

THE EUGENE CITY GUARD.

SATURDAY.....MARCH 5, 1887.

Still "Pointing Proudly."

Even the New York World sadly criticizes the Republican party of today. That journal recently spoke as follows:

The Republican politicians celebrated themselves and their party on Saturday night, under the guise of celebrating Lincoln's birthday. The most noticeable thing about their speeches is the unanimity with which they sung the praises of the party's past achievements.

This was not strange. The descent from Lincoln to Farwell, from Chase to Foraker, from Sumner to Cabot Lodge, from Seward and Greeley to Miller and Hancock, is so great that it is but natural that the representatives of the party "should point proudly to the past" and say as little as possible about the present.

There was discreet discrimination, however, in choosing illustrations from the past. The party of emancipation is also the party of the Credit Mobilier, the whisky ring, the Star Route frauds, the carpet-bag debaucheries, the land-grabs and naval rings—of Belknap, Williams, Brady and Robeson.

In none of the swelling periods of the after-dinner orators was there any explanation of the reason why the Republican party stubbornly resists any reduction of the war taxes, why it supports the wild extravagance in appropriations, why it opposes Civil Service Reform to keeping its adherents in office, or why it has come to be the natural ally of corporations and the moneyed classes. But these are the facts that interest voters more than do selected passages of ancient history.

The Republicans of New Jersey, with the aid of a few Democrats have elected Mr. Blodgett, a Democrat, U. S. Senator. It was done not because they hated Blodgett less, but because they hated Abbott more.

Of the twenty-six Senators who voted for the Hoar amendment, which emasculated Mr. Beck's railroad attorneys bill twenty-two were Republicans and four Democrats. This is about the usual proportion.

The annual pension roll of the United States nearly reaches in amount the cost of the maintenance of the world's great standing armies. The vetoed pension bill would in the long run have almost doubled the amount.

The German army costs \$90,000,000 annually. The United States, by the tariff tax, collect \$100,000,000 surplus each year, above all the requirements of the Government. The contrast is all in favor of Germany.

Gen. Francis A. Walker has been saying in New York that he thinks Cleveland can carry Massachusetts in 1888. And Gen. Walker has grown up in an atmosphere of facts and figures.

Think of this! The United States could put into the field, within ninety days, armed and equipped, three millions and a half of men.

Delinquent Tax Notice.

Notice is hereby given to all owing taxes, now delinquent, that the County Court at its late session ordered me to collect the same forthwith. This is therefore to notify all concerned that if they wish to save costs they must come forward at once and pay the same or I will be obliged to proceed against them legally. J. M. SLOAN, Sheriff Lane Co. Sept 15, 1886.

Money! Cash! Coin!!

I hereby notify all that are indebted to me that I must insist on the payment of the same at a time not long hence. I appreciate your patronage and hope for a continuance of the same, but it takes money to buy goods. Not So Easy.—A bill was passed by the last legislature which makes it a little harder for aspirants for teachers' certificates to get such certificates. The requirement now is that there shall be four quarterly public examinations per year, conducted by a board of examiners consisting of three persons—the school superintendent and two others named by him. Certificates of the first grade will be issued only to persons who have stood an examination in the usual number of studies before this board, and who attain an average of not less than ninety per centum of all questions asked, and in no case shall a person receive a certificate of the first grade who shall fall below seventy per centum in any one branch. Certificates of the second grade will be issued to persons who obtain a general average of not less than eighty per cent, and who shall fall below sixty per cent. in no branch. Third grade certificates will be issued to persons who obtain a general average of not less than seventy per cent, and who fall below forty per cent. in no one branch. First, second and third grade certificates are good for two years, one year and six months, respectively. The bill was introduced by Mr Blundell and is now a law. The first examination held in this county under the above requirements will be in June.

THE! THE! THE! PRIZE! PRIZE! PRIZE! PIANO! PIANO! PIANO!

IS THE MATHUSHEK.

Which in competition at the Mechanics Fair in San Francisco last fall, received the highest prize, and a medal was ordered struck expressly for it.

Among the pianos competing for the prize may be mentioned the St-inway, Decker Bros Kanabe, Steg Hallet & Davis, and Chickering. So it will be apparent to the casual observer that these pianos possess superior points of merit, among which may be mentioned superior action, responding to the slightest touch. 2d, brilliant, yet rich powerful tones, produced by their patent equalizing scale and linear bridge, giving extra space for the strings and at the same time placing the bridge relatively in its proper place on the sounding board. 3d, in finish and fine workmanship throughout these instruments are without a par. Another feature which at once recommends itself, they are so constructed as to remain in tune with one-third the tuning of other makes, saving many dollars for their owner in ten years.

E. H. Hunsaker, of the firm of Hunsaker & Dodge, Ashland, Ore., will be in Eugene shortly to wait on any one desirous of purchasing a piano or organ, being manufacturers general agents for Oregon and California of the celebrated Mathushek Piano, they can furnish these most excellent instruments in competition with any first-class piano. Remember these pianos require only one-third the tuning of other makes.

They are also agents for half a dozen different makes of pianos and organs of first class makes, and will positively make it to the interest of any one desiring an instrument to purchase the same of us while our Mr. E. H. Hunsaker is with you. P. S.—Please bear in mind it will cost you nothing to learn our prices, and may save you money.

All communications addressed to E. H. Hunsaker, Eugene, will have prompt attention.
