

TY AND COUNTY.

BRIEF MENTIONS.

Good dentistry go to Dr N J Taylor. ... Mr J W Starr and son Charles have again located here, and are re-establishing themselves in the tire business.

Goshen Gossip.

March 23, '87. Jesse Cox occupied the pulpit Sunday. ... A certain portion of this, like all other small towns is infested by a class whose principal occupation appears to be that of attending to other people's business.

Programme.

Following is the programme to be given at the "Home Guards," at Rhinehart's Sunday evening, March 26, 1887:

Notice.

Persons wanting paints, oils and varnishes and other paint material will do well to call on Joe Lane at his paint depot.

THE LAW UNCHANGED.

There seems to be no change in the law regarding the last legislative act or repealed the game law. Such is not the case.

THE NEXT TOURNAMENT.

The time set for holding of the next tournament at the last meeting of the state firemen's association is the Wednesday in June and the place is however, yesterday Secretary Hodgkin issued a letter from the chief engineer Vancouver Fire Department stating that he had started a subscription paper for the purpose of defraying the expenses of the tournament and although he had put forth every effort he was able to raise only \$100. Just what will be done by the association regarding the holding of the tournament is not known but was thought to be quite probable that the teams will not run for more than a few days.

Whereas, certain parties have seen fit to circulate the report that a doctor of this city stated that Mrs Henderson died of puerperal or child-bed fever, and as he had never seen the case, and when questioned denied to having ever made any such statement, but kindly has shown different parties medical literature on puerperal fever, but however, failing to point out to them the differential diagnosis between puerperal fever and diseases which may have one or more symptoms of the same disease, I wish to state here, I attended a lady in her first confinement who weighed 96 lbs, with an extremely adherent placenta, at Irving, the day of Mrs Henderson's death, and she has made an excellent recovery. If it had been a case of puerperal fever I will know the responsibility which would rest on a physician who would jeopardize a woman's life as well as his own reputation for the paltry sum of \$15. One word to the women, not to the gentlemen: As it is not necessary in Oregon to have a diploma to practice medicine, I would advise them if they can diagnose a difficulty without seeing the patient, better and more correctly than physicians who have spent a greater part of their lifetime in the study of medicine and surgery, to hang out their shingle, as without a doubt they would gain a national reputation as practitioners.

SHOOTING AFFRAY AT TROUT CREEK.

Dallas Times-Mountaineer. The particulars of the shooting affray on Trout creek are as follows: It appears that two herders, one of whose names was Thomas Childers, had a quarrel over their sheep becoming mixed, and some shots were fired at a shepherd dog. Childers then went to his cabin, at which a man by the name of James Wood was stopping, and picking up a revolver immediately left without saying what he desired to do. Wood asked him what he was going to do with it, and on receiving no answer thought he was going to shoot his (Wood's) brother, and followed him with a shotgun. Wood told Childers if he did not stop he would shoot him, and aiming for his head fired. The shot entered the shoulder of Childers, inflicting a very painful flesh wound. As soon as Wood ascertained that Childers had no intention of doing bodily injury to his brother, he exhibited sorrow and did everything he could to relieve the wounded man.

WALTON ITEMS.

March 19, 1887. J W Pittenger has been to Junction City for medical treatment. Mrs Fowler is yet in a very poor state of health, with very little hope of recovery.
