Look us over; if we do not save you money, we will make some one else sell to you.
A FULL LINE OF GROCERIES.
F. B. DUNN.

White Swelling.
Mr. M. S. Hamlin, one of the best known insurance men in North Carolina, writes from Winston, as follows: "Ever since I was seven years of age I have had what the doctors call hip disease, and which I call white swelling. My hip was drawn out of place. There was a profuse running, which has been there for years. Of course this has greatly depleted my system, together with surgical operation on the leg bone. I tried every known blood purifier to build up my system, but none did me good until I took S. S. S. I use it every spring. It always builds me up, giving me appetite and digestion, and enables me to stand the long, trying, emerging, hot summer days. To me there is such medicine for purifying the blood as building up the wasted system as S. S. S. using it I soon became strong and my body was easy of mind. My color changed from a pale, worn look to a healthy, robust complexion."
Mr. G. N. Frizel, of Farmersville, Texas, writes: "About August 1st, 1885, an eruption appeared on my arms and legs, which pained me much and seemed to affect my physical condition generally. On the advice of a physician at this place, I finally commenced using Swift's Specific. I am glad to say that after using three large bottles the sores have all healed."
Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga.

What is it?
That produces that beautifully soft complexion and leaves no traces of its application or injurious effects? The answer, Wisdom's Robertine accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warranted harmless and matchless. F. M. Wilkins, agent, Eugene City.

Delays are Dangerous.
You say, well, "it is only a slight cold, look out, it may lead to an inflammation of the lining of numerous air cells of the Lungs this is Pneumonia. Or to spasmodic contractions of the fibres of the air passages, which is Asthma; or the inflammation of the lining membrane of the throat and tubes which pass through the Lungs, which in the first stage is called Bronchitis, and may lead to consumption. Santa Abie is delicious in flavor, certain and perfect in its result. A few doses will relieve a thorough treatment cure the above named diseases. Every bottle warranted by all druggists.

Don't Believe It
When told that F. M. Wilkins, the druggist, is not selling "Wisdom's Robertine" for the complexion, the most elegant and only really harmless preparation of its kind in the world, and giving a beautiful picture card with every bottle.

Eureka.
The motto of California means, I have found it. Only in that land sunshine, where the orange, lemon, olive, fig and grape bloom and ripen, and attain their highest perfection in mid-winter, are the herbs and gums found, that are used in that pleasant for all throat and lung troubles. Santa Abie, the ruler of coughs, asthma and consumption. All druggists sell it under a guarantee of \$1 a bottle. Three for \$2.50.
Try California Cat-B Cure, the only guaranteed cure for catarrh, \$1, by mail, \$1.10.

Farm for Sale.
I have for sale 220 acres of land known as the Gillham farm; 25 acres good timber and the remainder all prairie. All under fence; good house and barn; good orchard and other improvements. The place has an abundance of good spring water and is situated one-fourth mile from the Pleasant Hill school house, one of the best school districts in the county. For further particulars apply to T. G. HENDRICKS.

Day and Night
During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep.

I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies
Without Relief,
I tried Ayer's Cherry Pectoral. It effected a speedy cure.—G. Stovall, M. D., Carrollton, Miss.
Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases.—M. A. Rust, M. D., South Paris, Me.
I was attacked, last winter, with a severe Cold, which grew worse and settled on my Lungs. By night sweats I was reduced almost to a skeleton. My Cough was incessant, and I frequently spit blood. My physician told me to give up business, or I would not live a month. After taking various remedies without relief, I was finally
Cured By Using
two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption.—S. P. Henderson, Saulsbury, Penn.
For years I was in a decline. I had weak lungs, and suffered from Bronchitis and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a long time comparatively vigorous. In case of a sudden cold I always resort to the Pectoral, and find speedy relief.—Edward K. Curtis, Rutland, Vt.
Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine, and was cured.—Ernest Colton, Logansport, Ind. Jf

Ayer's Cherry Pectoral,
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

Thompson on the Tariff.
(Salem Vidette.)
David P. Thompson—our own Dave—writes a letter all the way from Rome to the Oregonian on the tariff question. He tries to demolish Cleveland's Blaine wrote from Paris and he could not do it; so Dave P. tries his hand. He is in sunny Rome in classic Italy, and, as an argument in favor of a protective tariff, he gives the following table of wages in that country:

	Cents per day.
Common laborers.....	40
Carpenters.....	65
Brick masons.....	80
Weavers in factories.....	35
Spinners in factories.....	40
Silk winders in factories.....	40
Finishers in factories, silk.....	75
Finishers in factories, wool.....	60
Dyers in factories, silk.....	80
Dyers in factories, woolen.....	60

All other wages in proportion.
So these are the wages in Italy, are they? And Italy has a protective tariff! This is a fact which Mr. Thompson did not mention, yet it is a fact nevertheless. Italy has the highest protective tariff of any country in continental Europe. Dave, all unconscious, has been hoisted by his own petard. The simple truth is that the high wages in this country are from other causes than protection. This country has prospered, not on account of protection but in spite of it. Once again Mr. Thompson, you are in favor of patronizing home labor and home industry. Why do you not practice what you preach? What labor are you employing in your journeying in Europe? If you have the privilege of patronizing the pauper labor of Europe, why not let every poor devil, who chooses, have the same privilege? Come home, Dave, before you prate any more about patronizing home industry. As the poet well says:
David P. Thompson, he Had better let the tariff question be.

Our Arctic Regions.
S. F. Examiner.
During the recent blizzard the thermometer at Clearwater, Minnesota, marked 63 degrees below zero. When the mercury strays much below the freezing-point of water Californians are unable to follow its course with intelligent interest. They fail to realize the difference between zero and 63 below, just as they fail to realize the difference between the distance of Jupiter and that of Saturn. It may help to bring the meaning of the figures less clearly before our eyes if we compare last week's American experience with some of the records of Arctic explorers. Franz Josef's Land lies in the remote recesses of the Arctic ocean. It is entirely north of the 80th parallel of latitude—far beyond Spitzbergen and Novaia Zemlya. The lowest temperature observed there by Weyprecht and Leigh Smith was 43 degrees below zero. Clearwater, Minnesota, might use Franz Josef's Land as a winter sanitarium. The lowest temperature ever recorded at any of the Danish settlements in Greenland was 47 degrees below zero—16 degrees warmer than the Minnesota standard. When Nordenskiold first made the north-east passage around the Arctic coast of Siberia, he went into winter quarters in latitude 67 seconds 7 minutes. The coldest weather he experienced during that winter was 50 deg. below zero. Clearly it would be safer for an average dweller in the American Northwest to join an Arctic expedition than to stay at home. It is true that after experiencing the debilitating effects of a mild polar winter he might be unfitted for residence in Minnesota, but he could easily circumvent that disadvantage. He could stay away.

Kindly Return the Clothes.
If the gentlemen who tarred and feathered us last Saturday night will kindly return our clothes they will confer a lasting favor. We are still wearing the feathers, and while, owing to the thoroughness of our fellow-citizens' work they are quite comfortable for house wear, still the gentlemen who have come out with a fall feather suit are so few that our appearance on the streets in the costume would be sure to cause remarks.—Grub Stakes (Texas) Prospector.
There is a young lady in Keokuk, who is six feet four inches tall, and she is engaged to be married. The man who won her did it in these lines:
Thy beauty set my soul aglow;
I'd wed thee right or wrong;
Man wants but little here below,
But wants that little long.
Government statistics show that over \$400,000 in gold was mined in Siskiyou county last year. This is not a drop to what will be taken this year since foreign capital has come in and will work many of the mines on a scale worthy of their richness.—Union.
The force of four hundred workmen on the California & Oregon railroad will probably be kept at work all through the winter. It is said that the superintendent is anxious to have a heavy storm strike the road in Siskiyou in order that it may be tested and repairs and improvements be made, while a large force of laborers are on the ground.
FARM FOR SALE.—A farm containing 390 acres, situated 3 1/2 miles from Eugene and 2 1/2 miles from Irving, is offered for sale at \$20 per acre. There are 130 acres under cultivation; 80 more is open land. The rest is timber land furnishing abundance of wood of all kinds, close to market. There are three good orchards on the place. The soil is very rich and well adapted to fruit raising. Will be divided to suit purchasers. Apply to J. J. WALTON, JR.,

Wonderful Caterpillars.
N. Y. Star.
When Mr. Julius L. Brown was in Mexico he was talking with Colonel Foster of the Mexican army and one of ex-President Gonzalez' most intimate friends. The Colonel said "Did you ever see any of our caterpillars?" Mr. Brown replied that he had not, and asked what distinguished them. "We have a caterpillar in the State of Michigan that supplies the missing link between the vegetable and animal world. We bury the live caterpillar in the ground. A plant springs from his body which produces red flowers. These flowers, instead of making seed, reproduce a caterpillar. Now, mark the process. We plant the animal and produce the vegetable. The vegetable flowers and in turn produces an animal. From the caterpillar comes the plant. The plant in turn reproduces from its red flowers the caterpillar." Mr. Brown insisted that the caterpillar was a joke. The Colonel thereupon called a gentleman from Michoacan whose name Mr. Brown does not recall, and without telling the story, asked him about the caterpillar of his State. He repeated the story as the colonel had told it, and asserted upon his solemn word of honor that it was true, and the plant produced and reproduced repeatedly. Mr. Brown afterwards saw General Ocho, General Pombou, then President of the Mexican Senate, and Mr. Francisco Blanco, a leading Mexican and partner of General Pombou, and they all told him the same story, assuring him of its truth.
Mr. Brown is of a scientific turn, and has a scientist's incredulity. The evident good faith of these distinguished Mexicans impressed him, however, and he investigated the matter thoroughly. He found scores of witnesses who swore in the most positive manner to the truth of the story.

During the past week we have experienced the coldest weather known in southern Oregon for a great many years; in fact about the severest which has prevailed in the past quarter of a century. The mercury went down to three degrees below zero last Friday and Saturday nights, but since then the weather has moderated, though still being cold for several nights afterwards. Rogue river, Applegate, Butte, Bear, Evans and other creeks have been frozen over during the week, for the second time in the memory of "the oldest inhabitant." So it will readily be seen that this cold snap is a very unusual occurrence. Outside of the freezing of vegetables, apples, etc., little damage has been done by this weather. Stock will winter safely, unless there should be more of these frosts by "old Boreas"—Jacksonville Times, Jan. 26th.

At Benton, recently, the wife of Wesley Roy, a farmer, gave birth to a quartette of boys and girls, two boys and two girls. This is remarkable as it is the first of the kind that ever occurred in this state. All of the children and the mother are doing well. When the nurse first showed them to the father, he probably asked: "Did any of them get away?"

The New York Tribune finds fault with the Administration on this score which many of the people think to be meritorious. It says: "The Democratic financial policy expands the currency rapidly in the fall; the actual expansion has been \$52,000,000 since last June, and during the last half of 1887 it was even larger."

Among the coasting accidents at Jacksonville, are reported the following: Miss Nettie Pogue had an arm broken, W. R. Cook broke one or more ribs, and Robt. A. Miller sprained his back seriously. All this, however, did not stop the gliding of the sleds.
Having perfected arrangements with parties in Portland, I am able now to find purchasers for lands, more readily than heretofore. If you have land for sale, improved or unimproved, you cannot do better than to entrust your business with us. Terms reasonable. Your patronage solicited.
B. F. DORRIS.

FOR SALE.—Thirty-five dollars will buy a Parker shot gun, twelve bore; also five dozen metal shells—cost \$50. Inquire at this office.
FOR SALE.—A lot of nice show-cases, as good as new, at E. B. LUCKEY & Co's.
