After Jan. 1, 1890, the University of Oregon will be a free school to anyone passing the necessary examination. The passage of this law means increased prosperity to the University.

NEW YORK APPLIES.—That New York should send apples to Oregon is a disgrace to the State, yet that is what is being done just now. The boundary is fixed as follows: Commencing at the southeast corner of the University grounds, thence north to north bank of the mill race, down bank to the head of Swift slough, down Swift slough to middle of the Willamette river, down the river to a point due east from the north line of Chesler's addition, thence west to northwest corner of said addition, south to a point due west of Blair's donation claim, south to a point due west of Fifteenth street, east to the county road leading to the Masonic cemetery, north to a point due west of place of beginning, thence east to place of beginning. The readers of the GUARD who are familiar with the old boundary will observe that the boundaries are greatly enlarged.

The Mayor is given the power to appoint the Marshal, who shall also be Chief of Police and tax collector; city attorney and street commissioner by and with the consent of the council, the first meeting in each year. That official is also given a veto power, and it requires a two-thirds vote of the entire council to override his veto.

The money derived from sale of bonds cannot be used for any other purpose. The city has a right to construct sewerage outside of the city limits.

She is now fast getting in front of her older sister in many things. Her towns are more active, her people are more awake and her spare acres are being more rapidly settled. She has much moss on her rocks and trees, but not so much in some other places.—Salem (Or.) Deaf Mute Sign.

STATE UNIVERSITY.

Column of the Eutaxian Society. EMMA DOBELL, Editor. ANNA ROBERTS, Asst. Editor. March 2, '89.

Wizard Oil jokes are the latest among the boys. Class in Geology have begun "Historical Geology." "Miss Pres., I move the alphabet begin with z."—Clara.

New stories are always acceptable, even to the Latin classes. Misses Stella Page and Nadie Holcomb joined the society last Friday.

F. M. Mulkey was called home Wednesday on account of the death of his father. Election classes will not meet next week, it being the week for public rhetorical drill.

Why does Julia like, so well, the poem being ginning, "I love little pussy, her coat is so warm." The question, Resolved, "That man will do more for love than for fame," was chosen for two weeks hence.

Which one of the sophomores is it who does not agree with all Rhetoricians on the use of the "negative." Mr. E. O. Potter, of the class of '87, is in Eugene at present. He is re-surveying some land he surveyed last summer.

Pres. Johnson was in Salem the first of the week attending to that all absorbing question, the free tuition bill. The names of Misses Martha Calef and Minnie Jagers, were proposed for membership at the last meeting of the society.

During Pres. Johnson's absence Prof. Bailey took charge of the Tactics, Caesar and Reader classes, and Prof. Straub the Virgil class. After the "musical" members of the society had received valentines apparently made especially for them, the felicitous visitor should have been more kindly received last week.

Mr. E. L. Powell, of the class of '87, at his accounts was taking notes of the six days walking race in San Francisco. For the benefit of his friends we will state it was in interest of the Associated Press that he attended the match.

Quite a number of the students and faculty attended Heine's concert last Friday evening and express themselves as highly delighted with the blind musician. Some of them have been spending their spare moments since then practicing on tin whistles.

It may be of interest to know where some of the girls are who were active members of our society last year. Miss Etta Moore is spending her winter in Portland attending the Business College, Miss Anna Withers is clerking in Coberg, Miss Anna Crain is teaching at Drain, Miss Minnie Uren is teaching at Grover, Wasco county, Miss Hatie Dickinson has just returned home from an extensive trip over Oregon, book selling, and Melissa Hill is teaching in the public schools at The Dalles.

The girls in future will have imaginary exercises, according to our revised constitution, consequently, in order to know how to conduct them, and hearing it was Laura's to suggest them, the Eutaxians, to the many invitations from the students, elected themselves together last Wednesday, and proceeded to the University, where they found the Lursum society assembled. Although the hall was nearly full of their own members, they made room for us among the "reserved seats." The meeting was a particularly interesting one. Pres. Greenfield's address was very instructive and pleasing. The debate was postponed as the leaders had exhausted all their "resources of talk" during the last election, and could not be prevailed upon to speak, doubtless on account of the "company." The session was very short, and at an early hour we went home, having spent a very pleasant evening. Of course we were treated to the regulation Lursum refreshments—peanuts and taffy. We received the "taffy" later.

Although there were but few members present at our last meeting, we had a very pleasant time. Miss Nellie Straight favored the society with an instructive reading, as to the best mode of carrying on a debate. The regular question for debate was postponed and we indulged in a miscellaneous debate. The questions were of the greatest variety imaginable. Misses Clara Condon and Mary Porter discussed the pro and con of a classical education; Agnes Greene and Jessie Park, whether women should be lauded for murder; Elva Galloway, whether Eva was the first housekeeper; Fannie Condon, the feasibility of abolishing extra sessions. Julia Hamilton discussed at length a Junior question, remarkable for its lack of personality. Anna Roberts and Myra Norris decided the moon was made of green cheese. Nellie Straight proved Heine's concert to be a benefit "educational," considered. Ida Schofield and Mollie Reads discussed the Canada question—that is the annexation—not the "banker question." Linnia Holt, the Walters spook combination. Bertie Shelton, the success of foreign missions. Grace Matthews, the free school question. Nadie Holcomb, the execution of Major Andre; and Emma Dorris, the legality of J. R. G.'s claim. The young ladies showed great ability to debate extemporaneously, and there was close attention shown throughout the debates.

Dr. Durin leaves for Portland this morning. During his stay here the Doctor has treated a large number of this county's invalids. Cass Matlock stopped over Tuesday in Eugene. He was on his way to his home in Pendleton with a stallion he had purchased in California.

B. F. Dorris returned from the Blue River mines Tuesday. A San Francisco mining expert who accompanied Mr. Dorris will remain at the mines a couple of weeks to make further investigations. Mr. S. J. Handsaker is at Dexter where she has gone to assist in the family of Mr. J. W. Guiley, whose children have been quite sick but are improving.

Mr. Tarwater and family, recently from Nebraska, are among the new arrivals who are looking for homes in our W-boat state. Mr. T. is a connection of Mr. Jas. Sanford.
