FOR MAN AND BEAST!

Mexican Mustang Liniment

Sciatias, Lumbago, Rheumatism, Burns, Scalds, Stings, Bites, Bruises, Bunions, Corns, Sprains, Strains, Stitches, Stiff Joints, Backache, Galls, Sores, Spavin, Cracks, Contracted Muscles, Eruptions, Hoof Ail, Scow, Worms, Swinney, Saddle Galls, Piles.

THIS GOOD OLD STAND-BY accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability...

The Miner needs it in case of emergency. The Pioneer needs it in his house, his stable, and his stock yard.

The Steamboat man or the Gunner needs it in his liberal supply cabinet and ash-ore. The Horse-fancier needs it—it is his best friend and safest reliance.

The Stock-grower needs it—it will save him thousands of dollars and a world of trouble. The Railroad man needs it and will need it so long as his life is a round of accidents and dangers.

The Backwoodsman needs it. There is nothing like it as an antidote for the dangers to life, limb and comfort which surround the pioneer.

The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once.

Keep a Bottle in the House. It's the best of economy.

Keep a Bottle in the Factory. It's immediate use in case of accident saves pain and loss of wages.

Keep a Bottle Always in the Stable for use when wanted.

C. F. HYD COMBINATION WIRE AND PICKET FENCE.

Improved Combination. Patented May 22, 1883. No. 277,877.

Wire and Picket Farm Fence and Machine for its Manufacture. The Cheapest and Most Perfect Fence in Use.

Pig Tight, Horse High, Cattle Strong; STEEL & WOOD INTERWOVEN.

We use from six to eight wires interwoven solidly, with from forty to forty-five light wooden slats to the rod, thus producing a fence that will hold all stock, from the smallest pig to the largest head.

It is the most durable fence made, as the slats are in a vertical position, clear of the ground. There are no bars to cut or maim stock or tear the wool from your sheep.

It is woven or manufactured on the posts. One man and a boy can build from 40 to 60 rods in a day. Farmers can build their own fence and use material that would otherwise be lost or used as fuel, and thus save from \$100 to \$150 per mile.

We can refer to thousands of farmers in Kansas, Iowa and Missouri who are using our fence. We feel great pleasure in presenting this fence to the farmers of Lane County, filling as it does a want long felt. Being practical farmers we know what we say.

Farm and Precinct. Sold. For further particulars apply to J. P. SWEET, Eugene City, Oregon.
