

SUPPLEMENT.

Crop Weather Bulletin No. 7

Of the Oregon Weather Bureau, co-operating with U. S. Signal Service, Central office, Portland, Oregon, for the week ending Saturday, April 26th, 1890.

The temperature has been slightly above the normal for the week. There was no rainfall. The days were bright, with warm sunshine, which was about the average. The nights were cool, light frost, which did no apparent damage, occurred on the 23d. This has been the first week of good growing spring weather, this season, and the result is that vegetation has made marked progress.

CEREALS.

Winter wheat is invariably reported to be in excellent condition. Spring seeding in Umatilla County, and in sections of the valley counties is done, but most of it is about being finished up. Showers are desired in the Walla Walla valley to give the late spring sown grain a start. The effect of too much rain on wheat on lowlands is injurious in the Willamette valley. Larger spring acreages than usual is and has been sown.

All varieties of fruit trees in all parts of the state, save in the more mountainous sections of Eastern Oregon, are in full bloom, and in many sections, the peach and cherry blossoms are falling. The frost on the 23d did not injure the fruit. Wild strawberries are in bloom. Grape vines are budding out rapidly. In Wasco, Sherman, Morrow, Gilliam, back from the river, and counties to the south, the apple and cherry trees are budding. The present outlook is that peaches will be a short crop, but the other fruit will be plentiful.

Spring seeding is being finished. The weather is favorable for the lambing season. Sheep shearing will begin within the next 10 days. The grass is growing very rapidly affording good grazing. Vegetables are becoming very plentiful, and gardening is generally being very rapidly pushed. The grass is growing very rapidly affording good grazing. The weather for the week has been all that could be desired and all growing vegetation shows the favorable changes. The season continue about two weeks later than usual. B. S. PAGE, Observer, U. S. Signal Service, Asst. Director.

NOTICE.

TO THE SHEEP GROWERS OF LANE Co. I will say that I am daily receiving notices regarding scabby sheep. I am therefore compelled to announce to the sheep men that immediate attention must be given to those diseased bands of sheep at least three times this season, or I will procure aid at your expense, and attend to the matter for you. Take fair warning and save yourselves trouble and money.
