The Pension Fund Exhausted.

[Albany Argus, May 23.]

Less than a week ago attention was directed in these columns to the extravagant manner in which Commissioner of Pensions Tanner was scattering broadcast the money entrusted to his charge. Since his appointment Washington has swarmed with pension agents and "sharks," and these men have sent letters all through the country agreeing to secure a pension for almost any one on the payment of a fee of ten dollars or upwards.

The result of this course is found in the unlooked-for announcement from Washington that last week $11,380,000 was paid out for pensions, exhausting the entire appropriation of $81,750,000 for the fiscal year. It had been supposed that that amount would be ample to pay pensions up to June 30th, when the fiscal year expires, and the appropriation of about $82,000,000 for the next year becomes available. Commissioner Tanner, however, has exhausted the fund, and pensioners must wait for their money, while a big deficiency will be charged up against the department. The treasury department estimates that at the present rate of payments the bill for pensions for the year ending June 30th will reach $100,000,000.

Some days ago the Argus printed from the treasury reports the figures to show the rate at which the pension system has grown on the country since the close of the war. The exhaustion of the liberal pension fund for the year, six weeks before the end of the year, and the statement that Tanner wants $100,000,000, make these figures now especially pertinent. We give the annual appropriations for pensions and for all other purposes of government, except the debt, at periods of five years since the close of the war:

	Pensions	General purposes.
1865-66.....	$15,615,288	$374,821,010
1870-71.....	34,443,895	123,139,033
1875-76.....	38,257,396	136,600,417
1880-81.....	50,059,280	127,183,617
1885-86.....	63,404,864	124,273,486
1887-88.....	80,288,509	134,551,442

The money to pay these bills, of course, comes from the whole people, and it is submitted that Tanner's wastefulness and the greed of claim agents is arousing public sentiment against the pension system itself. It cannot be honestly possible that almost twenty-five years after the war ended the legitimate claims for pensions require three times as large an expenditure as was required at any year during President Grant's administration.

A Proposition to Establish Manufactories.

The meeting called for last Saturday evening at the Court House, to consider the subject of extending aid to parties who propose, if encouraged, to establish several manufacturing enterprises in Eugene, met and organized with J W Johnson as president, A C Woodcock and J A Straight, secretaries. The following proposition was submitted to the meeting:

To the citizens of Eugene and Lane county: We, the undersigned, propose and will locate and establish in, or near the city of Eugene, and have ready for operation for the present season, a potato starch factory, shingle mill and fruit dryer, which will necessitate an outlay of about $20,000, upon the following conditions, viz, if the people of Eugene will raise and pay to the undersigned a bonus of $5000 to be paid as follows: 25 per cent. when site is deeded for purposes set forth, 25 per cent. when shingle mill is ready to operate; 25 per cent. when fruit dryer is completed, and 25 per cent. when machinery is on the ground for the starch department. And we will further promise and agree that whenever a sufficient amount of fruit is produced in this vicinity to warrant the establishment of a canning factory, the same will be added to the aforesaid establishments. The locating of the above will necessitate the outlay of many thousands of dollars for produce and material, and give employment to a great many women and children in the factories, and to men on the farm and in the forest, all of which would add greatly to the growth and prosperity of both town and country. In the establishment of these industries it is our intention to complete the same and conduct them as their operation can be made profitable and remunerative. To these ends we most respectfully submit our offer to the business men of Eugene. Signed by Geo T Hall, Orlando Boomhower, E C Smith.

This proposition was discussed generally by those present: A committee was appointed to circulate a subscription paper as follows, I. Bilyeu, J A Straight, J M Hodson, A C Woodcock and S M Yoran.

Up to the time of going to press, Friday noon, no progress had been made by the committee.

Appointments.

WASHINGTON, May 25.—Under the terms of the last Indian appropriation act the Secretary of the Interior to-day appointed three commissioners to treat with the Coeur d'Alene Indians in Idaho for a reduction of their reservation. The commissioners selected were: Chairman, General Ben Simpson, late of Oregon, now of Selma, Ala.; Hon. John H. Shupe, of Oakland, Oregon; Capt. Napoleon B. Humphrey, Albany, Oregon. The pay is eight dollars per day and transportation

An Arkansas contemporary, in ridiculing the Oklahoma craze, points out that "there is three times as much land open for settlement in Arkansas as there was in the whole of Oklahoma, and the land is far more valuable." Still Arkansas is neglected by the class of young men who are constantly going west to take up farms. The young settler is prejudiced against any state that has a mixed population already on the ground. "If I go to Arkansas," he reasons, "I shall have to work like a slave. But if I stake my claim among people of my own race, I will work alongside white neighbors, and be equal to the best of them."
