Oscar Stoops, of Pleasant Hill, on returning from Eugene Saturday evening fired several shots at a dog that ran at his horses hee's from one of those new houses recently erected near the Sprinfield bridge. For this he was arrested Sunday charged with this he was arrested having shot into said house. His trial took place in Justice Churchill's court Monday, and although 'twas found that no ball had entered the house, he was bound over in the sum of \$250 to await the action of the grand jury and answer the charge of an attempt to kill—a dog we suppose. Apply to W. W. Baker, Port-

land, Or, for catalogue. A NEW WAY TO KILL Boos. - Alfred Sheppard of Turner has discovered a new and novel way of destroying thousands o insects, etc., that are so damaging to fruit and fruit trees. His plan, which we are informed works wonderfully, is as follows: Place a tub of strong soap suds out among the fruit trees or shrubbery and at night place a common coal oil lamp, lighted, under the tub, which should be placed upon stakes about two feet from the ground. Thousands apon thousands of bugs and insects will find their way into the tub of suds, where they are destroyed. The light serves to draw them to the tub, and it is really wonderful how many will accumulate during the hours of one night.

REMOVE THE SIGNS.-J. F. Robinson was circulating a petition Monday asking the council to pass an ordinance prohibiting the swinging of signs across the sidewalk, also that no one be allowed to use more than twelve inches of sidewalk in front of his place of business. The petition was genstally signed by our business men. It certainly would be a great improvement. the signs are now one cannot see along the sidewalk. They are dangerous during a wind, and mar the appearance of the street. Every purpose would be answered by attaching them to the fronts of the houses

Copilis Morn.-Prof. Johnson fitted up a force pump and sprayed his apple trees with a solution of London purple, the means recommended by the State Board of Horticulture for exterminating the coddin moth. The best time for spraying is when the fruit is about the size of a pea. The spraying should be continued at intervals until Care should be taken that vegetables should not be sprayed or that cattle should not eat the grass under the trees for a time.

TRAIN OF THRESHING MACHINES. Copied From the Oregonian of April 27, 1889,

[Associated Press.] BATTLE CREEK, Michigan, April 27,-A eavy train of probably thirty carloads of threshing machines from the Advance Thresher Company, consigned to Z. T. Wright, Portland, Or., left this city early this morning via the Burlington route, C. B & Q. R. R., and will be run through special to destination, stopping only at important points en route for exhibition. The rapid time and numerous decorations will doubtless cause this train as it speeds across the country to atteact the attention of the entire farming community of the whole Pa-

cific Northwest. This same company shipped two similar trains to the Northwest but season

Coal Discovery.

For years, more or less stone coal has been picked up in the hills south of town, and considerable money has been spent in hunting for the vein or voins. Last week some workmen uncovered a very small vein, on the farm belonging to Mrs. A. Lynch, bout two miles south of Eugene, and after working a couple of days it developed into a vein of between six and eight inches in thickness, we are informed, and when work was suspended it was rapidly enlarging with the prospect of ultimately running into a good sized vein. An essay was made of the coal in Portland and it was pronounced the best yet discovered on the coast. We hope this strke will be thoroughly prospected, for it would mean a great deal to Eugene to have a good coal mine right at our doors.

Medical Registration.

The time for registration of physicians and druggists has expired, and hereatter any medical practitioner or drug clerk must pass an examination before being allowed to practice. In addition to the list heretofore published we give the following:

DIED .- Word has been received here by relatives of the death of Mrs. C. L. Williams which occurred at Silver Lake, Lake county, recently. Mrs. Williams, husband and chil-dren, resided in Lane county for a long per-SETTLED.—We mentioned the fact last week that E. U. Smith had been bitten by a dog. The dog was owned by Sam'l Howard, who lives about two miles below Eugene on the river coad. He settled the matter by paying Mr. Smith 850. The dog it is said has a bad reputation and Mr. Howard now keeps a ty in his very sad affection. iod of time, until about two years since, when they removed to Lake county. Only a few months ago two of their children died from scarlet fever. Mr. William has the sympathy of his many friends in Lane coun-

Owing to the recent great decline in price of photographic stock I will for a short time make cabinet photos for \$4 per dozen. As I propose to do business on a cash basis you will please to bring cash along to pay in full when the negative is taken. The quality of our work will always be first-class and we will allow no other kind to go out. Bring the babies and "catch the shadow ere the substance fades." Yours to command,

THE COW OFFICEN -- Corvallie is west ling with the cow question. Is it not about time that Eugene rid herself of the cow nuisance by enacting an ordinance prohibiting their running at large at any time? It would save broken and filthy sidewalks, gates, fences and gardens, and the farmer could leave his wagon standing with some assurance that every thing in it would not be eaten up before he returned. The com-mons are about all fenced in, and it leaves the cow nothing to feed on but the streets, and the property of farmers and citizens. When the streets were dedicated to the pub-lic it was not contemplated that they should be used for cow pastures. The long suffer-ing public has endured the ravages of the predatory bovine until patience has ceased to be a virtue.

CENTENNIAL SERAICE .- In accordance with executive proclamation, both State and National, a union religious service was held at the First Baptist church in this city, Tuesday, at 9 a. in. On the day of Washington's inauguration one hundred years ago the people met for prayer at their respective churches. This fact suggested the holding of religious services on the centennial of that occasion. The Baptist church was completely filled. The services consisting of addresses, scripture reading and prayer were interesting and inspiring.

SERMONS TO YOUNG MEN .- Next Sunday evening, Rev. C. M. Hill, pastor of the Baptist church, will begin a series of services to young men. He has in his possession a large number of letters received from young men to whom he addressed inquiries. The letters give the resions for neglect of church services on the part of young men. The reasons will be stated and commented on in the sermons. All are invited

GRADUATING CLASS EXERCISES -- Dr. Con don of the State University will lecture before the graduating class of the public school of Roseburg. Sunday evening the 12th of this month. The Dr is a minister and one of the greatest naturalists on the globe; therefore a rare treat may be ex-pected. The class numbers eighteen or twenty .-- R seburg Review.

Good Bye.

With this issue our names will disappear from the head of the column and others take their place. We are glad that we can leave it, "in hands more capable than leave it, "in hands more capacity." We warned our readers in the ginning and so make no excuses for our many blunders. We have become wiser, and hope other Eutaxians will profit by our experience. And if they imagine they any telent whaver in the journalistic line, the column and an indulgent society will aid them. Likewise the never-ending of news, the poetry machine. At the last meeting of the editors, the decision was unanimous that the machine turn out a farewell, but the crank utterly refused to For fear our good bye will be the longest part of our work, with thanks to the Guan, ociety and reporters for favors received, we write-adiea.

Remember the corporation meeting to-day Saturday).

Mr. W. Gifford Nash, a former student,

was in Eugene this week. The sociable at the M. E. church Tuesday vening was largely attended by the students. Miss Emma Bean, '84, a former president

Miss Ada Sharples, of the Senior class, spent Friday and Saturday of last week in The annalist wants some one to give her an item about Guy. She says she does not

know any. Hon. Richard H. Thornton, of the Law Department of the University, was in Eq. gene the first of the week.

The Seniors finish the text book in geology this week. The rest of the term will taken up with Oregon's history. The "Y's" give a tailor sociable at the residence of Mrs. J. B. Utiderwoon, to-night,

for active and honorary members. Mr. Frank Porter and his sister, Miss Mary, were summoned home last week on account of the sudden death of their father. Julia says she thinks the scenery up the mill race beautiful, especially the where it has been wash(ed) and burn(ed)

in ages past. Miss Minnie Shaw, an old-time student, and former member of the society, has returned home, having spent the winter in Union, teaching.

The question for two weeks hence is, "Re-

solved, that Boulanger should be punished by the French government." We expect a ost interesting debate. The students handed in their last compositions for the year this week. They were very patrictic, we have no doubt, as most of them were "revised" Tuesday. The new "schedule of rehearsals" is up

ing the week, trying to find out on what day of the week Thursday comes, The Juniors are to take the first strawberry picuic of the season, toward Spencer butte, as soon as the strawberries permit. Happy are the class and all "honorary

The University students who belong to the

Friday were very interesting and entertaining. They consisted of a reading, "The Catastrophe," by Effic Young, and a recitation, "Papa's Letter," by Nellie Straight. We will this week introduce to each other two new Editors: Miss Straight, Mr. McAlister. We hope you will get along very nicely in your work and aid each other as

much as the Laurean Editor aided(?) us. After a closely contested election, the Laureans elected the following officers for the coming term: Pres., L. E. Woodworth, of the Junior class; Vice Pres., A. G. Hovey, Jr., of the Junior class; Sec., K. K. Kubli Asst. Sec., D. H. Roberts; Treas., C. W. Martin; Censor, H. T. Condon; Editor, E. H. McAlister, of the Junior class; Sergenat-

at-Arms, F. Groner. Some time ago the Entaxians revised their constitution, and in so doing the time of the election of officers was changed from the beginning of each term to the beginning of each quarter. Owing to this change, the officers of the expiring term held over their time somewhat. The new officers elected to serve the ensuing term are: President, Emma Dorris; Vice President, Elva Galloway; Secretary, Anna Roberts; Treasurer, Grace Matthews; Editor, Nellie Straight; Assistant Editor, Faunie Condon; Marshal, Ada Shar-

ples. One hundred years ago last Tuesday at 12 o'clock (noon) the people of the United States realized that they were an independent power, for on that day they inaugurated George Washington as the first President of these United States. In accordance with a national and a state proclamation, last Tuesday) was declared a holiday out of respect to the importance of the centennial birthday of our republic. On that day the University was closed and the students enjoyed an unexpected holiday.

The "Badgeites" are jubilant over the result of the Laurean election and with good cause. The opposition, to them, among the preparatory classes of the University appears to have no foundation. A class jealousy certainly would not be for the good of the society. That so large and able a class as the present junior one should carry off a large proportion of the honors is only natural, and we can see no good reason why one who has served the society many years should not have a better title to the Presidency, than any of those new members who are seeking to tear down the claims of others instead of dilligently preparing themselves for the office which will come to them when they are qualified for it.

The public rhetoricals last Friday were not so long as usual, and very pleasant.
The musical part of the programms consisted of a song by Miss Nellie Straight,
"Love's Eternity" by Rotoli; a solo by
Miss Kate Dorris, Tosti's Good bye, Sunmer, 'and a chorns by a number of students; Recitations by Oren Green, Frank Taylor, Wesley Mulligan, J. Widmer, Robt. Carey, Mollie Reed, John McClure, Frank Mulkey, May Dorris, Laurence Harris. Essays—
"Lane County," Martha Calef and Henry
Fisher. Shakespeare's Othello, Fannie
Condon; Story of Rob Roy, Mr. Bradey;
Shakespeare's Macbeth, Elva Galloway,
The Scenery of Lake County, Robt. Miller. Secramento Co., Ethel Bradford. An In-teresting Trip, F. Groner, Song Birds of Oregon, Clyde Patterson.

The Laurean column, last week, contained a very lengthy article about the corporation which we could not account for, unless there was a lack of news. Among other accusations we find the statement made that the former treasurer has not yet turned over the balance of money "simply because he hadn't been asked " We would say for persons so toen asket we would say for persons so gnorant on the subject as the writer of the article, that the balance has been in the possession of the present treasurer for at least four months. As to "the corporation silently feding from the minds of the members," we would suggest that all the members have been reminded of its existence when asked pay their dues. If the writer will attend the meeting of the corporation to-day (Saturday) and listen expeluily to the report of the committee who have registed on the contricellent quality. Larger drives will be made mmittee who have worked on tation, he will, we think, see that the Presi dent, who is chairman of the committee, has like his predecessor, who by the way was a Eutaxian, been working for the benefit of the ong-forgotten(?) but dear-to-all-its-men
