CURES Contracted Muscles, Eruptions, Hoof All, Scrow, Worms, Swinney, Saddle Galls, Piles. Sciatica, Lumbago, Rheumatism, Burns, Stiff Joints, Backache, Galls, Sores, Bunions, Corns, Sprains, Strains, Stitches, Stiff Joints, Backache, Galls, Sores, Spavin, Cracks. THIS GOOD OLD STAND-BY accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability. Everybody needs such a medicine. The Lumberman needs it in case of accident. The Housewife needs it for general family use. The Cattleman needs it for his teams and his men. The Mechanic needs it always on his work bench. The Miner needs it in case of emergency. The Pioneer needs it—can't get along without it. The Farmer needs it in his house, his stable, and his stock yard. The Steamboat man or the Boatman needs it in liberal supply aboard and ashore. The Horse-fancier needs it—it is his best friend and safest reliance. The Stock-grower needs it—it will save him thousands of dollars and a world of trouble. The Railroad man needs it and will need it so long as his life is a round of accidents and dangers. The Backwoodsman needs it. There is nothing like it as an antidote for the dangers to life, limb and comfort which surround the pioneer. The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once. Keep a Bottle in the House. 'Tis the best of economy. Keep a Bottle in the Factory, for immediate use in case of accident saves pain and loss of wages. Keep a Bottle Always in the Stable for use when wanted.

C. F. HYD COMBINATION WIRE AND PICKET FENCE. Improved Combination. Patented May 22, 1883. No. 277,877. Wire and Picket Farm Fence and Machi e for its Manufacture. The Cheapest and Most Perfect Fence in Use. Pig Tight, Horse High, Cattle Strong; STEEL & WOOD INTERWOVEN.

We use from six to eight wires interwoven solidly, with from forty to forty-five light wooden slats to the rod, thus producing a fence that will hold all stock, from the smallest pig to the largest beast. It is the most durable fence made, as the slats are in a vertical position, clear of the ground. There are no bars to cut or maim stock or tear the wool from your sheep. It is as visible to the eye as a board fence and ten times as strong. It will stand a side pressure of from 12,000 to 15,000 pounds. It is woven or manufactured on the posts. One man and a boy can build from 40 to 60 rods in a day. Farmers can build their own fence and use material that would otherwise be lost or used as fuel, and thus save from \$100 to \$150 per mile. We can refer to thousands of farmers in Kansas, Iowa and Missouri who are using our fence. We feel great pleasure in presenting this fence to the farmers of Lane County, filling as it does a want long felt. Being practical farmers we know what we say. Farm and Precinct: C. F. HYD.
