

THE EUGENE CITY GUARD.

SATURDAY AUGUST 25, 1888.

Democratic Ticket.

For President:
GROVER CLEVELAND, Of New York.
For Vice President:
ALLEN G. THURMAN, Of Ohio.
For Presidential Electors:
W. H. EFFINGER, Of Multnomah.
E. R. SKIPWORTH, Of Umatilla.
W. R. BILVE, Of Linn.

Some Reasons Why.

"Why are wages so much higher in protected America than in free trade England?" ask the men who attribute every blessing of this favored land to high taxes.
These are some of the reasons why, given by the N. Y. World:
Because the United States have an area of 3,600,000 square miles of territory, while Great Britain has 121,570.
Because the United States have a population of only 14 to the square mile, while Great Britain has 286 people crowded upon the same space.
Because the United States contain over 4,000,000 farms that produced in 1887, a value of over \$2,213,000,000, while Great Britain is subject to the curse of entailed estates and vast unproductive preserves.
Because the United States have 150,000 miles of railway, while Great Britain has but 19,000.
Because the United States are richer in mines, quarries, forests and other natural productions, and afford a greater diversity of climate, soil and employment to their inhabitants than any other country in the world.
Because, in addition to this greater field and demand for labor, the intelligence, energy and productive skill of our working people surpass those of any other nation.
These are some of the reasons why wages are higher here than in England, have always been so under low tariffs and high tariffs alike, and would be so if there were no tariff.

And Still Another.

A. P. Fitch, the Republican Congressman who represents the great workingmen's district of New York City, has resigned his membership in the Republican organization and is out for Cleveland and tariff reform as opposed to the cheap whiskey of the Republican platform.
Fitch is a man of great strength among the workingmen and his accession to the ranks of the Democracy with that of Henry George signifies that the great body of American laborers do not want cheaper whiskey and cheaper tobacco, but they do want cheaper clothing, fuel and food. The protective tariff is no hindrance unless it protects one class at the expense of another. The era of tariff reform is at hand.

Wheat Market.

SAN FRANCISCO, Aug. 21.—There is some agitation in grain circles to-day, owing to a sudden and marked advance in the price of wheat. The market has been strengthened, and prices gradually advancing for several days, and this morning's spot wheat in the market reached \$1.50 per bushel. The quotation for spot wheat a week ago was \$1.41 1/2, @ 14 1/2. Speculation was brisk this morning. Buyer '88 wheat opened at \$1.61 1/2, and rose at once to \$1.65, with liberal sales from this figure. The advance was gradual till \$1.65 was reached, when there was a slight reaction and the market closed at \$1.60. This option sold at \$1.57 1/2 @ 1.57 1/2, a week ago. At the afternoon session of the call board buyer '88 advanced to \$1.68, and closed strong at that figure.

We are in receipt of extracts from the official records of the pension bureau, which reveal the following facts: Since the inauguration of President Cleveland he has approved, or allowed to become laws over 1200 private acts granting pensions while but 1524 private pension acts were approved or allowed to become laws by limitation, during the entire twenty-four years that the Republican party was in power. There is little doubt that before the present Congress adjourns he will have approved or allowed to become a law by limitation, nearly or quite as many private pension acts as all of the Republican presidents from Lincoln to Arthur. The above figures, taken from the official records, show beyond cavil or question that no such liberality to ex-soldiers, their widows, orphans and dependent relatives in the matter of pensions, was ever shown by any administration in the history of the republic, and that no former administration has ever extended the maintenance of the government to so many of the beneficiaries of the pension laws as has the administration of President Cleveland.

Lane county will probably raise for export this year 800,000 bushels of grain. This will require 400,000 sacks, which at the present prices will cost the farmer \$35,000. The sack business is protected by a 40 per cent. duty, and the farmers of Lane county are taxed over \$14,000 or nearly two cents per bushel extra for sacks. Farmers who grow about the low price of grain and hard times, remember that you are paying two cents a bushel on your grain into an overflowing Federal treasury, and that the Mills bill proposes to admit sacks free. The people of Lane county do not have a single industry that is drawing a subsidy from the government to the shape of a protective tariff, while on nearly every article in use on the farm, in the workshop and in the household, an exorbitant tax is levied ranging from forty to one hundred per cent. Protect yourselves by voting for freer, fairer trade, instead of trying to build up some other community.

Importer of pauper labor Morton gave \$2500 to the people of Ireland during the famine a few years ago. That's nothing. A Democrat by the name of James Gordon Bennett, a so-called "free-trader" gave \$100,000 at that time, and Samuel J. Tilden donated \$25,000, with the proviso, that the gift should not be made known during his lifetime. Morton is richer than either of these men, and therefore gave very stingily.

Just imagine the howling that would be, if Allen G. Thurman owned a bank in London, and was director of a British railroad competing with American lines. But it is well enough for Levi P. Morton, who will spend his English gold for the Republican party. Britishgold, Cobdenclash, freetrade money is to be used by the Republican party this campaign, and no one can deny it.

That spontaneous welcome of Maine in New York cost \$20,000. It came out of Brother Levi P. Morton's barrel.

"Democratic niggers" is an Oregonianism. There are 7,000 of them in New York City.

Why did the price of wool advance, when the Mills bill passed the House?

The New York Hop Crop.

SHARON SPRING, N. Y., Aug. 20.—Indications now for higher prices for hops are very good. Hop-growers who held '87 hops have been almost begging to sell for some time, but all at once, as the new crop is about to be harvested, the country is swarming with buyers endeavoring to contract for the growing crop at 15 cents, and a few instances 18 cents is offered. It is estimated that New York State will yield about one-half an average crop this year. The price for picking this year is 50 cents a box, with one board, and 25 cents where the picker is boarded. One of the causes for the shrinkage of the crop is sun scald, which affects the crop over a wide district. Many yards have suffered from heavy storms. No lice have appeared as yet. R. g. picking will begin all over the state September 4.

Bent on Ruining the Country.

Marshall Fields, of Chicago, proprietor of the largest drygoods store in America, has announced his intention to vote for Cleveland; he supported Blaine three years ago. The average Webfoot sucker, who believes that the sun rises and sets because of our high tariff, may wonder at Mr. Fields trying to ruin the country, when he has more interests at stake than almost any other man in the United States. On his side Mr. Fields may wonder at the gullibility of the said sucker, who would believe that a man of his intelligence, is trying to destroy his own fortune.

Coming State Elections.

Four more states will hold elections prior to the presidential election in November, to-wit:
The Arkansas state election will be held on the first Monday in September.
Next comes the Vermont election, on the first Tuesday in September.
Maine follows with an election on the second Monday in September.
Georgia will hold an election on the first Wednesday in October.

We clip the following from the New York Sun (Ind.) of Aug. 15, 1888, to show how betting stands in that city: "Phil Dwyer, the famous horseman, is willing to take advantage of any Republican enthusiasm that may have been engendered by the Blaine episode, Ed Merriam who is in Wall street by day and at the Sturtevant House nights, returned from Saratoga yesterday morning commissioned to bet \$5,000 or any part of it on Cleveland's election for Phil at odds of \$100 to \$75. Some other friend of the level-headed horseman has another \$5,000 to place on the same conditions, but his name could not be learned at the Sturtevant last night.

A STRAW.—A commercial traveler who was in Salem yesterday informed a reporter that while at Eugene City a few days ago he and several other "knights of the grip-sack" made up a complete list of the commercial travelers, who made periodical trips through the valley. They counted 113 of them and out of this number 104 were Republicans, nine Democrats and nary a probi or mugwump in the lot.—Salem Statesman. This is a sample lie circulated by Republican papers. There have been more than nine Democratic commercial travelers here during the past ten days. A traveling salesman informs us that there were eight Democratic drummers in Ashland last Sunday.

A SLIGHT BLAZE.—Last Friday morning a night lamp in the residence of Mr. Owen Moore exploded just as he was arising. It was put out by vigorous work. Damages slight.
