A Great Strike's Cost.

The report of the Chicago, Burlington & Quincy railroad for the year 1888, made a mation regarding the cost of a strike. The were held at Portland last Saturday. Five Columbia river fisheries, that some of our test will be fought on substantially the same few days ago, gives some interesting infordecrease in the net carnings for the year was physicians were graduated and received Eastern friends appear to think that salmon lines, so far as national politics are involved, \$1.553.550, and the total deficiency for the their diplomas as follows: J. These unfavorable reports who delivered the valedictory address, C. the past, the directors say, are partly chargeable to W. Cornelius, J. W. Haines, J. P. Tamisie the large amount of new and unprofitable and H A. Wall, roads put in operation during the year, partly to the unfavorable effects of the interstate commerc law, but mainly to the great strike In closing he said: which began in February, and which deprived the company of the services of 2500 experienced men for nearly a year. The company intimates that the great strike caused them a loss of fully \$2,000,000. But their loss proportionately was not as large as that of the employes. The 2500 men who struck were principally engineers and firemen, and their wages averaged about \$75 per month. The strike was in full force about a month, though business was paralyzed for a much greater length of time Yet there are many of the strikers still idle, for they lost their positions on account of the strike, and have since been unable to obtain employment. Consequently to the engineers and firemen, the strike was a scrious loss. The Brotherhood of Locomotive Engineers sanctioned the strike and hung its later are many of the strike and hung its we felt that time was ripe for the organizal should not be sllowed to go to waste. gineers sanctioned the strike and hung its fate upon its movement. The result was it fate upon its movement. The result was it lost its commanding position among the labor unions of the nation, and furthermore, came very near losing its existence as an organization. The strike was also a loss to it. So out of the millions of dollars lost, neither the striker nor the company gained anything, and a vast amount of trouble to the public and suffering to the employes families was caused. Strikes as a rule do not pay.

Care Required in Feeding Potatoes.

Potatoes are now so cheap that a caution eeds to be given against feeding them in large quantities to milch cows. A few daily will do good, especially if the cow otherwise has dry and constipating food. But pota-toes do not make rich milk. The root has the winter months, causes the system to become torpid and the blood impure. A dose or two of St. Patrick's Pills will cleanse and invigorate the system, purify the blood and cow made elemstration.

Constipation

Demands prompt treatment. The results of neglect may be serious. Avoid all harsh and drastic purgatives, the tendency of which is to weaken the bowels. The best remedy is Ayer's Pills. Being purely vegetable, their action is prompt and their effect always beneficial. They are an admirable Liver and After-dinner pill, and everywhere endorsed by the profession.

"Ayer's Pills are highly and universally spoken of by the people about here. I make daily use of them in my practice."—Dr. I. E. Fowler, Bridgeport, Conn. "I can recommend Ayer's Pills above

all others, having long proved their value as a cathartic for myself and family."—J. T. Hess, Leithsville, Pa. "For several years Ayer's Pills have been used in my family. We find them an

"I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. Two boxes of Ayer's Pills effected a complete cure."—D. Burke, Saco, Me.

"I have used Ayer's Pills for the past thirty years and consider them an in-valuable family medicine. I know of no better remedy for liver troubles, and have always found them a pront cure for dyspepsia." — James Quinn, 50 Middle st., Hartford, Conn.

"Having been troubled with costive-ness, which seems inevitable with per-sons of sedentary habits, I have tried Ayer's Pills, hoping for relief. I am glad to say that they have served me better than any other medicine. I arrive at this conclusion only after a faithful trial of their merits."—Samuel T. Jones, Oak st., Boston, Mass.

They are mistaken. Salmon packing on years will be, a great industry.

An industry that gives employment to 4-000 men, that has invested \$3,000,000, that packs yearly \$2,000,000 worth of fish, that

buys a million dollars worth of supplies every year, that sends twenty thousand tons of salmon every year all over the world, would be considered an important industry anywhere. The pack of '87 was 354,055 cases of four The pack of 87 was 354,055 cases of four dozen caus to a case; the pack of '88 was 350,820 cases; the pack of '89 will begin operations to morrow, that is the open seasus begins to-morrow, though very little will be done for the next two weeks. There will

be nearly 1200 boats in the water this season; there will be an unusually large number of eines and traps, and twenty-five canneries will be in operation on the river.

Despite all that is said, it is acknowledged verywhere that the Columbia river salm s superior to any other; it is put up in such

shape as to justify the claim to superiority, and commands the highest price in the markets of the world.

The Oregon Pacific.

[Albany Herald, April 7th.] It is learned from what is considered reliable information that the Oregon Pacific Co. have received several bids for work on the eastward extension of the road and are now considering the same, and that the work on the line is likely to be resumed before many

The company has heretofore stated that the work on the road is to be commenced early this spring, and those in a position to know state that before anyone knows that there are contractors in the field they will have secured contracts and be ready to commence work. It is known that there are one or two contractors who have remained in this ity during the winter for the purpose of

Whether or no the Oregon Pacific Co will, in connection with the work of construction on the line eastward, also commence the erection of their machine and carshops here this summer is not known, but it is stated that the company's office will be removed to Albany, and it is a safe assertion that the work on the road will be commenced within a very short time.

Important to Old Soldiers.

A veteran of the late "unpleasantness" writes from his residence in Obio, under date of the 25th of December last, to the Pittsburgh Dispatch, that \$14,000,000 is now lying in the U. S. Treasury, to the order of soldiers of the recent war. He says that not less than four hundred thousand discharged soldiers are forther entitled to receive from. less than four hundred thousand discharged soldiers are further entitled to receive from \$25 to \$35 each, by merely applying for it in

Washington from any quarter, as folio sa: First-Five cents per mile from place of discharge home.

Second—Twenty five cents daily for extra
duty between April and October, 1862.

Third—Twenty-eight cents daily while in

rison or on furiouch.

He says he obtained his extra compensation as pensioner in these particulars by simply applying for it; and not one in ten of Americans seem to be aware of the legality o. such a claim. Although the extra aum is comparatively small, it is worth writing for, which seems to be all that is required Throughout Oregon, there must be a large number thus entitled, who might unitedly

It Will Stick and Win.

The war tariff still remains to burden industry and to hold out illusive hopes to the Columbia has been, is, and for many labor. The surplus still swells and continues as an incitement to congressional extravagance. The rich beneficiaries of this most unjust and unequal system of taxation arroganily denied to their workmen, now that their bounties are secured for "four years more," not only a fair share in the benefits but a decent hearing of their griev-

ances.

And so the issue remains.

The position of the Democratic party upon this question is what it always has been. The Democratic party began in 1840 to denounce taxation of the many for the benefit of the few. It has never swerved from this position. It declared in the same platform that "no more revenue ought to be raised than is required to defray the necessary expresses of the government" on a basis of than is required to defray the necessary expenses of the government" on a basis of "the most right economy." It has constantly reaffirmed this doctrine. In 1876 the enduring Tilden platform denounced the tariff as "a masterpice of injustice, inequality and false pretenses," and demanded that "all custom house taxation shall only be for revenue." In the last company the party simply maintained its historic position.

It will stick, and win.

Oregon Recommendations.

The Oregon delegation to congress have united upon and have submitted to President Harrison the following names of persons for appointment to various federal offices in Oregon:

J. B. Huntington, of Baker City, for register, and Captain Harrison Kelley, of Jacksonville, for receiver of the new land office at Drewsey, in the new Harney land district.

T. J. Buford of Yaquina City to be United States Indian agent at the Siletz agency in Benton county.

A. C. Palmer to be postmaster at Prine-ville.

Rev. G. M. Irwin of Union to be superin-tendent of the Indian school at Chemawa

The Pension List Criticism of Commissioner Tanner's scheme to pension everybody is received by the surplus-spenders and vote-catchers as

"hostility to the Union soldiers." It is not hostility but true regard for hon-orable veterans to wish to keep the pension list a roll of honor. That list will be any-thing but a roll of honor when the bummers and the shirks are given an equal place upon it with the brave and faithful soldiers, and when the able-bodied and prosperous share the nation's bounty with the disabled and

the nation's bounty with the disabled and the dependent.

It is said, in one of the true words spoken in jest, that "Corporal Tanner will do his best to make the next war popular" Yes, with mercenaries. To pension everybody who volunteered is to make a lost virtue of patriotism. To induce men to enlist, not in defense of their country but in the hope of getting a li'e support at the country's expense, is to degrade citizenship to a Hessian basis.

The country should be and has been liberal
