STATE UNIVERSITY

ADA SHARPLES, Editor.

Mark Bailey has been awarded the Valdictory. Report says the moon continues to draw out the serenaders.

Mr. Young left this week for his home and will return next fall if his eyes improve. Many of our students attended the Baptist Sunday school picnic across the river last Saturday.

Hon. Geo. H. Burnett, of Salem, has accepted the invitation to address the societies Commencement week. The Seniors in drawing the map of California have decided our sister State in all the colors found in the solar spectrum.

Miss Sue Morris, our Eotaxian president, has been absent from school a part of the week, a sufferer with neuralgia. We were misinformed last week. The Assistant Secretary of the Laurean society is E. J. Fletcher and not A. G. Hovey.

Miss Ettat Lewis has so far recovered from the measles as to be able to go to her home, where she will rest until until her eyes allow her to resume study. Most of the election class have been excused this week so that Prof. Spiller can spend the time in preparing the Freshmen for their first rhetoricians.

We understand that both L. J. Davis and Senior Brattain spent their mind and time on Saturday at Cottage Grove working in favor of the Republican party. The latest heard from Mr. Nash about his travels in Europe is that he is soon to leave Rome for Vienna, and afterwards will rest in Germany for a time to engage in the study of music.

The looking glass that Prof. Collier has kept in his room for the accommodation of the Juniors has now been placed where no one but old Sol can see it. We hope it will not make him vain. We understand that a number of our students intend spending the summer as literary solicitors. We hope that none that read these columns will be so insulting as to speak of them as book agents.

Greenfield in his hurry to go to the picnic forgot to put on his accustomed boquet, becoming chilly without it, he however, around a florist's gate playing upon his guitar, until she sent the "minstrel" on his way with more than a usual nice bouquet. The two young gentlemen interested in diswashing have taken advantage of the offer the Eotaxians made to teach them the art. Henceforth we may look to see suspended from the window of their rooms, "Dishes taken in here to be washed."

We see from a Douglas Co. paper that two farmers near Roseburg are this year engaged in cultivating peanuts. Should this branch of agriculture become a success, we fear that the Laurean society will commence considering in the Fall the advisability of holding their future meetings out at Roseburg. At last week's meeting of the society Anna Roberts read "Home-keeper's Soliloquy." Question: Resolved, That the plays attributed to Shakespeare were written by Bacon. Affirmative, Ida Hendricks, Julia Hamilton, Clara Condon; negative, Nellie Snodgrass, Agnes Greene, Anna Roberts. Question decided in favor of the negative.

Fred D. Wagner, the ex-editor of the Laurean society, left for his home in Ashland last Tuesday evening. He is to take charge of the office work of the Ashland Tidings. Whether this position was given him as a fitting reward for the admirable way in which he edited the Laurean column or not we have not learned. Before retiring from this office he made some most magnificent bequests, of such effects as he had not editorially consumed, as it all consisted of perishable property, we should like to be informed at once of the whereabouts of the distributing office, that we may secure our "souvenir" while in a good state of preservation and not find "bequests better in will than in reality." Mr. Wagner promises to be with us again in Ashland.

The Eotaxians have in as lady like a manner as they know how, tried to show the Laureans how welcome they would be at any time to witness their debates; but as none come in, we feared that our hesitancy had kept us from being clearly understood. However on Friday last a Laurean ex-President was brave enough to venture in, and at once became so interested in what we said, that he could not conceal from us the surprise he felt at the learning our debate revealed. Though we fully realized how more than common well he had been entertained, when we asked him to make a speech for us, as courtesy demanded, we commended to think that he had only come in to be a spy or critic. He started off, of course, with the usual amount of "thanks" and "pleasure," then went on to say how much he should like to hear some more of our debates "if they were all as good," and twitted us with our "want of study of the Robert's Rules of Order," when every Friday that book goes its rounds. All this could not help but leave a little sting where we had only looked for pleasure. Since we have learned that he was only practicing upon us so as better to be able to stand before a political audience at Cottage Grove the next day, so this once we will forgive him and take care that no one has a chance to do the like again.

CLASS TREE POEM. [Written for the class of '88.] Oh, Larix Europea, it seems you do not appreciate, What is expected of your future state. Did no one tell you the reason, Why we took you out of season; And why with such infinite toil Planted you in a foreign soil? We chose you for your pretty name, To stand for ages as an emblem of our fame. To draw from earth air and water food, and to create Some magnificence, with which to represent the class of 1888. To drive your roots, deep and firm into the earth, And indicate the strength of the wish we have for future worth. To encourage with your vigorous life Those who come here bent on learnings strife And to show what you can do By way of ornament for the campus, and to conceal the few Who may wish to sit beneath your shade, In confidence to prattle Then, be above possessing a dry leaf, for the wind to rattle. Now if you do these things as you ought, You'll find your own pleasure easy bought; For you then will be the tree That all the visitors will come to see. And early in the spring time with their singing, Birds will keep your topmost branches ringing. Oh, Larix Europea! you once held all our pride On a false foundation, for we feared you had gone and died. So on our class-tree morn, we must set a willow where it will lightly wave Above your head, above your grave. No; rather than have you here as a comfort to our Alma Mater, We'll pull you up, and in your place we'd better plant a "taster."

DEDICATION.—The new Baptist church is completed and will be dedicated Sunday, June 3d. Rev. A. R. Medbury of Salem, and Rev. G. J. Burchett will preach the sermon.

HOW MEN DIE. If we know all the methods of approach adopted by an enemy we are the better enabled to ward off the danger and postpone the moment when surrender becomes inevitable. In many instances the inherent strength of the body suffices to enable it to oppose the tendency toward death. Many however have lost these forces to such an extent that there is little or no help. In other cases a little aid to the weakened lungs will make all the difference between sudden death and many years of useful life. Upon the first symptom of a Cough, Cold or any trouble of the Throat or Lungs, give that old and well-known remedy—Boschee's German Syrup, a careful trial, it will prove what thousands say of it to be, the "benefactor of any home."

The unprecedented sale of Boschee's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by Physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the disease makes their appearance, will save doctor bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cts., large bottles.
