Kamp Creek Killings.

June 27, 1880.

ere seems to be a fever for new wagons in this locality at present.

r. Will Pattison made a visit on the 4 last Friday; he also went to the picnic here, but not alone.

grand time is expected July 14th at the school house, in the way of a basket or and church services.

r. C. B. Linebaugh is erecting a large i on his farm. The structure adds wonully to the appearance of the place.

ost all of our good citizens were engaged raveling the road between the mouth of creek and the McKenzie bridge recently. it one and one-half miles have been eled.

r. Frank Campbell was afflicted last s with an abnormal development on one of his face, but by giving care to the facial received at home, his face was scou eed to its natural size.

is our opinion that a partnership comy are the proper agents to collect and mit items to the papers, but it should rmed so either partner could discharge duties in case the other was absent; then editor will not be without items as the later was last week when "U" went fish-

is lamentable in the extreme when a og man worries himself into a flushed d appearance over accompanying a young to a picnic, and makes all the necessary ngements in regard to conveyance, tunes ounge up to the key of "E," and gets of his gentleman friends to go with him interview the young lady, and then electric because she fails to discharge some duty in etiquette, he gives up the enire and returns home crestfallen and s as a mouse.
