

SUPPLEMENT.

Crop Weather Bulletin No. 9.

Of the Oregon Weather Bureau, Co-operating with U. S. Signal Service, Central Office, Portland, Oregon, for week ending May 10th, 1890:

Weather—The high temperature of the previous two weeks continued up to Wednesday of this week, when it fell being more near the normal; the temperature fell to near the frost point, but owing to the cloudy weather no frosts are reported to have occurred. During the week rain fell in all sections of the state, being very copious except in the Willamette valley. Nearly two inches fell in Jackson county, an inch in Douglas and Josephine, generally less than one-quarter of an inch in the Willamette valley, and in Eastern Oregon from .10 to nearly .75 of an inch. Rain has been needed, and more would prove beneficial; present indications are for more rain. The amount of sunshine has been above the average. Thunder storms were experienced in southern and eastern Oregon on the 2, 3, 4, 5, 6 and 7 instants.

Crops—The weather conditions have been very beneficial to crops of all kinds. Spring sown wheat especially needed rain and in those districts where it was most needed it fell unusual as it may appear, in the Willamette valley the soil is very dry and in sections hard. While all crops are growing yet good, general rain would prove to be very beneficial. The sub-soil is generally very moist yet, but smaller seeds, spring sown grain and the like need surface moisture. The cooler, cloudy weather that had prevailed the latter few days has proved very beneficial. Grasses are heading out in sections; alfalfa has a good stand. The grass is generally reported to be in good condition. Crops are growing finely and rain is needed, is reported from all sections. On the 8th general rain prevailed in Eastern Oregon which will tend to lessen the possible injurious effects of the warm, dry weather.

The warm weather has rapidly melted the snows in the mountains; all streams in Oregon are rising but no danger is apprehended. The Willamette river at Portland, has risen six feet during the week and the current is swift. The Powder, Grande Ronde, Umatilla, Umpqua and Rogue rivers are rising. The Columbia has risen and is now on a slow steady rise.

For Sale or Trade.

Two good farms of 160 acres each, both deeded land; one is a hay ranch, can cut 126 tons of wild hay on it. The other is farming land, mostly in cultivation, has a good house and barn and a young orchard on it. There is a stream of good running water on both places, and good outside range for any kind of stock. A good school house three-quarters of a mile from one place and two miles from the other. I will trade both places for a good farm in Lane county, a reasonable distance of Eugene. Any one wishing to trade will address

REMOVAL.

Barker Gun Works,

Have removed into the

Masonic Temple,

Next door to Littlefield & Haskell's Hardware Store, and will in 60 days remove again into the brick building on Ninth street being erected by Robert Pratt. As the room in the MASONIC TEMPLE is altogether too small I will continue to slaughter goods, to reduce stock. Out of the 30 Baby Carriages I had, I still have Eight left, which I will sacrifice. Be sure to come and see them before you buy. I will sell you Boys' Wagons, if you want any, if the price and quality has anything to do with it.

I will also offer special inducements on Sewing Machines. Remember the place. It is in the MASONIC TEMPLE.

Also, will sell 38 cal. double action Revolvers, central fire, using Smith & Wesson's cartridges, at the remarkable price of \$3, full nickel plated.

And an endless variety of Butcher and Bread Knives, at cost, to close them out. Remember their are several lines that I will not keep in stock any more. I invite everybody to come and see. This is a bona fide sale, and will last until the goods are closed out, so the earlier you come, the better stock you have to select from.
