A painful accident happened on the grade about a mile above this place last Tuesday. While the teacher and Mr. Jasper Hills' and Mr. Jacoby's children were returning from school on horseback when at a narrow place met a wagon and team. The horse being ridden by Mr. Hills' children became frightened and backed off the grade frightening the horse causing it to back off, throwing all the children, and the horse of Mr. Jacoby's while trying to climb upon the bank stepped upon Maggie Jacoby, aged 7 years, breaking the thigh bone. Fortunately the other children escaped uninjured. The child was taken home and Dr. Thompson was called and set the limb and the little girl is getting on nicely. In our last items we mentioned an accident that happened on the grade below here. We think it time for the county to make an appropriation for the improvement of these two grades.

The check was quickly torn and the Blaine man heaved a sigh of relief and yet one of regret. A minute more and he would have been poorer by \$300.—Albany Democrat.
