LIVE-STOCK NOTES.

Eight Points for the Consideration of Farmers and Dairymen.

The owner knows his cows and can breed them intelligently and by select-Ing and rearing the best in the most careful manner will soon build up a better herd than he can buy. He has a sympathy and affection for the animals nursed from early calfhood, and If he be a kind and gentle master his yows have an affection for him which not only renders them docile and gooda dairyman or stockman must get new blood into his herd, but this is best done by procuring a bull, and a young calf is the best to have, as it is reared 124 with the herd and becomes acquainted with it, so that there is no disturbance or quarreling when the bull is introgueed.

2. In buying new stock beware of the hippodrome or so-called "combina-tion sales." No man sells off his best stock. The poorest goes to the sale. Thee it is boosted by all the arts of the professional auctioneer, and the bidding of agents who are not buyers, but "teasers," as it were, to lead on the too-hesitating purchasers. Many a man has rued his "bargains" thus procured, but to save appearances he bears his cross in silence, or makes his sad complaints-like the song bird-to the silent moon.

3. One can rear calves with much economy. A calf does not need eream; sweet skimmed milk, or whey, with linseed and pea meal to replace the caseine removed from it, will feed rer 16 ths. \$\varphi\$ ths. 13 @ 14 as good calves as one need have. Bone and muscle and a large capacity for in hides. one-third off. digestion are required for dairy cows. and, indeed, for beeves if the fattening propensity can be put on to these. But sweet milk and sweet whey are Indispensable. These may be secured by a little good management. Deep setting of the milk will secure the one and heating and carrying from the factory in closed cans made perfectly

4. Fancy points do not pay. It is s laws sandwiched between a the broad backs, deep sides and ned-up soul and a diseased imag- round hams which make profitable pigs, and not the short necks and turned-up snouts, which seem to be to have been saved from de- running away for want of a body to on in a cyclone in the South Pa- be rooted upon that make the prime bacon, pork and ham for market or

5. All kinds of stock should have summer shelter. Sheep suffer exceedingly from heat, and the loss of milk tells the story as regards the cows. A simple roof supported upon posts, if one has not a few shady trees for the purpose, will be a great comfort to our domestic animals.

6. Every young thing about the farm goes to grass naturally, the first thing. A two-weeks-old colt is eating grass alongside of its dam; some threeweeks-old calves are nipping the young grass in the orehard, and a brood of chicks only three days old are picking the tender blades here and there. Then let farmers provide grass in abundance for young animals. It is the cheapest food.

7. Properly equipped for their work, veterinary surgeons may be true "helpbearers" It would pay a stockman, dairyman or farmer feeding ten head to give a dollar for each one to have a competent veterinarian visit his herd once a month and be within call on emergencies, and for this sum contract to attend upon and treat all the sick animals of the herd or farm. If swine-breeders and dairymen were to act upon this principle, there would be a sudden end of bog cholera and a sudden end of hog cholera and fail. a sudden end of hog choicra and 'pleuro-pneumonia,' for the surgeons, interested in preserving health of their charges, instead of "breathing out as Seed for "How to Cure Skin Diseases." charges, instead of "breathing out slaughter" would put in practice the PIMPLES, blackheads, chapped and oily skin abundant precantionary methods to avoid and evade these diseases.

8. When not shorn of their rightful endowments, agricultural colleges afford the best opportunities for young men who have a liking for live-stock, and a desire to learn how to care for arving. He drank a great deal them and treat their ailments, to pursue this purpose to a successful end. It is best for every student to seek out the college in his own State and demand that his application be properly met. This will be a sharp spur to laggard States to put their agricultural and indeed we published the colleges in working order to meet in a sufficient manner the requirements of their citizens.—Cor.: N. Y. Tribune.

Keep But One Kind.

No one but a fancier should keep several breeds of fowls. Let the farmer choose that breed which gives him iclamation, "if it is true." To the most pleasure to care for, and, as a te ourselves, and to give the rule, the money received goes far toward that end. The breeds that are exhibited in the largest numbers and in accordance with the popular demands are Light Brahmas, Wyandottes Day SELF-HEATING Bath Tub. on the one-twentieth of ticket and Plymouth Rocks, with an increasing interest for Dark Brahmas and White Plymouth Rocks. second capital prize of the lot- A farmer makes no mistake if that drawing was \$100,000. his taste leads him to select either of the five kinds named; all lay dark, desirable egg for the market, and all are good, genuine poultry. Remember, in these days, the specialists are the ones that get a reputation and make money; but, in this case, the grand secret is that with one kind the breeder soon finds out the possibilities of the breed, soon learns it thoroughly, the breed improves in his hands, his strain becomes noted, he derives an added pleasure in handling and his pocketbook grows fat .- Our Country Home.

Clarksville, Georgia, has a novel "labor disturbance." The proprietors there issued an order forbidding the girls to wear bustles while at work, because it is danserous to go about among the machinery with the unnatural protuberances. The girls rebelled, their male friends backed them, and the mill is shut down.

PHYSICIANS HAVE FOUND OUT That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive sub-cutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calcareous natured but more profitable. At times chalky deposit which produces stiffness and a dairyman or stockman must get new distortion of the joints. No fact which experience has demonstrated in regard to Hostetter's Stomach Bitters has stronger evidence to support than this, namely, that this medicine of comprehensive uses checks the formidable and atroclous disease, nor is it less positively established that it is preferable to the poison often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fevers, constipation, dyspepsia kidney and bladder aliments, debility and other disorders. See that you get the genuine.

The following words, in praise of Dr. Pierce's Favorite Prescription as a remedy for those delicate diseases and weak-nesses peculiar to women, must be of interest to every sufferer from such maladies. They are fair samples of the spontaneous expressions with which thousands give utterance to their sense of gratitude for the inestimable boon of health which has been restored to them by the use of this world-famed medicine.

SIOO
THROWN AWAY.

JOHN E. SEGAR, of Millenbeck, Va., writes:
"My wife had been suffering for two or three years with female weakness, and had paid out one hundred dollars to physicians without relief. She took Dr. Pierce's Favorite Prescription and it did her more good than all the medicine given to her by the physicians during the three years they had been practicing upon her.

Mrs. George Hunger, of Westsield, N. Y., writes: "I was a great sufferer from leucorrhea, bearing-down pains, and pain continually across my back. Three bottles of your feet health. I treated with Dr. ____, for nine months, without receiving any benefit.

The 'Favorite Prescription' is the greatest earthly boon to us poor suffering women."

THREW AWAY

HER
SUPPORTER.

Mrs. Sophia F. Boswell, White Cottage, O., writes; "I took eleven bottles of your 'Favorite Prescription' and one bottle of your 'Pellets,' I am doing my work, and have been for some time. I have had to employ help for about sixteen years before I commenced taking your medicine. I have had to wear a supporter mest of the time; this I have laid

WONDERS.

Mrs. May Gleason, of Nunica, Ottawa Co.
Mich., writes: "Your 'Favorite Prescription'
has worked wonders in my case.
Again she writes: "Haying taken several bottes of the 'Favorite Prescription' I have regained my health wonderfully, to the astonishment of myself and friends. I can now be on my feet all day, attending to the duties of my household.

TREATING THE WRONG DISEASE.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from hiver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here or there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, the suffering for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some for which he prescribes his pills and potions, assuming them to be such, when, in reality, they are all only symptoms caused by some for which he prescribes his pills and potions, as proper medicine, patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications. A proper medicine, patient gets no better, but probably worse by reason of the delay, wrong treatment and consequent complications.

Allen.

PHYSICIANS
FAILED.

Mrs. E. F. Mongan, of No. 71 Lexington St., East Bosten, Mass., says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians, I was completely discouraged, and so weak I could with difficulty cross the room using the local treatment recommended in his 'Common Sense Medical Adviser.' I commenced to improve at once. In three months I was perfectly cared, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and enclosing a stamped-encelope for reply. I have received over four hundred letters, and have earnestly advised them to 'do likewise.' From a great many 4 have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

JEALOUS

DOCTORS.

A Marvelous Cure,—Mrs. G. F. Sprague, of Crystal, Mich., writes: "I was troubled with female weakness, leucorrhea and falling of the womb for seven years, so I had to keep my bed for a good part of the time. I doctored with an of meney, but received no lasting benefit. At last my husband persuaded me to try your medicines, which I was louth to do, because I was prejudiced against them, and the doctors said they would do me no good. I finally told my husband that if he would get me some of your medicines, I would try them against the advice of my physician. He got me six bottles of the 'Piscovery,' for ten dollars. I took three bottles of 'Discovery,' and four of 'Fayorite Prescription,' also six bottles of the 'Discovery,' and four of 'Fayorite Prescription,' and I have been a sound woman for four years. I then gave the balance of the medicine to my sister, who was troubled in the same way, and she cured herself in a short time. I have not had to take any medicine now for almost four years.'
