bleft facts in a criminal case which tack place here on the 12th day of January, 1887, were officer Vestich was charged with having run the county to much needless cost. The item looked for was written up by the justice of the peace, and signed by one of our prominent citizens, but from some reason has never come to light. but from some reason has never come to fight. Why, we are unable to say. The facts are simply these! On Jan 11, 1887, officer Veatch and deputy Chrisman arrested one! C Lyons, at which time they were actied with a number of subpoenss for witnesses, with orders from the court to serve the same. They went on and served the papers as addressed, and the next morning about 5 offices, the above named officers arrested one Thomas Rawlings, and summoned one witness for him at the time of the same and t his arrest; all other witnesses were subportaged in the case of Mr Lyons, and none were subpoensed for trial before any arrest was made, as was stated by "Mr Looker On." Now these poenaed for trial before any atrest was made, as was stated by "Mr Looker On." Now these facts are easily proven to any man of common horse sense, and all we have to say is that if any proof is wanted, call awaind and we will accommodate you. Yours truly, Utrizen.
