Umatilla Reservation.

East Oregonian, June 7: J. P. Carrin, who is to complete the subdivision of the ten thousand acres of land added to the Umatilla reservation since the previous year, arrived in town yesterday morning, and has organized a party and begun work in the field.

It will take him some weeks to complete the work. An Inspector Douglas will be through with his labors in the field by the last of this week, and will then leave for Portland to make up his report, the chances for more delay in the opening of the reservation are good—too good in fact. The survey of the ten thousand acres must be examined, and another Inspector may be sent to make the examination. When the examination is finally completed, the report may become yellow with age before they get for more delay in the opening of the reservation are good—too good in fact.

Get THE MITTEN.—Two years ago last November a heifer calf belonging to James Brown near Constock swallowed a pair of woollen mittens. The calf grew to a milk cow and was apparently doing well until a short time ago. Mr. Brown noticed that she was not doing as well as usual. She seemed in much distress when she moved around, and had a great desire to lay down all the time. Finally she died, and Mr. Brown cut her open to see what was the matter with her. Upon examination it was found that a part of the other were found in a hard and petrified state. When knocked against each other they rattled like stones. They are really wonderful, and many are anxious to see them.—Drain Echo.

Engineering experts declare that the Johnson dam was unsafe, and that instead of using masonry, earth was substituted in many places. There is no doubt in the world that the horrible disaster was the result of carelessness, but the question is, what will be done about it? It can only serve as a terrible warning to those cities similarly situated.

Calvin S. Brice has been chosen chairman of the national Democratic committee to succeed W. H. Darnan, deceased.

Pleasant Hill Items.

June 13th, 1889. Mr. A. J. Horn and family of Pendleton are visiting friends here. Mrs. Hemphill was visiting at her brother's, Mr. Ingham's, the front of the week. Mr. G. W. Handaker and family visited friends at Dexter and this place on Sunday. Mr. Wilson of this place and Messrs. J. W. Gaitley and S. T. Handaker of Dexter are each engaged in hatching bees.

We learn that Mrs. Henry Walker, who has been in the asylum for two or three years, died in that institution last week. And now it is the ladies—God bless 'em—whom, securing the rights of tyrant man, as a lady book agent was here recently.

Mr. Rosen Hendricks says he made the trip from Eugene to this place on his bicycle last Sunday in 60 minutes—12 miles. On Sunday last, three young men from Douglas Co. passed here on a trip of discovery to Eastern Oregon. They seemed to belong to Walker's Train-Ride-and-Tie-Co.

The many friends of Mrs. Fowler who has been confined to her couch for more than six months, will be pleased to learn that her health has been much improved of late. The Chinese pheasants becoming quite plentiful and the male birds can be heard each evening and morning crowing in competition with our domestic birds; like the other fellow from China, they have beautiful (?) voices!

After spending a week with friends here Mrs. L. Manning with her three children went to Cottage Grove to visit her mother, Mrs. Shotwood. It is rumored that the same day that they went away, while playing around a lumber pile the lumber fell upon the children, injuring some of them quite severely.

THE RAILROAD COMMISSION.—The Salem Statesman of the 11th inst. says: There was quite an attende no. of spectators in supreme court yesterday afternoon, the occasion being the argument of the celebrated railroad commission in which a great deal of interest is centered. The case is a very important one, and a very exhaustive and able argument in favor of the appellant, Mr. Biggs, the Governor's appointee. Hon. Joseph Simon presented the opposite side in his usual forceful style, and was followed by Hon. P. H. Dacey, who closed the case in an eloquent and readable address for the appellant. The governor and his appointees have been given new hopes for their side by recent decisions of the Indiana supreme court, where it has been held that while the legislature had the power to create the office of such commissions, it had no power to appoint men to fill them.

The Smith Lumber Co. have just completed one of the best mills in Oregon, on the McKenzie river, five miles east of Eugene, two miles below the McKenzie bridge, on the Spencer farm. Why people will continue to suffer from day to day, constantly complaining to their friends of pain in the back and joints and every symptom of that terrible scourge, Bright's disease staring them in the face, is certainly a mystery, when they might be made strong, healthy and happy by using Oregon Kidney Tea. It has wonderful medicinal qualities and if given a fair trial, will prove a boon to those afflicted with disorders of the kidneys or urinary organs.

A lady who was afflicted with Salt Rheum on the face and other parts of the body for many years and who was treated by the best physicians on the Pacific Coast without any but temporary relief says, DuRoi's Specific has entirely cured me of my troublesome complaint and although I have not used the medicine for many months, I have had no return of the disease. I shall always feel grateful to you. Sold by druggists.

Independence, Oregon, December 13. Both myself and wife have been for some years afflicted with disease of the kidneys, and had tried many remedies without obtaining any permanent relief. About three months ago we were induced to try a package of Oregon Kidney Tea which has apparently entirely cured both of us, as since taking it we have felt no symptoms of the disease. We can heartily recommend it to others similarly afflicted as we believe it will do all that is claimed for it. M. L. WYATT.
