SATURDAY. ..

Of the Oregon State Weather Boreau, cooperating with U. S. Signal Service, Central office, Portland, Oregon for the week
ending Saturday, May 31st 1830:
Sunday and Monday were warm and
cloudless, the remainder of the week was
cool and cloudly with rain, which fell quite
copiously in the Willamette valley and with
showers elsewhere. Rain fell on the 28, 29,
30 and 31 in Western Oregon and on the
30 and 31 in Eastern Oregon. On the 28
and 29 it was generally light Owing to the
correspondents having to mail their reports
on Thursday the rain is not generally reported. Next week's bulletins will evidently show the general effect of the rain. Cool,
windy weather prevailed in Eastern Oregon windy weather prevaled in Eastern Oregon with frosts, in sections, which did slight damage to tender vegetation.

damage to tender vegetation.

The rain came down at a most opportune time and has greatly benefitted everything. Rain two weeks ago would have insured a large spring crop, but as it is usual conditions from now on will allow of a large crop to be harvested. In many sections late sown spring grain did not germinate and the present rains may wet produce yields where none ent rains may yet produce yields where none sas expected. Rain was tadly needed up to the 28th, none of any consequence having fallen since April 20th, and the temperature has been rather high, as a result the ground became hard and there was not that growth which was desired. In Grant county on the which was desired. In Grant county on the 26th temperature reached 93 degrees and grass on hills deying up. Killing frosts in Baker county on 28 h and 30th, and light in Union county, which did little damage on the 28th. Grain and other crops are very promising in the Grande Ronde valley. In Umatilla county snow fell on the mountains on the 28th. Wheat heading, out and doing fluely; in spots it is burned slightly. Spring wheat is very promising, more rain desired. Considerable what during the week. Bain is needed in Grilliam county. Bye has made a good crop, wheat looks well and rain will insure a fine yield. Apples promising spring grain not doing well. In Wasco and Sherman winter wheat promising. Cool weather very beneficial; late ing. Cool weather very beneficial; late

abundant.

It seldom fails to rain at the proper time in Oregon, and the present rain was most opportune.

ADVICE TO MOTHERS.

MRS. WINSLOW'S SOOTHING SYRUP, for chil MRS. WINSLOW'S SOOTHING SYRUP, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, curse dysentery and diarrhoea, griping in the bowels, and wind colic. By giving health to the child it rests the mother. Price 25c a bottle.
