Oregon at West Point.

The following letter from an Oregon cadet at West Point, shows that this state is well and ably represented at the U. S. Military Academy. Mr. Davis is a resident of Polk county, and his appointment was secured through the influence of Hon. J. D. Lee, former senator from that county.

Dear Sir and Friend: Thinking perhaps you would be interested to know whether I passed the January series of examinations or not, I will send you a few lines on the subject, in consequence of my promise of last summer.

I passed all right, in fact, much better than I anticipated, and earned several fines in class standing as follows: Tactics, 23; philosophy and mechanics, 17; chemistry and heat, 23; drawing, 3; discipline, 15. This averages me about 15 in a class of 54 members.

STATE UNIVERSITY.

Column of the Eutaxian Society. EMMA DORRIS, Editor. ANNA ROBERTS, ASST. Editor.

The boys of the Anglo Saxon class say they think the Museum very nice.

Laureen's open session to-night—Friday. "The Eutaxians are e-ming oh ho, oh ho!"

Misses Maud Boemering, Minnie Jagers and Helen Osburn visited the society Friday.

Mr. Frank Wells joined the orchestra composed of University students last week. He is the leading tenor.

Stirling R. Welch, a former student of the University and now a dentist of Oregon City is spending a few days in Eugene.

The students of the "Sub Fresh" and English course want to know where they belong if not to the University. To the campus.

We think the Laureen editor must have gone to school with "Grover and Sylvester," in the good old days of '49, he is so familiar in his way of speaking of them.

Who was "Question Committee" at the society last week? It must have been a Laurean, as the question was wonderfully characteristic of those worthies.

The curtains in the society hall are very nice to wrap around oneself when freezing and the fire is already to be lit but no one has a match with which to start it.

The annual committee, consisting of three Laureans and Misses Nellie Straight, Etta Lewis and Anna Roberts, have selected Mr. Olin Wilson and Miss Julia Hamilton.

It has stopped! What? The poetry machine. It has failed to cooperate, hence the following notice: "Lost, strayed or stolen." The crank that turned the machine.

The students assembled in the auditorium Thursday at the call of Prof. Carson. They were assigned places for the ensuing public rhetorical and practiced marching from the hall.

Wanted.—A list of five hundred (500) questions for debate mostly political (religious ones allowed). Any one furnishing said list will be liberally rewarded by the Laurean society.

The meeting of the Y. M. C. C. A. and Y. W. C. C. A. was not held Friday last on account of Public Rhetoricals. Hereafter the meeting of the two associations will be separate, it being deemed best to have only occasional joint meetings.

Why is it that an Art Department has never been formed in connection with the University. Many of the branches that require training and skill, have a department devoted to them, but art is left untaught. The scenery from the University is certainly worthy of such study as an artist would give. We can only hope that very soon in the future art will be made a specialty in the school.

What girl in the society can wield a broom best. The other day several of the girls, thinking as honorary members, they might visit the Gymnasium Club, were surprised to find, right in the center of the room, a dust pan, broom and mallet waiting to be taken up. Surely, the aim of the girls is needed in the club. While developing "Sultivans" there should be a few Biddets.

One by one new students are joining the Junior class, and filling its ranks. The class, if none drop out, will number thirteen at graduation, nine young gentlemen and four young ladies. It is to be hoped this is but a beginning of the larger classes in the future, for since the grading of the High Schools of the state with reference to the University, it is hoped that a larger number of students will look to this school as one of the rounds in the ladder of learning, to be reached before the beginning of their education is completed.

"I'll go, says Mr. G. some valentines to buy, And to the board he went to find if they were high.

But ah! the decimal he found it would not do. Dot it here and dot it there. Better doctor it all the way through."

We understand that at the next regular meeting the Laurean President will be presented with a "swallow tail coat." They have already furnished him (through the kindness of an honorary member) with plug hat and gold (?) headed cane, and in order that he may be in the latest fashion they feel it their duty to add the coat. We heard he was somewhat inclined to follow the example set by some of the Juniors and Sophomores and become advance agent for a comedy company. Doubtless these "paraphernalia" will serve both as mementos of past grandeur and as a "long felt want" in his future career.

Many of the students have been absent this week with severe colds, lung fever and illness caused by compositions due. The following is the schedule of a methodical young man the day before his composition was due:

6:30: Breakfast bell.

6:30 to 7:30: Getting ready.

7:30: Breakfast.

7:30 to 8:00: Query. "To be (sick) or not to be, that is the question."

8 to 8:30: Hard study.

8:30 to 8:35: Writes a composition.

8:35 to 9: Decision made; stays home.

9 to 10: Rest.

10 to 11:
