#### The Seattle Fire

J. McClandian has returned from a to the Sound country, where he went ha car load of horses. He was present tiful the Scattle fire and reports that if was a exciting affair. The fire commenced the water front in wooden buildings, there was a brisk wind blowing, hed along at a fearful speed. Brick at down almost as quickly as wooden assumed everything in reach. The fire de-timent was absolutely useless, and so agerly supplied with water and facilities. aghting fire, that they ceased their efforts the work of saving goods from the burn-buildings. Only one brick block was to buildings. Only one brick block was in the business part of town. The law m to which Henry McClure and L. H. heeler, formerly of Engene, belong, saved set of their library but lost about \$300 arth of office furniture. "Dick" Graham, tailor, lost \$8000, with \$1000 insurance, acks were paid from \$20 to \$50 an hour services to handling goods, and vehicles every description were services to be served. every description were employed to haul on to places of safety.
The Tacoma people were quickly on the

supply the destitute; tents and tables were ands with tons of provisions and bedding nkly supplied, and the wants of the ngry were relieved. The loss is estimated \$15,000,000, with something over \$2,000, insurance. The streets have been ed and straightened, men are clearing the debris, and Seattle will be rebuilt of ick far better than before the fire. Seventye thousand dollars in coin, besides provis-us, has been sent to the burned city. Few sidences were destroyed nces were destroyed.

The present proprietor, J. M. McCollum, will be succeeded by Ira O. Mills. Notice to Home Seekers.

Mr. Geo. II. Colter and L. J. Wilson give notice to the public at large that they have bought the town site of South Bend and have enlarged it to twice the size of the old survey, and changed the name to Glen-Ada

This place is situated on Sinslaw Bay, fine body of water, 6 miles long and half a mile wide. The water in the Bay is very deep. At the present time steamers and sailing vessels can land their cargoes at Glen-Ada without the aid of wharves at low Glen-Ada without the aid of wharves at low tide. Notwithstanding this natural advan-tage there is a wharf in construction and will be completed as fast as money and men can do it. The bar at low tide has got from 10 to 14 feet of water. There never has been a doilar appropriated by the Govern-ment or spent on this bar. The Govern-ment's old survey distinctly shows two ft, more water than Yaquins Bay which had several hundred thousand dollars expended on it by the Government, and all capt in on it by the Government, and all capt ins we have talked with having trading steamers and vessels now in operation entering both harbors, claim that they have more trouble entering the Yaquina than the Sius-law harbor where the bar is in its natural state, but thanks to our present far seeing and intelligent Senators, the United States Surveyors are ordered by Congress to make immediate survey of Sinslaw harbor and other bays, and we have every reason to believe that at the next Congress we will have an appropriation that will make us one of the finest harbors on the coast, as we have been at Siuslaw and ascertained those facts Now a few words about the natural surround-ings of this new Oklahoma now rapidly being settled. The river is navigable for twenty miles from Glenada up to head of tide, there is now a steamer making daily trips to head of tide and return, commanded by Captain Hurd, who is well qualified to look after necce-sary wants of the many people who are now flocking in to settle up this country. This river being one of the finest flowing into the Pacific has been settled on both sides for years as one can see by the appearance of fine orchards overhanging its banks and trees loaded with the most cions fruits Oregon produces and the finest peaches grown in any country. Strange to say there is plenty of government land in this fine section yet vacant which can be had by the coming settler without money or price. The timber accessible to the tributaries of this river are ineshaustible, mill-

ious of feet of fir, spruce, eedar and all other kind in good quantities.

The industry of this country is fast improving. We have two large sawmills run ning full blast and another under construc-tion, which will cut 50,000 feet of lumber daily, four large canneries and in fishing season the fishermen make from \$5 to \$25 a night. We must say a few words about the noble lot of settlers who have located here within the last twenty days, who are men the capital coming from the East and other countries and buying homes for themselves and families. Will give the names of a few: Mr. Levery, son and family, Mr. Turkington and family, Mr. Gilbert and family, Mr. Hash and son, Rev. Mr. Robinson and fam-ily, Mr. Biglow, Mr. Welter and many more whose names we do not know. state that lots in the new town are now on the market at a nominal sum rated from \$100 to \$650. Payments to be made as fol-lows: ½ down, ½ in 12 months, ½ in 2 years, and last payment 3 years. These years, and last psyment 3 years. These prices for lots lasting only three months as we will be laying out money improving the property and increasing its value. Come and secure for yourself the fluest home the Pacific afford. The best water in the United States, the finest climate in the world. OREGON SURVEYS .- A gentleman of Salem recently wrote to Congressman Hermann urging the necessity of an immediate survey of the government lands in the east-tn por-tion of the county, and asking him to present the matter to the department at Washington. Monday the following letter was received from Mr. Hermann in relation thereto: "I called upon the department and exceeding urged that a liberal allowance be made for Oregon from the recent appropriation for surveys of the public domain. The unsurveyed lands in Oregon now in demand for purposes of actual settlement, and for timber purchase, amount to at least two millions of acres, with another portion equally as large soon to be in demand. The rates, as prescribed in the legislation of the last session are liberal, and will insure contracts by competent surveyors of the most rugged portion which may be selected for

DIED .- Phillip Cantrell died at his dence seven miles west of Eugene Wednes-day morning, of disease engendered from old age, aged nearly 79 years. Dated June 6, 1889. H. H. Barrett. AN ESCAPED PRISONER .- J. C. Byers, the counterfeits confined in the county jail on a commitment from Cottage Grove, escapes from the jail last Saturday a little before soon. A deputy had gone to feed the pris oners, of whom there were two confined, and neglected to lock the door behind him when he went for their dinner. Byers opened the door and walked out but the other occupant who was serving a short sentence, refused to leave. He struck for the hills south of town and was at John Werk's place a short dis he got his breakfast. He endeavored to get a revolver from Weeks but was refused. Dep-

uties have been searching for him but since seen at Weeks' nothing concerning his whereabouts has been discovered. A Good Company .-- The Georgie Woodthorpe Dramatic Company has been playing at Rhinehart's theater this week. No pour talent is engaged by this company, and the parts are well carried and sustained. The actors are far above the average, and the different plays are put on the stage in excel-tent style. No lack of fun is had, while there are occasional scenes that stir the tenderer feelings of humanity. This Friday evening "M'iisa" will be physel; Saturday evening, "The Two Orphans."

SHOT BY HIS GIRL - Jack Kelsay, a form resident of Pleasant Hill, was shot by a young lady he had promised to marry at Silver Lake. Lake county a short time since the ball pass ing through his left arm. The girl asked him to keep his promise to marry her, and threat-ened to shoot him, if he did not. Kelsay handed her a revolver and told her to aboot. Imagine his surprise when she deliberately took aim and pulled the trigger, giving him a close call for life.

CRACKED .- The new fire bell recently pur-CACKED.—The new fire bell recently purchased and hung in the tower of the fire department developed a crack Saturday, and now its j-ngle is not at all metodious. The city had not yet paid for the bell, although it would have been safe if the money had been paid, as the bell was guaranteed for two years by the company that sold it. I: will be replaced by a new one. Cor. Coppland .- This gentleman lectured

at the M. E. church to a respectable and-ione-Thursday evening on the subject o' "Snobs and Snobbery." The Col. delivered some telling hits on prevalent fancies and enatoms. This, Friday evening, the sub-ject will be "Mistakes of Bob;" Saturday evening, "Future of the Republic." and hear him. Honr's Batca.—Bids for the construction of Hunt's brick building were opened Tuesday. The bids exclusive of furnishing the brick, which will be done by Mr. Hunt, were as follows: W. H. Fenton, \$2,543; W. H. Abrams, \$2,495; J. L. Edminston, \$2,427; L.

N Roney, \$2,315; John Midgley, \$2,310. SEDUCTION CARE. - Sheriff Sloan returned rom Prineville Tuesday evening with Schmutz the young man charged with seduc-tion. Mr. Sloan had the misfortune to have valuable borse die on his hands while on the trip. The trial was set for this Friday.
