To Voters.

The election of state and county officers will take place a week from next Monday. Every voter should go to the polls and cast his vote, as only by a full and free expression of the people can our form of government be maintained.

The McKinley Bill.

The McKinley bill to prevent the farmers of the United States from exporting \$600,000,000 worth of their produce, has passed the House. Another trouble for the bill would be, "An act to protect manufacturers in New England." The petition of nearly a thousand of the leading manufacturing establishments of New England was treated with utter contempt.

It raises all the burdensome agricultural duties. Wheat must now pay a duty of twenty-five cents. This country imports yearly nearly two thousand bushels of seed wheat, and exports on an average 100,000 bushels. In Liverpool wheat sells for a dollar a bushel; in Lane county less sackage and warehouse charges for fifty cents. The bill, according to a Republican representative from Minnesota, aids the farmer, by giving the binding twins trust 700 per cent. protection.

The duty is raised on hops. From September 1, 1890, to April 30, 1891, 102 bales of hops were imported into the United States, nearly 10,000 lbs. The produce of probably 5 acres; in the same time we exported 27,533 bales of hops, 6,000,000 lbs. Ten times more hops were exported from Eugene to London direct than were imported into the whole United States. The sure result of the McKinley bill will be to shut our hops out of foreign markets.

The duty on lumber is cut one-half. Instead of importing lumber this coast exports lumber to Europe, Asia, Africa and Australia. Duty or no duty the industry will become a leading one on this coast. In no country in the world is agricultural produce cheaper than in the United States, and in a century its price will be the lowest it has been. New England's farms are deserted, and mortgages to the extent of \$3,000,000,000 are hanging over the farms of the United States. They have had protection of the Republican kind for thirty years, and now the highest Republican authorities admit the agricultural depression and make golden promises for the future.

Portland Examiner: Speaking of the coming election, it may be stated that there are but few Republicans but who acknowledge that a sack is to be used election day to buy votes. They are to buy their men in. They cannot elect the ticket honestly, so they are to succeed by means of fraud and bribery. They admit that by this means they have succeeded for years. Truly this is a disgraceful state of affairs. An acknowledgment that the Democracy would rule were elections here honestly carried on. We would have, in other words, good government by honest people.

Chas. Nickell was nominated for State Senator by the Jackson county Democracy. He is an active, energetic man of business with practical ideas. Nothing would be left undone by him that would advance the material interests of Jackson county. From a personal acquaintance with Mr. Nickell we candidly say that he should not only receive his party vote, but the suffrage of many who are opposed to his political views. Live, energetic men are needed in the legislature and Mr. Nickell fills the bill.

A gentleman of Eugene who was formerly a Republican, but changed of late years, gives his reasons for the change. He says the two parties have reversed positions in the last twenty-five years. Then the Democrats wanted the negroes to do the work. Now the Republicans wish to make negroes of the people to do the work for tariff protected monopolies and trusts. Then it was black slaves; now both white and black are sought to be made slaves alike.

We do not deem it necessary to make fulsome, flattering mention of the candidates on the Democratic county ticket. Their standing is well known, and the people, we believe, are capable of correctly judging their merits and qualifications. The candidates placed before the people by the Democratic county convention are every way fitted for the duties of their respective positions.

Few reasons can be urged why D. P. Thompson should be elected governor of Oregon. The Salem Statesman however has evolved a brilliant thought. It claims that if elected Thompson would name to Salem and would build a fine residence. The Statesman will find that the people of Oregon will save Thompson any trouble about building in Salem.

An Irving friend advises us of the benefit he has had of the Oregon railroad commission law. A package from Kansas City, Mo., to Sacramento, Cal., cost him 75 cents, from the latter place to Eugene \$2.50. A few more railroad commissions might make it impossible to ship freight.

Consistency.

The Register of Wednesday publishes these paragraphs: "The Democratic papers can not rake up anything against Hon. D. P. Thompson except that he is a banker. They call him a millionaire, but he never had a million dollars worth of property, and what he has he made honestly. He does not work his men ten hours a day either. He is just the right man for the head of the state government."

"Of course Hon. D. P. Thompson voted for the Hull bill. He was then representing Multnomah county and not the state. The bill was calculated to benefit Portland, and it was the duty of any Portland representative to support it. Portland is not looking out for the interests of Lane county."

Yeatch was "looking out for the interests of Lane county." He voted against the bill and sustained Governor Penney's veto. It is peculiar that Mr. Yeatch should come to the defense of Thompson in his paper, after declaring on his canvass that he was in favor of the Australian ballot system and that it was the business of nobody who voted for governor. Mr. Thompson voted, without an intermission, for the Portland water bill, that would if passed, saddle several millions of dollars of non-taxable bonds on the state. The Register says "He is just the right man for the head of the state government." Mr. Yeatch will have a chance, Monday, at Spencer precinct to inform the voters regarding his support of Mr. Thompson.

Party Lines not Drawn.

Portland Examiner, May 19. On Saturday evening last Governor Penney and G. W. Webb addressed the citizens of Washington county at the court house in Hillsboro. The building was full to overflowing, over two hundred failed to gain admittance. The Governor brought forth many new ideas not touched upon in his other speeches, and by his frank and manly manner, won many Republicans to his cause, who openly proclaimed their preference for him as one of their choice. Colonel Cornelius, who was defeated by Penney last election, is reported to have said, "That both Penney and Thompson defeated him last election, and now as between the two, he favored the man who fought him openly, and was his opponent from principle, and he would therefore give his suffrage to Penney." One of the representatives from that county spoke in like manner, but we forgot the name. Our informant stated that there is no politics in the gubernatorial race in Washington county; that the only difference is which party will give the most votes to Penney.

The People's Man.

The Cottage Grove Leader, an independent paper published at the home of Mr. Yeatch has this to say concerning him: "R. M. Yeatch, our highly respected and worthy candidate for the office of State Senator on the Democratic ticket, of Lane county, is one of the best men in this county for that office. Mr. Yeatch has already served eight successive years, being two terms, four years in the senate and four in the house. He has made a living by hard work, and worked himself up until he is now one of the most substantial and popular men of the county. No more capable and trustworthy man can be found in either party than Mr. Yeatch. He is a candidate for the office of State Senator, and we think for the best interest of the people, if elected. This is something the people should consider very carefully. Cast your vote for the man and not for the party."

Energetic and has Brains.

The Florence West compliments Mr. E. P. Coleman as follows: "We believe it the duty of every newspaper to inform the people as to the character of those who are asking for political preferment, if such information can be given from personal knowledge, and not leave these men's characters to the tender mercies of political romances on the stump. One who comes under the above head is Frank P. Coleman, Democratic nominee for the legislature for Lane county. We know him to be a man of unblemished character. He stands far out upon the road of progress, and the spirit of the present age—the energetic, onward, upward age—finds in his forehead the full force of the explanation of the tender motto that the booklet was running from Mr. Lupus to Miss Agnusa—Sunday Welcome."

At a time when D. P. Thompson's scalp contained fewer gray hairs, a friend met him in Milwaukee. "Hello, Dave, where are you going here?" "Oh, I'm living here," said Dave pleasantly. "Where is your family?" "They are boarding," was the reply. The fact of the matter was that Mr. Thompson was temporarily residing in Milwaukee to escape some men in Oregon City. He was then dodging his taxes as he is dodging them now.—Oregon City Courier.

Portland Examiner, May 17: John Meyers, who has just returned from Washington and Yamhill counties, says it looks in those counties as if Penney was running on both tickets.

The election returns from Lane county will show the same here. The question of politics has almost dropped out of the race for governor. It is now a light question, as to which of the old parties will give the largest vote for Penney. As the day for election draws near the Penney men are increasing rapidly and if the recruits to Penney from Thompson continue at the present rate there will be very few men left in the Thompson ranks by election day.—E.

McMinnville Register: Robert Miller, the Democratic candidate, is making a good campaign and will no doubt carry the Democratic vote of the state. He is a man of energy and push, and his election to congress would be one of the greatest benefits possible to Oregon.

The Athens Press, Republican, supports two Democrats on the state ticket. It says: "No one doubts the fact that Oregon has had an honest administration under Governor Penney and Uncle Geo. W. Webb. Then why should they not be re-elected, and honestly properly recognized."

Tacoma, that is a village compared with Portland, is assessed at \$60,000,000 while this metropolitan city itself and exposes its rich men's dishonesty by levying a tax on less than \$20,000,000, where the sum total should be at least \$200,000,000.—Wellcome.

NO MONEY FOR RIVERS AND HARBORS.

A Deficit Instead of a Surplus.

When President Cleveland went out of office last year a year ago the great question was how to prevent the accumulation of a surplus. One year of a Republican president and congress has solved the question. There will now be a deficit. Our rivers and harbors must wait another year. Lane county will be affected by this state of affairs as the contemplated improvements of the Stinslaw river and bar must wait for another congress.

A Washington dispatch to the Oregonian May 21st, says: Speaker Reed has refused to recognize any person to-morrow for the purpose of calling up the river and harbor bill. It has been generally understood that the bill was to follow the tariff bill, but it is expected that it will now go over. The reason for the speaker's action is given on the ground that the President will veto the bill if it comes to him in its present form. The bill, according to his ideas, is unequal, giving to the sections more than they deserve while denying to others what they should in justice receive. The men who were dissatisfied with the appropriations made in the river and harbor bill have been hard at work in the senate and at the White House, and it is reported that with good effect. The opinion of the president is also based upon the fact that pension and governmental appropriations have been so increased that there will be a deficit instead of a surplus at the end of the next fiscal year. The proposal for the Texas deep water harbor bill, the 80c bill, and the boat railway of the Columbia may be held up for the same general reasons.

Pleasant Hill Items.

May 22, 1890. Mr. J. K. McKenzie is having his house painted. The new steam sawmill of Kelly & Co. is now running. Mrs. N. G. Hyland has been visiting at her father's, Mr. A. J. Cuzan.

We are all wishing a pleasant day on Sat. the 31st so the all will enjoy the picnic. Mrs. Henry Hanna, of Astoria, is visiting her parents, Mr. and Mrs. Barby, at Dexter. Mrs. Alex Matthews, of Eugene, was visiting her daughter, Mrs. J. K. McKenzie, recently.

Mr. John West and wife expect to start from Canada to their home in Oregon to-morrow.

Mrs. S. Handaker and Mrs. Emma Baxter returned from Creswell on Monday where they had been visiting old time friends.

Fill the vases with gladness, Sing and shout for joy, For Milton J. Cornelius is daddy Of a bouncing boy.

Uncle Steve Riglen starts to-morrow for the Pine Springs where for the past 20 years he and his good wife have entertained the weary traveler when going to or returning to the land of bunch-grass during the summer months.

Mr. John West Jr. had a merry crew of boys and girls to the number of 29 in his employ last Saturday, engaged in pulling weeds out of his grain. If all the farmers would do this it would be better for the country.

When the candidates were speaking at Trent on Thursday the team attached to Jim Nolan's buggy took a spin on their own account, and when captured they and the vehicle were more or less demoralized. To jump from a building nine feet in height and barefooted too, and to alight in a perpendicular position, and to hold on to a bucket of paint without any loss or injury to all concerned, is just what happened to L. L. Atterberry when engaged in painting a house the other day. Having no support he had to San Patch it to save himself.

Political Speaking.

The Democratic and Republican central committees have arranged the following appointments for their candidates to meet the voters of the county and discuss the political questions of the day. The meetings will take place at 1 o'clock p. m., and a full attendance is requested: Spencer, Monday, 20th. Chester, Tuesday, 21st. Richardson, Wednesday, 22nd. Long Tom, Thursday, 23rd. Junction, Friday, 24th. Frank, Eugene, Saturday, 25th.

JOHN WHITEKERR, Chairman Democratic Committee. W. H. ABBAMS, Chairman Republican Committee.

Letter List.

- Letters for the following persons remained uncalled for at the postoffice in Eugene City, Oregon, May 23, 1890: Atkins, Frank; Davidson, Minnie; Gilham, W. L.; Hanson, Miss Martha; Hart, C. H.; Honih, F. J.; Howard, Chas T.; Holt, Mrs Nancy; Holt, Miss Mary; Hurler, Frank; Hurler, Chas; Wagner, E.

A CRAZY BOON.—At South Bend, on Shoalwater Bay, there are about 300 people; there are twenty-five real estate offices, some of them nicely fitted up; all that is talked of there is buying and bonding and sales," said a man to an Astorian reporter. "Land anywhere around the mouth of the Willapa river, where it empties into Shoalwater bay, is held at a fabulous price. Charles Sala, who used to run on one of Flavel's tugs, had 300 acres over on the north side of the river; he sold it a few weeks ago for \$60,000. The deeds were made out to a son of T. F. Oakes, the Northern Pacific man. That is an indication of the price that land is held at in that vicinity. A few months ago a mill hand working in the mill at South Bend found that there was an acre tract adjoining the mill holdings. It was a jagged cliff, covered with brush and trees, and apparently valueless; no one had ever thought enough of it to file on it. He moved up on it the other day and sold it for \$80,000."

For Sale or Trade.

Two good farms of 100 acres each, both level land; one is a hay ranch, can cut 125 tons of wild hay on it. The other is farming land, mostly in cultivation. Has a good house and barn and a young orchard on it. There is a stream of good running water on both places, and good outside range for any kind of stock. A good school house three-quarters of a mile from one place and two miles from the other. I will trade both places for a good farm in Lane county, a reasonable distance of Eugene. Any one wishing to trade will address R. J. BAKER, Riley, Harney County, Oregon.

When you want to make your friends a handsome present at reasonable prices get some of the lovely Wedding Art Glassware at Goldsmith's.

BOW PRICE LIST:

YES COME To the place where you can get value received; where there is a firm that will treat you white and you will get all you pay for. Do you not know that when a man comes to your house with a team and a sewing machine and puts it in your house to sell it to you that he has to make a bigger profit on it than a dealer who does not have to pay a man and a team, and feed the team.

These fellows wear diamonds with the money they virtually steal from the farmers. I caution all persons against these everlasting swindlers and liars, which I assure there is no means too low for them to resort to to make a sale of their machine, and then when you have bought that machine you will find out to your sorrow that you are not dealing with him but with some company, and they will put you to the wall or take the machine back and you will lose all you have paid on it. Now why do you not buy of a firm that buy and sell machines the same as other goods! This the Barker Gun Works does.

We carry in stock at all times the DOMESTIC and DAVIS, the best machines IN THE WORLD. The Davis took more GOLD MEDALS.

Than any other machine at the Paris Exposition in 1889. The DOMESTIC needs no comment, as it is an old reliable company and has always given satisfaction. Do not buy until you have examined me and looked at my machines. I will save you money and that is worth your time to come and see. Price of the Davis and Domestic are from \$35 up, Cash, and \$10 more on time of monthly payments. Good notes at cash prices with interest taken.
