Purify Your Blood.
Bodily and mental health depend upon a healthy condition of the blood. The blood, particularly in the spring and summer months, becomes clogged with impurities, which poison it and generate disease. A harmless blood purifier is necessary to restore a healthy tone. The best purifier and tonic known is Swift's Specific (S. S. S.). Of its wonderful purifying and tonic powers we give a few testimonials:
Mr. Wm. A. Sebold, with George P. Rowell & Co., 19 Spruce Street, New York, writes: "I feel it my duty, for the benefit of others who may be afflicted as I was, to write you this letter, which you can use in any way you choose. I suffered great pain from boils, all over my neck; I could not turn my head without the pain. After trying all the usual remedies, and finding no relief, I used one bottle of S. S. S., and very soon I was entirely relieved of my 'Job's Comforters.' Now not a sign of my affliction can be seen."
Mr. M. S. Hamlin, Winston, N. C., writes: "I use it every spring. It always builds me up, giving me appetite and digestion, and enabling me to stand the hot summer days. On using it I soon become strong of body and easy of mind."
Mr. C. E. Mitchell, West 23d St. St. Ferry, New York, writes: "I weighed 110 pounds when I began taking your medicine, and now 150 pounds. I would not be without S. S. S. for several times its weight in gold."

THE FREE WHISKY PLANK.
What a Republican Stump Orator May Expect During the Campaign.
Sunset Cox in his tariff speech in the House of Representatives thus depicted the prospective trials of a Republican stump orator in the coming political campaign:
How can you go out and answer the questions pertinent to this campaign without entertaining alliances and confused ideas?
Some taxpayer, tired of your protective exactions, asks:
"Why should only 2,738,895 people, the pets of protection, be favored at the expense of over 70 per cent. of their 60,000,000 fellow citizens?"
What? For the voice from the still—warm with the tears of wretched and orphaned—lankily answers: "For free whisky."
"Why should we not cheapen clothes, blankets and carpets by admitting wool free, since the mills have a capacity of 600,000,000 pounds, and only 240,000,000 pounds are raised at home?"
The answer comes like the bleat of a thousand flocks: "Before clothes, or blankets, or carpets, take free whisky."
But says an honest reusant Republican from Minnesota:
"Worthier, better and juster, it seems to my mind, would it be to give our people, the tolling masses, cheaper food, cheaper fuel, cheaper clothing and cheaper shelter, cheaper, because released from the heavy and unnecessary burden of high tariff taxes."
"Pshaw!" says the hide-bound protectionist, "these articles must remain taxed to vindicate the American system." That system has as its genius free whisky.
A taxpayer inquires of you:
"Have not the American people paid in sixty years over \$20,000,000,000 in the hope of getting goods cheaper by and by after the infants have attained their majority? What, my Republican brother, will you now do?"
The brother answers: "Free whisky."
"Has invention done nothing for us?" asks the impoverished mechanic. "What do you show us as the result of our American genius for a century in mechanics?"
The answer comes: "We tender you the worm in the still, the finest invention of the devil. It may take away your brains and impoverish your families, but protection must stand! We offer you, untaxed, cheap, free whisky!"
Another inquirer asks: "Why do you not take the tax off my coat of 'reversible nap'?"
The answer comes: "Protection first, but always free whisky."
An old lady of West Virginia asks, with anxiety: "Why must I pay 60 cents in addition to every dollar for the crockery from which I drink my sassafras tea?"
"Ah!" says the protectionist, "is not whisky better than tea?"
A series of questions and answers might be fired off in the following order:
"Are you going to allow that reduction proposed by the Mills bill from 47 per cent duty to 10 on carpets?"
"No, but we will repeal the tax on cigarettes for your young boys and add free whisky."
"Won't you support the reduction of 10 per cent. on cotton goods?"
"No, but I would love to lower the whisky tax."
"Won't you reduce the tax on castor oil below 194 per cent—its present rate?"
"No; I won't condescend to help anybody but those who want the cost of whisky reduced."
"Please help us reduce the tax on cheap woolen cloth from 89 per cent. to 40 per cent., as Mills proposes—will you not?"
"No; I do not want to engage in anything else till I have taken the tax of 90 cents a gallon from whisky."
"We are making a last effort to reduce the duty on wool hats from 54 per cent. Cheap hats. Won't you help us?"
"No, sir; the Republican platform doesn't say anything about cheap hats. It does advocate taking tax from whisky, and I stand by the platform."
"The worst goods for my family is taxed 88 per cent. Help me pull that down to 40 per cent., will you not?"
"No, sir; let your worsted goods go to grass! Whisky is more than a dollar a gallon. I want to take the 90-cent gallon tax off it."
"Now, my friend, the Mills bill proposes to take eleven and one-half millions tax off of sugar; won't you help us pass it?"
"No, for it don't propose to cheapen whisky one cent."
"It makes salt free. Won't you favor that?"
"Is salt whisky? Salt ain't in our platform."
"It makes the tin, of which our tin stove stoves vessels and cans and roofs are made, free; won't you give us that?"
"Tin is not in the platform; whisky is."
"It makes lumber for our homes to keep us warm, free. Won't you favor that?"
"No, I want to legislate to warm the inner man, not the outer one. Give us free whisky."
When these questions are answered, let me read as a summing up to the gentleman what was said by an old farmer friend of mine in Iowa. He had evidently been perusing Sydney Smith on taxation:
"I never wore any clothes that were not increased in price by this policy of making an alms-house of every possible factory. I used to rise on Sunday morning from my humble cot in a log farm house, throwing off the bed clothes taxed 40 to 100 per cent., and, donning my clothes, taxed 35 to 100 per cent, eat my taxed breakfast from dishes taxed 45 per cent, on a table cloth taxed 40 per cent, and when the Sabbath bell, taxed 35 per cent, sounded the inviting notes, I took my Bible, taxed 25 per cent, and went to the church built of lumber taxed 20 per cent, and there in a Sunday School shop taxed 25 per cent, (and all these taxes paid to the objects of my charity, not to the Government), I read:
"Far out upon the prairie
How many children dwell,
Who never read the Bible
Nor hear the Sabbath bell!"
[Great laughter and applause.]
What is the relief my old farmer friend receives from you and your platform?
"Free whisky."
Does this give comfort to his family, his purse or his soul?
Now, you gentlemen want to go among the men, women and children of this country and say:
"We will not take the tax off of cheap clothing, cheap lumber, cheap food, but we will take the tax off of whisky, to make it cheap and common, and more harmful to the soul and body."
Is not that an inspiring issue for a party of moral elevation?
Oh, gentlemen, it is the old, old story. You gentlemen must have often heard it sung:
Oh, what a tangled web we weave
When first we practice to deceive!
—Philadelphia Record.

He Is Tired of the Tariff.
The following dispatch shows how our much vaunted prohibitory tariff is destroying an American industry:
Pittsboro, Pa., July 27.—George A. MacBeth, the glass manufacturer of this city, has declared for tariff reform. He says: "Clay, which goes into pots, if my memory serves me right, pays a duty of 35 per cent. Clay is not found in this country. The lead we use pays a duty of 1 1/2 cents per pound. It has been cornered for a year. The potash we use pays 20 per cent. duty. I do not believe there is enough of it made in this country to supply one-tenth of what we use. Take these items on the quantity we use per week and it will not run short of \$550. This increases the cost of our goods just exactly that much, to say nothing of the increased cost of other items affected by the tariff. I can see nothing in this to help labor, and you must confess that it is against labor. We can actually build a factory in Germany, costing half the money that it costs here, pay the 45 per cent. duty on the goods and undersell any manufacturer in the United States making the same quality of goods. I am afraid that some day the small part of the United States outside of Pennsylvania will get their eyes opened and make such short work of the tariff as to cause a commercial crisis, in place of doing away with it gradually."

Swelling Democracy's Army.
Augusta, Me., July 27.—There is quite a breeze in political circles here over the stand taken by several prominent Augusta Republicans for tariff reform. Charles N. Hamlen, a large dry goods dealer on Water Street, and a son-in-law of the late Lot M. Merrill, has never voted anything but the Republican ticket, but when seen to-day said decisively:
"I don't see how I can conscientiously vote for any other candidate than Cleveland. I believe in tariff reform. We need free wool. Woollen manufacturing in many of the mills here is an unprofitable business. Two mills in the county are idle. They had been manufacturing a low grade of cassimeres from our American wools. The market being overstocked with these goods and manufacturers being unable to import the high grade of wool needed to make fine cloth because of the tariff, were obliged to stop their machinery."
Lendall Titcomb, one of the most extensive property holders in the city and a Republican, advocates tariff reform daily.
Dr. W. E. Lapham, formerly editor of the Maine Farmer and who has long been a Republican, will vote for Cleveland and reform.

He Cannot Stand Free Whisky.
CHARLES, Pa., July 22.—Peter Ritter, a leading Republican of this county, came out yesterday for Cleveland and Thurman. He voted for Harrison in 1840, and took an active part in the campaign. He has been a hard and earnest worker for the Republican party ever since. He says he cannot go free whisky and tobacco. He thinks Cleveland has made a good President and should be re-elected. He has great influence among the farmers of the county.
Since the Republicans freely deny Gen. Harrison's sympathy with know-nothingism, it is well to state the fact of his affiliation with that order in 1854, on the same evening and in the same lodge with E. O. Norton, formerly of Portland and at present residing in Salem. Norton, Harrison and two others were initiated the same night in Indianapolis.

AN EXPLANATION.
What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—today it is as common as any word in the English language—yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called biliousness, and are all caused by troubles that arise from a diseased condition of the liver which in performing its functions finding that it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. It cures are marvelous.

PACIFIC TEA CO.
Why wey T-Tea-T. We ask you to note that we carry the largest and best stock of Tea south of Portland. We buy direct from the importer. We allow you to see, taste or smell what you buy, or will give you a sample to let you find out just what kind you want. All favorite and tried brands always in stock. Prices to suit the times—from 25 cents up. We also have a full and fresh stock of groceries etc.

Eugene City will in a few years have a population of 60,000. The railroad from Colburg will be extended here, thence to Florence and the west road will be extended from Corvallis to Eugene. Huntington and Grocer have been here, looked over the ground and said this is so. Look at what you missed by not buying a few years ago. You are missing just as much by holding off now. Buy ten acres of the Humphrey tract for \$1,000 and in five years it will be worth \$10,000. Don't wait for a boom and pay boom prices but buy NOW.
