Take no other.

Bernuda finds a ready market in

the United States and Canada for all the regetables she can grow, including potatoes and tomatoes. The total civilian population of the island is 15,584, of which 9,379 are colored persons.

-In a year London folks swallow down 500,000 oxen. 2,000,000 sheep, 200,-000 calves, 200,000 swine, 8,000,000 head of fowls. 500,000,000 pounds of fish, 500,-600,000 oysters, 200,000,000 lobsters-is that enough to figure on?

-The German naval authorities are said to have been making experiments lately with a torpedo boat built of compressed paper. The vessel is eleven feet long, and was found to show great grength and more elasticity when rammed by another boat.

-The number of field officers in the Japanese army is 3,685, including 1 Genstal, 12 Lieutenant-Generals, 18 Major-Generals, 69 Colonels, 62 Lieutenant-Colonels, 295 Colonel-Majors, 1,034 Captains, 1,189 Hirst-class sub-Captains and 1,005 second-class sub-Captains. The number of non-commissioned officers and file is 214,204.

-An enormous fish, about twelve feet in length, was found by some fishermen at Bruse, a village on the French coast. The animal was dead, but, being considared still fit for human food, was taken to the shore. When opened the people she had crowded to the beach ware amazed at the sight of a man's body and legs, the feet only being missing.

-Irrigation is conducted on a large scale in Japan, and dates from long before the Christian era. The irrigation works are massive and costly, and from a distance look like double track railways. These are the large reservoirs and main ditches, besides which mountin streams are utilized in the usual manner.

-European countries are consuming large quantities of horse flesh and the mantity is increasing as a cheaper meat for the poorer classes in cities. In France the horse butchers have their signs out, which they are compeled by law to have, to designate their shop and meat hom the other shops, that sell beef, mutton and pork.

-A stamp-collector, ninety years of gs named Foster, who lives in Leipsic, has used up 85,000 stamps from all parts of the world, which it took him eight pars to collect, in arranging them in ach a way that they represent portraits f Emperors William and Frederick, Bismarek, King Albert, Pope Leo XIII., ad Germania guarding the Rhine. The portraits are said to be excelent likesesses, and are now exhibited in LeipDRY PLATES FOR RED MEN.

#### Evolution in Indian Dress-A Funny Story of Chief Bushyhead.

"Indians who visit Washington almost pair of pantaloons-always the first white man's garment adopted by the Indian. cluding beads, feathers, etc., until, as is shown in the third photograph, it occurs to him to add a waistcoat and biled' shirt. The feathers and beads disappear

at this stage, and Mr. Lo goes about in his shirt sleeves, feeling very enlightened for some time before the coat is put on Then, as you see in the fourth picture, collar and cuffs at a silk hat are assumed, and Mr. Lo sprouts out very likely into a regular howling swell on the Piccadilly rn. An Indian Aude is a sight for men and gods."

"All the portraits in this series seem to be of the same man."

"Yes, that is Chief Sorrowful Ghost, of the Crows, who are the most elaborately dressed of all Indians in their native attire. The pictures were taken of him at different periods. By the way, Chief Bushyhead, of the Cherokee nation, was here a while ago, and seeing him crossing the lobby at Willard's I asked a friend who was with me, named ain was estimated at \$45,000,000,000; of Van Wyck, if he would like to be introduced.

" 'Why,' said Van Wyck, astonished, 'you don't mean to say that handsomely dressed and distinguished looking man over there is an Indian?" " 'Decidedly, yes,' I replied. 'Here he

comes now. Mr. Bushyhead, let me introduce my friend, Mr. Van Wyck.'

" 'Happy to meet you, Mr. Van Wyck, " 'Charmed to have the privilege of knowing you, Mr. Bushyhead. And really-I hope you'll excuse the remark -you are quite-er-civilized, aren't

" I trust so,' blandly responded the chief, ex-governor of Indian territory and one of the very rich men of that enlightened and prosperous region.

" 'And are all the Indians of your tribe as civilized as yourself? asked Van Wyck.

" 'Oh, yea,' " 'Do you all live in tents and wigwams?

"'Certainly. Here is a picture of my own wigwam.

"And the lief drew from the inside pocket of his coat a photograph of a beautiful Queen Anne cottage, which could not have cost less than \$35,000. " 'This is my summer wigwam,' said Bushyhead with grave affability, 'I

have another for winter in town." "Van Wyck, who had disregarded the nudges I gave him while he was putting his questions, 'turobled' at last. I under

stand that he has been kicking himself ever since."-Washington Star. "Tie Your Necktie, Sir?" Some genius discovered that when men reach the theatre and remove their topcoats their neckties do not present that geometrical nicety of position that all well regulated neckties ought. Even If the wearer be conscious-which is seldom-that his tie is not as it should be,

cial situation of any in the world. The commercial imports and exports of America, about \$1,500,000,000 per annum, do not come up to those of England -\$3, 000,000,000 - but they nearly equal those of France and Germany. The merchant marine of the Republic ranks next to that of England. The United States possess the most extensive telegraph system in the world, and the American postal-service exceeds all others in its derelopment, There are 57,376 post-offlees in the United States, and over 240,000 miles of postal route: while the nearest approach to this are the 15,583 post-offices of Germany, which has 51,000 miles of

postal routes. Last year more than 3,576,000,000 letters and printed documents of all kinds were sent by American post-offlees, costing \$56,000,000 for the postal operations. Such prosperity

may be easily explained by the fact of the great areas of the country, which are so fitted to receive a dense population; and by the consideration that so many of the American colonists are re cruited from the most enterprising and courageous of Europeans. Another fac tor is the lesser military budget which the United States is required to support, and the few men kept from the pursuits

ot peace in the maximum of their strongth. The severe military systems of the Old World, which force innumerable immigrants to leave, are not neces-

sury here, for we have not, like Eurocan nations, had race struggles to es tablish ourselves in new territories. Peace has brought us prosperity, and let us hope that our continued prosperity will continue to bring us peace .--Demorest Monthly,

it is awkward to pose the mirror, if there be one, and get red in the face in a fruitless struggle to rearrange the biassed tie. The genius aforesaid has got on to all this. Being a genius, to

capture an idea was to act upon it. He sought and obtained a position as usher in one of the theatres. Then he began business. The first man whose necktie looked as if it were in search of his occipital bone, and who looked healthy enough not to be startled by the strangeness of the request, was approached.

"Tie your necktie, sir?" "What?" "Tie your necktie, sir? It has become

disarranged." "Has it? Well, go ahead." The tie was neatly adjusted, a quarter dropped in the hand of the tyer, and they come after the maid-of-honor and this began what is now quite a remune rative addition to the theatre usher's duties.

Of course the genius had imitators. All geniuses have.

You can have your necktie perpendicularly adjusted now not only at the tions. The pay is optional, and runs the generosity of the customer or the

#### Perforated Saws.

Perforated blades for band and circular saws are just now attracting attention in Germany, and are apparently giving general satisfaction. Blades of this character are not entire novelties, but have been known in modified forms for some years, says The American Machinist. As a general thing, however, their use has been much decried. Still they appear to have some advantages worth considering, and many claims of superiority are made for them. Among them is that of reduced blade friction, due to reduced area of rubbing surface; less tendency to heat, because of the circulation of air through the holes, and economy in power The holes further prevent the dangerous extension of cracks in saw blades, and in general make it a comparatively easy matter to keep the saws

### THE SAILOR'S DARING.

"Man overboard! Stand by to lower away the boats!" With what alherity every man on board springs to his post at the dread ery, knowing a fellow creature's life is at stake! Yet that life is in no more dan-ger than that of the man or woman who trifles with what may seem "a simple blood disorder," but which in reality is fast sow-ing the seeds of a fatal disease, when the early use of Dr. Pierce's Goldan Medical Discovery would cleanse the blood, restore impaired digestica, tone up the vital organs and ward off consumption. It should take the place in the family corresponding to that orcupied by the life preserver on ahipboard. If taken in time, and given a fair trial, "Golden Medical Discovery" is guaran-teed to cure. This it will do if taken in the earlier stages of consumption, but after a large part of the lungs have broken down, no medicine can stay its fatal progress. "Man overboard ! Stand by to lower no medicine can stay its fatal progress. How important then that the earliest premonitory symptoms be heeded ! Short breath, spitting of blood, occasional chilly

sensations creeping up the spinal column, hacking cough, variable or poor appetite, feeble digestion, with gradual loss of flesh, cold feet, lassitude or general debility, should admonish one that all is not right. You can't afford to fool away precious time if suffering from any considerable number of the above significant symptoms of approaching danger? It's madness to of approaching danger! It's madness to trifle and experiment with uncertain means of relief and cure when thus afflicted! Don't of relief and cure when thus afflicted! Don't forget, at such a critical time, that the only medicine possessed of such positive curative properties as to warrant its manufacturers in selling it, through druggists, under a positive guarantee of its benefiting or curing is energy case, is the world-famod "Goldan Medical Discovery." For all Bron-chial, Throat and Lung Affections, Wesk Lungs, and kindred aliments, it is an une-quiled remely. For a Complete Treatise on Blood and Skin Diseases, or for one on Bronchial, Throat and Lung Diseases, enclose ton cents, in stamps, state which book you want and address, WonLD's Disgrensary Minnear Association, 665 Main St., Buffalo, N.Y.
