### Give Them a Chance!

That is to say, your lungs: Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and cavities leading from them. When these are clogged and choked with matter which ought not to be there, your lungs cannot do their work. And what they do, they do not do well. Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and lung and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

What is it?

That produces that beautifully soft complexion and leaves no traces of its application or injurious effects? The answer, Wisdom's Lobsterine accomplishes all this, and is pronounced by ladies of taste and refinement to be the most delightful toilet article ever produced. Warranted harmless and matches. F. M. Wilkins, agent, Eugene City.

### ADVICE TO MOTHERS

Mrs. Winstlow's Soreness Syrup, for children teething, is the prescriptive of one of the best female nurses and physicians in the United States, and has been used for forty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhoea, griping in the bowels, and wind colic. By giving health to the child it rests the mother. Price 25c a bottle.

Take Notice.

### In Memoriam.

IRVING, June 22, 1889.

Ed. GUARD:—The following resolutions were adopted to-day by the Lane County Poems Grange:

Whereas, It has pleased our Divine Master to call from our ranks, to the life beyond, our worthy assistant steward; therefore, be it Resolved, That in the death of Brother Millard Plint our hearts are made sad, but there is hoping in the bitter cup. God takes away from us those we love into the mystery eternal life, who look forward to a reunion in another world, there to be healed by the leaves of the tree of life.

Resolved, That in his death this Grange has lost an active member, the community a good man, the family a loving and obedient son and kind brother, and his name and memory shall be honored by the blessing of a life of joy through the ceaseless ages of eternity.

Resolved, That a copy of these resolutions be furnished the county papers and Herald-Democrat for publication; also a copy sent the bereaved family.

Mr. A. C. SKINNER, } Committee.

The steamer Rio de Janeiro arrived at San Francisco June 30 from Hongkong and Yokohama. One of the most destructive rain storms in the history of Hongkong occurred May 29 and 30. The total rainfall for thirty-three hours was 29 1/2 inches, at times the fall measuring nearly three inches per hour. Hongkong papers do not venture to estimate the loss to private property, such as residences, stores, etc., but place the estimated loss to public property at about \$200,000. Fifteen lives in all were known to have been lost when the steamer sailed for America.

Davis, the tailor, has just received a large stock of imported and domestic goods of the latest Spring and Summer styles. Call and examine his stock.

## Beauty

Is desired and admired by all. Among the things which may best be done to enhance personal beauty is the daily use of Ayer's Hair Vigor. No matter what the color of the hair, this preparation gives it a lustre and pliancy that adds greatly to its charm. Should the hair be thin, harsh, dry, or turning gray, Ayer's Hair Vigor will restore the color, bring out a new growth, and render the old soft and shiny. For keeping the scalp clean, cool, and healthy, there is no better preparation in the market.

"I am free to confess that a trial of Ayer's Hair Vigor has convinced me that it is a genuine article. Its use has not only caused the hair of my wife and daughter to be

### Abundant and Glossy,

but it has given my rather stunted mustache a respectable length and appearance."—R. Britton, Oakland, Ohio.

"My hair was coming out (without my assistance from my wife, either) I tried Ayer's Hair Vigor, using only one bottle, and I now have as fine a head of hair as any one could wish for."—R. T. Schmittou, Dickson, Tenn.

"I have used Ayer's Hair Vigor in my family for a number of years, and regard it as the best hair preparation I know of. It keeps the scalp clean, the hair soft and lively, and preserves the original color. My wife has used it a long time with most satisfactory results."—Benjamin M. Johnson, M. D., Thomas Hill, Mo.

"My hair was becoming harsh and dry, but after using half a bottle of Ayer's Hair Vigor it grew black and glossy. I cannot express the joy and gratitude I feel."—Mabel C. Hardy, Delavan, Ill.

### The Lost Cabin.

FORT KLAMATH, Or., June 28th.—On Aug. 4, 1886, Charles Eugene Burns and Nathan Tubbard left Linkville, Or., on a prospecting tour to find the Lost Cabin in the mountains, which has been one of the traditions of this section for years. Tubbard was an old prospector and had hunted many times in past years for the treasure, but had never located it. When leaving Linkville they were furnished with animals and other necessities for their trip by Newton Gordon and others, who were to share in their find. They never returned, and many theories have been advanced by their friends as to their fate, but on the 19th inst. a man named John Irvine, who had been grazing cattle in the vicinity of Diamond Lake, some fifty miles north of this place, and in a lonely mountain fastness, found their camp and remains, together with an old shot gun, a rifle, pack saddle, cooking utensils, miners' pick and glass, and other articles. On their persons was found a diary of events on the trip, which stated they had started from Linkville on the date named and camped at several places enroute to the mountains. These notes are now very indistinct from being weather beaten for nearly three years. They were deciphered down to August 21, 1886, on which date the following appears: "Came near drowning in the Umpanna river."

From this date there is nothing distinct enough to decipher, but there have been later dates completed. A postal card never mailed was addressed to Mrs. A. V. Burns, Santa Cruz, Cal. The lady it is learned is the mother of the man Burns, and has been seeking information concerning his fate for the past two or more years.

Inquiry reveals the fact that Tubbard was a colored barber, while Burns had been engaged in various occupations in Linkville. A rubber stamp was found on one of the bodies, printing the name of Nathan Tubbard, Jacksonville, Or.

The case is shrouded in mystery. It is learned that when leaving Linkville besides the guns found Burns had an old Colt revolver. This could not be found. No provisions were found, neither were their saddles or money, except 60 cents in money, which was known to be in two men, together with a silver watch. Two razors, soap, towels and other toilet articles were found. The skeletons, for such they were, were found near together, wrapped in their blankets and clothes, but their bodies had been disturbed, and the last intimation Mr. Irvine had of their presence was the finding of a skull belonging to Tubbard's remains.

There was no evidence of a struggle of any kind, and the notes in the diary give no evidence of the cause of death. The guns stood against a tree near by and were weather beaten and rusty. There was also some ammunition found. They were evidently starved to death in a country where game is so abundant. It is generally thought they died from eating poisonous berries or roots or were murdered. The coroner of Douglas county has been notified, as have also the relatives of young Burns. The case will, in all probability, be carefully investigated.

Welcome! A great rush is being made all over the coast to get hold of timber lands. A Michigan man now here asserts that there are innumerable quarter sections yet to be located on our coast, which in ten years from now will be a comfortable fortune to their holders. He asserts that what is now timber of Michigan will in twenty years be realized here—timber worth \$10 per thousand in the standing tree. The moral of all this is get yourself a quarter section and hold on to it for twenty years.

Let us give the readers of the GUARD a little timely advice. Wet weather is coming, and with it colic, cholera morbus, dysentery and diarrhoea. The only safe way to combat these diseases is to keep some reliable remedy at hand, and all who have tried Chamberlain's Colic, Cholera and Diarrhoea Remedy will admit that it is the most prompt, reliable and successful medicine known for these complaints. It costs but 25 or 50 cents, and may be the means of saving you or your family much suffering, if not life itself, before the summer is over. For sale by Osburn & Co.

There is nothing uncertain about the effects of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The fact is, it is the only preparation in the market that can always be depended upon, and that is pleasant and safe to take. 25 and 50 cent bottles for sale by Osburn & Co.

The Walker, Iowa, News says: "Our old friend, Robert Baird, of Muscatine, Iowa, has been secretary of the state senate, and an active politician for years, but was never generally known until he had the colic and used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and got into one of their advertisements. Now he is famous." Here is what Mr. Baird said: "While in Des Moines I was taken with a severe attack of bowel complaint. For two days I suffered intensely, trying several drug stores and paying them for relief, but in vain. I finally bought a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and two doses of that brought me out all right. It costs less than the drug store preparations, and I have the balance for future use. I consider it a grand remedy." 25 and 50 cent bottles for sale by Osburn & Co.

Money to loan on farms. Enquire of Judge Walton.

### Lakes, Moistures and Winters.

Lakeview Examiner.

The Oregonian concludes that the drying up of the lakes of southern Oregon is caused by cultivation, cutting of forests and tramping of the surface by stock. We think these causes may be secondary, but the primary cause is four very dry seasons. Each succeeding year, the precipitation has been much lighter. It is estimated by many old settlers, that the time was when tramps crossed on dry land opposite Willow Ranch, which is now near the middle of Goose Lake, north and south, one thing is sure that there was at one time much less water, and probably no lake at all where Goose Lake now lies. You can take a boat and follow a line south of the "Goose Neck," and find a regular d-shaped channel of a creek while old willow stumps can be plainly seen beneath the water.

The same old settlers tell us that they expect the lake to fill up again, and that they believe one smart winter will supply plenty of moisture, to cause Goose Lake and Warner lakes to be as large as ever known.

There is another thing certain, and that is, if the next winter is not a "hard" one (a large amount of snow and rain must fall) this section of country will be N. G. until such a winter does come. Such a winter will be our only salvation, and on the other hand will seriously cripple individuals financially, and of course at the same time will affect the finances of the country. A "hard winter" in Lake county, does not particularly mean a long, cold winter; but signifies a large amount of snow, which lies on the ground from November 1st to May 1st, and a great loss of stock thereby.

### Chicken Thief Caught.

Ashland hasn't much the appearance of a backwoods town, says the Ashland Tidings, but the simple announcement that a panther was killed in the town one morning recently might lead a stranger to suppose that the place is a mere hamlet in an Oregon jungle. It is true, however, that a panther was shot Monday morning by Mr. J. A. Hable, at his place, about three-quarters of a mile from the business center of town, and within the city limits. About a week ago Mr. Geo. Crasnow saw the panther come out in broad daylight and grab a big rooster in Mr. Hable's yard. He had an axe in his hand and made a rush at the panther. The bear dropped the chicken and ran. Once or twice it has been back after a chicken dinner, and Monday morning Mr. Crasnow saw the bear and waited for its visit. About 5 o'clock it came bounding into the yard and jumped for a chicken, though Mr. R. sat in the back door of his house in full sight. He fired his rifle and made a dead shot, and now has the hide on his fence. The panther was a female, and measured 5 feet from the tip to tip. There are others in the mountains near, as the tracks show.

The ease with which pension frauds are committed, under circumstances that favor a swindle, can be seen by a case unearthed recently. The widow of an Andersonville victim got a pension of \$36 a month in 1873, she married again and died in 1874. Her man, oak her papers and married a woman who was made to perjure her until he died in 1877. She took up with another man, who learned the story and made her continue the swindle against her will. When they separated in 1888 she ceased drawing the pension, and an investigation revealed these facts. Since 1873, for fifteen years, a fraudulent pension has been paid, amounting to \$6,480.

"I escaped but lost my clothes," I was not very presentable, but my wife thought I could explain afterward. I had gone home and was taking a bath, I was in the tub when she called me that the door was coming, and so frightened was she that I jumped out, realized the situation in a moment and with only the bath towel for a covering I started for the hills with her. We escaped, but my clothes went with the house and all I possessed under the river. It was somewhat awkward but I guess my wife was right. I can apologize to her but do it for me. They'll believe her, perhaps, even if they wouldn't believe me."—Johnston's Letter.

A CURIOUS DEATH.—Among the curious deaths that have happened in the state is that of a laborer, Frank Friel, while working for a logging claim for the Excelsior Redwood company, on the Freshwater river in Clatsop Co., was instantly killed a few days ago in a very singular manner. He was on top of a large redwood log engaged in splitting it with wedges, when it suddenly and unexpectedly opened, letting him fall in between the two halves, one of which split in the middle, the upper part falling on him and crushing him to death.

The government work on the reveitment above Corvallis is finished and the men discharged who have been at work on it. It is believed that the tendency of the river to cut its way through at any way will be effectually checked by the work. The pile driver is now engaged driving piles in the river opposite here for Mr. Friendly's boom.—Leader.

Unsurrendered lands up on the Santiam east of Mehama are being taken and held by "squatters" almost every day. There are some most desirable claims in that region, and the parties who are holding them hope to be able to have the government made surveys on. In this they will no doubt succeed as soon as a majority of the lands are settled upon.

## ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Beware of cheap imitations.
