A Safeguard.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, 11b., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYRN's CHERRY Precround, for treatment of diseases of the throat and lungs. It not only breaks up colds and curse severe coughs, but is more effective time anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was arst offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has over been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

Improved Combination.

Patented May 22, 1883. No. 277,877. Wire and Picket Farm Fence and

Machine for its Manufacture.

The Cheapest and Most Perfect Fence in Use,

It is the most durable fence made, as the slats are in a vertical position, clear of the ground. There are no barks to cut or mains stock or tear the wool from your sheep. It is as visible to the eye as a board fence and tentimes as string. It will stand a side pressure of from 12,000 to 15,000 pounds.

It is woven or manufactured on the posts. One man and a boy can build from 40 to 60 rods in a day. Farmers can build their own fence and use material that would otherwise be lost or used as fuel, and thus save from \$100 to \$150 per mile.

to \$130 per mile.

We can refer to thousands of farmers in Kansas, Iowa and Missouri who are using our tence. We feel great pleasure in presenting this fence to the farmers of Lane County, filling as it does a want long felt. Being practical farmers we know what we say. Farm and Precinct Ri hts Sold.

The Stock-grower needs it—it will save him

housands of dollars and a world of trouble.

The Ruffrond man needs it and will need it so long as his life is a round of accidents and dangers.

The Backwoodsman needs it. There is noth ing like it as an antidote for the dangers to-life, limb and comfort which surround the pioneer. The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once.
