ADVICE TO MOTHERS.

ADVICE TO MOTHERS.

Mrs. Winslow's Scothing Strup, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhoses, griping in the bowels, and wind colic. By giving health to the child it rests the mother. Price 25c a bettle.

Mr. C. J. Smith, traveling sale-man for Belford, Clark & Co., Chicago, had the misfortune to aprain his orist most sererely "I was suffering great pain," he says, "and my wrist was badly swollen; a few applications of Chamberlain's Pain Balm relieved out of gratitude wanted the passengers, who made up a fine purse for the little fellow, to choose its name, and that of Grover Harrichten and reduced the swelling in one choose its name, and that of Grover Harrichten as well as the purse for the little fellow, to choose its name, and that of Grover Harrichten as seven minutes. am very grateful. That is to say, your lungs: Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities lesding from them. When these are clogged and choked with matter which ought not to be there, your lungs can-not do their work. And what they do, they cannot do weel. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. The annuals of the whole world of fictiathin or sailful tale of remance than that leuta of Mrs. Ben Holliday in Portland short time ago, and'if the story of good old General Ingalls is true, we must delve intethe realms of antiquity to find a parellel of the cruelty practiced on a defenseless woman by Joe Holliday and Geo Weidler. For a women who first came before the world as the wife of a king, who wielded a power greater than many of the monarchs of the dynasty's of the old world, a king who built up collossal fortunes for himself and his collorgues, by the aid of a matchiese genius and untiring energy. For the wife of such a man to die almost in poverty, right amidst the scene-where she once had reigned in spleudor, is a pittful fate, and when the recording angel or Heaven's changers chand her second on Heaven's chancery closed her account on life's ledger, the sad sad story of the impositions practiced on the poor woman, mus-have caused a tear to fall, which should have blotted out all that might have been recordesgainst ber.

The disbursements amounted to \$18,514. leaving a balance on hand of \$2,076. The total disbursements were \$433,830, leaving a total balance of \$4,002.

Secretary Windom has established for the present fixed prices for the Government pur chase of bonds. The four per cents will be taken at 129 and the four-and-a-halfs at 108. Whether enough will be forthcoming at these rates to keep the surplus from absorbing too much of the circulating medium for the welfare of trade is a question. There has been an increase of \$10,000,000 since the 4th of March. The situation at best is a reproachful comment on the failure of Congress to reduce the taxes.

The Cruiser Vesuvius.

The new dynamite cruiser, the Vesuvina, ducted under governmental auspices shows has not yet been officially tested for acceptance or rejection by a naval board, but it is quite probable that notwithstanding all that The fish commissioners of Arizona have has been said about her, she will meet the requirements of the contract when the final test is made. One of the provisions of the contract between the builder and the government is that before being accepted she must demonstrate that she can fire each of her three fifteen-inch gans five times in ten minutes. In a preliminary trial trip last week, the Vesuvius fired ten blank shots in only eight minutes, or on an average one shot in less than a minute. This shows that in starting into a fight with three guns charged, cruisers can fire fire eighteen shells each containing 500 pounds of gelatine and dynamite, in six minutes. The Vesuvins has shown that she can, during the time it takes to cover two and one-quarter miles on the water, discharge at an enemy she may be approaching four and one-half tons of dynamite.

It is terrible to contemplate the vast de-

this terrible to contemplate the vast de-struction that might be accomplished with this great amount of dynamite. It is enough to destroy a whole fleet of vessels and rent to atoms every soul on board. It is to be hoped that the Vesnvius will never be called upon to perform the deadly work she is capable of doing.

"And It Is."

Bro. Pipes of the Benton Leader in a anegyric on the Willamette valley relieves inuself thusly:

And it is. It has an equable climate, a ich soil, pure water and resourges for a great population. It fills and satisfies the satural and the spiritual man. No one hould come here and go away without and to some here and go away without ming to some high eminine on one of bese fine spring days and looking at the excesse of view that will meet his gaze. The meet high of the distant mountains that shut his vision, capped with a new peak here and there, the winding river, the greening woods, the hifting lights and shadows, the saving fields of grate; all these make the next glad. A man, that will not enjoy that cene is essentially and incrinsically a broan, and we don't want him for a chizen.

Solid Truth.

A newspaper, if it has any brains, concience or muscles back of it, says an exhange, must continually decide between loing its duty and injuring its pocket. In any position but that of editor the public is ble to separate the individual home from he citizen. But if the editor does not please hem, it's his pocket they aim at. Thus it s that newspapers learn who their friends are. Admiration will not run a newspaper.

The Columbia River Fisherman's Protecive Union has over eighteen hundred names f members in good standing on the books. To be a member in good standing requires hat each man pay an annual fee of \$4 and live up to rules of the union. These 1800 men include representatives of about every ation on the face of the earth, and to keep everything running smooth among them requires ability in no small degree. Fully four hundred of the members are fishng in Alaska this season.

It is reported that Van Cott, the newly ppointed postmaster of New York city, intead of finding surety for himself in the sum of \$600,000, will require every employee in a responsible position in the desartment to enter bonds for sums varying from \$1,000 to \$10,000. These in the aggregate will amount to between \$150,000 and \$200,000 and will be turned over to Van Cott's surettes together with his own bond for the difference, a new plan which causes tovorable comment.
