Chespest and Most Perfect Fence in Use.

Pig Tight, Horse High, Cattle Strong; STEEL & WOOD INTERWOVEN.

We use from six to eight wires interwoven solidly, with from forty to feety five light wooden slats to the risk, thus producing a fence that will hold all stock, from the smallest pig-

o the largest beast, It is the most devable fence made, as the slats are in a vertical position, clear of the ground. There are no barbs to cut or main stock or tear the wool from your sheep. It is as visible to the eye as a board fence and tentimes as strong. It will stand a side pressure of from 12,000 to 15,000 pounds.

It is wover or manufactured on the pasts. One man and a boy can build from 50 to 60 rock in a day. Farmers can build their own fence and use material that would otherwise be lost or used as fuel, and thus save from \$109 to \$150 pes mile. It is the most durable fence made, as the

accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability. Everybody needs such a medicine.
The Lumberman needs it in case of accident. The Housewife needs it for general family use. The Canaler needs it for his teams and his men. The Mechanic needs it always on his work

The Miner needs it in case of emergency.
The Pioneer needs it—can't get along without it.
The Farmer needs it in his house, his stable, and his stock yard.

The Steambout man or the Bontman needs it in liberal supply affoat and ashore.

The Horac-fancier needs it—it is his best friend and safest reliance.

friend and safest reliance.

The Stock-grower needs it—it will save him thousands of dollars and a world of trouble.

The Ralirond man needs it and will need it so long as his life is a round of accidents and dangers.

The Back-woodsman needs it. There is nothing like it as an antidote for the dangers to life, limb and comfort which surround the pioneer.

The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once.
