Servant—Oh, every bit as well, Ma'am.

Lady of the House—I am expecting a friend to take dinner with us next week, on purpose is show her how hice our stove cooks everything, and I want you to have a nice dinner for us.

Entrant — indeed I will, Ma'am. There's no trouble to cook nice with that stove. The indet have so much more time to make everything just right. Just look at that roll! I never have bad back with bread, biscuits or cake, now.

Lady of the House—Why, how do you explain it?

Servant—Well, I don't have to watch everything so close for fear it will burn. You know now careful you have to be with a take d custard, it is so apt to burn on top before it is baked through. The Charter Oak bakes it perfectly without any danger of burning. And then in roasting a tarkey, I don't have to keep basting it every five minutes. It roasts beautifully brown without it, and without drying it up like the light overs do. And you know how crisp the biscalls are without being hard and tough. Over always praised my bisenits, but if it wasn't for the using garace over duer I know they wouldn't be near as nice. I hope I'll never have to cook anywhere again where they haven't got a Charter Oak Stove office. arspecial attention given to Collections and Probate business.
