Mothers!

Castoria is recommended by physicians for children's teething. It is a purely vegetable preparation; its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhea and wind colic, allays feverishness, destroys worms, and prevents convulsions, so that the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

Lambert & Henderson are the sole agents for the celebrated Superior stoves. Take your wife and look at them.

Moore's Revealed Remedy regulates and builds up all the organs of the human system. Sold by Eugene Druggists.

What is it?

That produces that beautifully soft complexion and leaves no traces of its application or injurious effects? The answer, Wis-
dom's Robotine accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warranted harmless and matchless. F. M. Wilkins, agent, Eugene City.

By the latest methods in use by Eastern dentists high in the profession, Henderson is enabled to produce equally as desirable results in fine gold fillings. Office same place, Hayes' block.

A traveling man, stopping at the Lee House, Campbellsburg, Ind., on learning that a lady in the village was suffering terribly with cramp colic, gave the landlady a bottle of medicine, which he had with him and requested her to take it to the sick woman. The medicine relieved her promptly and she believes saved her life. It was Chamberlain's Colic, Cholera and Diarrhoea Remedy, the promptest and most reliable medicine in use for bowel complaints. Sold by Osburn & Co.

Cholera Morbus is one of the most painful and dangerous diseases, many deaths resulting from it each year, usually because it is not properly treated. The most severe cases may be cured by using Chamberlain's Colic, Cholera and Diarrhoea Remedy. Sold by Osburn & Co.

Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with great success during our epidemic of bloody flux. I do not know of a case that was lost where this remedy was used. One of my friends, about six miles from here, had a child that was given up by the two doctors who attended it. He then used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and the child recovered. All who have used it speak of it in the highest terms. Wishing you abundant success for the good you are doing, I am, Very Truly Yours, —P. E. LANDENDER, P. M., Chestnut, Amherst Co., Va. Sold by Osburn & Co.

Give Them a Chance!

That is to say, your lungs! Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there, your lungs cannot do their work. And what they do, they cannot do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Notice.

Chas. Baker has leased the Baker house from Mrs. Baker and purchased the business. All bills previous to Aug. 15 are payable by and to Mrs. Baker.

Wood Wanted.

All kinds of good, clean four-foot wood wanted by the Winter Photo-Company. Wood taken in exchange for pictures to any amount, until Sept. 1st, '88. Inquire over A. V. Peters' store.

Winters

Photo-Company.

Mr Geo F. Crow has the sole agency for all brands of the —Punch Cigars.—
The highest price will be paid for wheat by F. B. Dunn

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and whiteness. More economical than the ordinary kinds and cannot be sold in competition with the multitude of low test, short-weight, adulterated phosphates. Sold only in cans. ROYAL BAKING POWDER Co., 106 Wall St., N. Y.

Large Prune Orchards.

The climate and soil of the Willamette valley is so naturally adapted to the culture of fruit of nearly every description, that it is only a matter of time when the large fields now covered with stubble or oak gnbs will be replaced by thrifty and profitable orchards. The planting of fruit trees is annually growing greater all through the valley but the largest acreage to be planted this fall that we have heard of, is in Linn county, about two miles from Corvallis, says the Times. By a mutual understanding between a few citizens and some of the farmers of that locality, they have decided to plant a large tract in Italian prune trees, and by pooling their issues their financial success seems to be inevitable, as the demand for this fruit is almost insatiable. They expect to erect a dryer of enormous capacity, when their trees commence to bear and ship their fruit under one brand. This can hardly be considered a speculation as the success of fruit culture in the Willamette valley has already been demonstrated and it is predicted that the seventy-five acres then planted will be among the most valuable in the valley in a very few years.

The French are ahead of us in the use of steam power on the highway. An exchange says that in the south of France the government postal service is supplemented by the "wagon post" of private contractors, who employ many hundred horses in conveying small parcels from town to town, even along the railway lines. This business has become so extensive that several road locomotives have been ordered for it and are proving very satisfactory. Two of these machines are running between towns 70 miles apart each making the trip one way nightly at a speed of eight miles an hour. Part of the road is very hilly, with long gradients up to as much as 1 in 11. The locomotive, with coal and water, weighs 15 tons, and the loaded wagon from 7 to 10 tons, making the average weight of the train 25 tons. At 175 pounds pressure, the engine gives about twelve horse power, and with fair roads use about half a ton of fuel for the round trip of 140 miles. These engines have been running over six months without interruption.

A man walked into Mayor Hewitt's office recently in New York, deposited an envelope containing \$1000 for the Jacksonville yellow fever sufferers, and walked out again after refusing to give his name. "Just say that it came from an American," was all he would say. The money was in three gold certificates, one of denomination of \$10,000 and two of \$1000 each.

Seattle will hold a special election on November 19th to decide whether or not bonds to the amount of \$1,000,000 shall be issued for building water works for the city. An estimate has been made that 19,000,000 gallons a day can be supplied for \$764,980.

Davis, the tailor, has just received a large stock of imported and domestic goods of the latest Spring and Summer styles. Call and examine his stock.

Bettman will take all kinds of produce, eggs, bacon, butter, chickens and everything at better prices than anyone else in town.

Dr Taylor's 7 Oaks Compound, purely vegetable, positively cures rheumatism, neuralgia, toothache, sick headache, cramp colic, cholera morbus, complaints peculiar to females, cold or cough, hives, chills and fever, pains around the heart, erysipelas, phthisis.
Sold by Osburn & Co, druggists.

Don't Believe It

When told that F. M. Wilkins, the druggist, is not selling "Wisdom's Robotine" for the complexion, the most elegant and only really harmless preparation of its kind in the world, and giving a beautiful picture card with every bottle.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature. The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things that ought not to be, have made the American people a nation of dyspeptics. But Green's August Flower has done a wonderful work in reforming this business and making the American people so healthy that they can enjoy their meals and be happy. Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

The young man with his best girl, the old man and woman, the farmer and laborer, when they come to town to Eugene to purchase goods, should not delay but proceed at once to Friendly's store, where is kept a large stock of mens, boys and childrens clothing, ladies dress goods, fancy articles, hats, caps, boots and shoes, carpets, etc.

Out of the Breastworks.

TATE SPRINGS, TENN., July 4, 1888.
The Swift Specific Co., Atlanta, Ga.:
Gentlemen—Seven years ago I contracted an exceedingly bad case of blood poison. I tried a physician, the best at command, but secured no benefit. My throat began to get sore, and my body covered with sores and ulcers. Going from bad to worse, I felt that my grave must be reached in the near future. I gave up the doctors' treatment, and with a despairing hope I commenced taking your medicine. I began to improve from the first bottle, and in a short time the ulcers healed, and my skin cleared off and was entirely well.

One year ago a case of catarrh developed in my system. The physician had his best, but could not cure me; but two bottles of Swift's Specific gave me permanent relief.
J. H. ROBINSON.

KAUFMAN, TEX., June 23, 1888.
The Swift Specific Co., Atlanta, Ga.:
Gentlemen—I have been afflicted with a skin disease for about twelve years, and the best medical treatment failed to give me relief. I am now using Swift's Specific, and have received the greatest benefit from its use.
Yours truly, WM. JONES.

For sale by all druggists.

Rubbing the Wrong Leg.

While I was walking down to the store the other night to spend the evening I saw coming toward me two ladies and the walk being narrow, and I being somewhat of a gaiter, I thought I would pull out and give them the road, but as it turned out it was a bad speculation. The ladies drew near, nearer still. We met and such a meeting. My feet slipped toward them, their feet slipped towards me. And weren't we mixed.

I was hurt. I couldn't rise. I put my hand on my leg to rub it. I had no feeling in it. It was swelled twice its natural size. Oh, heavens was it broken?

I rubbed it again, but it did not get the relief I thought it should. While rubbing I was hit a sharp blow on the head by an umbrella in the hands of one of the females. At the same time she yelled: "Release my leg, you villain."

I glanced down. Oh, horrors! I had made a mistake. I was rubbing legs I had nothing to do with. As soon as I glanced down I knew I had made a mistake, for I never wear white trousers in the fall weather.—St. Paul Paper.

Fire at Independence.

INDEPENDENCE, Nov. 5.—At 8 o'clock this evening flames were seen issuing from the livery stable of Harry & Hall on Main street. The firemen responded promptly to the call but the flames gained so rapidly that all efforts to suppress them proved futile. However, the surrounding buildings were saved, with the exception of a small house adjoining the stable, occupied by Geo. Heaton. The buggies and horses were saved, but the feed, together with the harness, was burned. The building was a large two-story frame structure and was owned by Dave Whittaker. The loss is about \$3000; insurance \$500.

Yesterday morning customs officers intercepted six large canoes of West Coast Indians at the mouth of the harbor and brought them to the landing in the rear of the custom house. The Indians were returning from the Pagar Sand hop fields, and their canoes were well laden with all descriptions of winter supplies, such as sugar, flour, calicoes, blankets, boots and shoes, shawls of bright colors, apples, tea, coffee, and other miscellaneous goods which Indians delight to possess. The articles had been purchased in American territory with the proceeds of their labor in the hop fields, and were being taken to the West Coast without the payment of duty, when the entire outfit, canoes and all, was seized by the vigilant officers. The Indians, especially the women, were greatly indignant at the seizure of all their purchases, but are thoroughly cognizant of the fact duty will have to be paid before their "tots" are released.—Victoria colonist.

FATAL ACCIDENT.—J. I. Chapman informed us that W. D. McClannahan of Wilbur was accidentally shot last Sunday from the effects of which he died early Monday morning. It happened about as follows. He had left his gun lying on the bed and his children got to playing with it and in some manner discharged it, the ball going through some of the bed clothing, and through the wall striking Mr. McClannahan in the hip and ranging upward, which proved fatal in a few hours. He leaves a wife and four children to mourn his sudden and sad demise.—Review.

The yellow fever in Florida has no effect upon the jokers. One of them lives in Palatka. He rushed into the office of a prominent business man the other morning and said that a girl had come into the city without a certificate. The business man hurried out and blew up the quarantine officers for not attending to business. Then the health board heard of it, and they reprimanded the officers severely. The whole town was fast getting excited, when it was learned that the girl was a baby born to the joker the night before.

The Herald says of fishing on the Coquille: "The fishing season is about closed, and fishermen leaving. The run has not been nearly so good as last year, and far behind that of other seasons. About half the amount of fish was put up this year as was put up last year, and about double the men to do it. There were about 100 gill nets, and seven seines run, and the pack, as claimed by the canneries, was about 8,000. There were none salted to speak of."

The Independence West Side tells the following: Harley Alexander, the newly appointed postmaster at Buena Vista, received his first mail recently in a large mail bag, which he emptied, hung on a hook, and proceeded to fill up. Several days having elapsed without any mail being received at this office, J. T. Ford, our ever accommodating postmaster, asked him to send on his mail, and received in reply the following: "Great Scott! You must be in a terrible hurry. I haven't got the blamed sack half full yet!"

Dove Bros., of Bird Island, a few miles above Salem, yesterday sold the 1888 yield of their hop yards, 42,000 pounds, to Phil Neils, the San Francisco hop dealer, for 18 cents net at their place. The hops are to be delivered on board one of the river steamboats next week, and the Dove Bros. will then receive \$7560 in gold for their season's work.—Statesman.
