PANTORAL VISIT .- The resident pastors of the M. E., C. P., Baptist and Christian churches have arranged with each other to visit as far as practicable each home in Eugene as early as possible. Elders Travis and Blair will call on east side, and Alley and Frank Vaughan, proprietor of the Portland Waters on west side of Willamette street.

The object in view is to seek acquaintance with the people, secure a more general at-tendance at our Sunday services, encourage the christian people, be of service, if we can, to those who have no church relation, and impart and receive such information as will be mutually beneficial. With purpose of heart that only seeks to bless, we trust our visits will not be consid-

The Blue River Mines.

Several Brownsville parties who are interested in the Lucky Boy quartz mine in the Blue River mining district are now at work on their claim. From a letter written at the mines, June 9, to the Brownsville, Times, we

take the following extract: Night overtook us and I found everything all right in the cabin but the top of a large tree fell across the center of Jonah's addition and knocked that end of the house all down but did not damage the main part of the house. The tunpels are both caved full at the mouth and I cannot see to what extent the work is damaged. The next morning we left camp Bridal Vail by times and before ten o'clock arrived at Hotel DeLucky Boy. After a short rest and some dinner we start-ed for the top of Treasure mountain and took our horses up to pasture. We found the grass good on the south hill side and found considerable of snow on the hill, and over thirty fect in Quartz creek basin above the

Durango tunnel. We were on the top of the pinnacle but it was too hazy to see Browns-ville. With tired limbs and empty stomachs we reached camp late in the evening. We were the pioneers in the camp this spring. The travel will have to come up the creek trail unless some one interested on top

Accidentally Shot.

A case of accidental shooting occurred one-half mile north of Elmira Wednesday af-ternoon between two and three o'clock that may result fatally. James E. Richardson and son, a lad of about twelve years of age, took their guns and went out on a deer stand to wait for the dogs to run a deer by. The boy left his father and went off some distance after a squirrel. Returning he thought he saw a deer running through the stand and while endeavoring to shoot the deer, the gun, a single barrel shot gun, loaded with BB shot, was discharged, accidentally wounding his father. A couple of shot lodged in his left hand, one in his left forearm, several in his left leg below the knee, and one in the left breast just above the heart.

The boy immediately secured help and he was conveyed to his home. He suffered in-tense pain from the shot in his breast. Dr. N. L. Lee, of Junction, was called and af-forded all possible relief. A probe was used as far as deemed expedient but the shot and boom advertisements, and its columns are regarded by the general public, so far as could not be recovered. The wound in the breast is the dangerons one, and it is a ques-tion whether or not it will prove fatal. No particular blame can be uttached to the

A New Jail Wanted.

The county court should take immediate steps towards the building of a new jail for Lyne county. The indebtedness that will be incurred for new bridges renders it almost certain that a new court house will be out of the question for several years to come. A new jail is an immediate necessity. The old one is unsafe, full of holes, unhealthy, and entirely unsuitable; in fact it represents Lane county thirty six years ago, when the entire popula-tion was not as large as several of the pre-cincts now have singly. At every term of the circuit court the grand jury has emphatically condenned it and urged the building of a new jail. The county court should take immediate day morning. They will be a valuable ac-quisition to the population of the county. INCORPORATED .- Articles incorporating the East Engene Townsite Company have been filed with the secretary of state by George K. Dedman, Charles L. Brush, George E. Sturgis, Robert L. Taft, Perry II. Raymond Sturgis, Robert M. The object of

In many countles the jall is built separate In many counties the jall is built separate from the court house and it is the opinion of officials conversant on such matters that it is better than where the two are combined. A new jail with all modern improvements, steel cells, jailor's quarters, &c., could be built we believe for loss than \$10,000. Decency and self-respect demand that Lane county should tear down the stone abomination known as a jail and provide prison facilities in keeping with the times. The county will spend this year \$60,000 on bridges. The people without an exception, we believe, favor an expenditure of \$10,000 or \$12,000 more for a jail. The county court at the July term should take ini-tiatory steps. They will gain the approbation of the people by so doing. Briggs is but 20 years of age. Ho is known as the "Kid," and is of dissolute habits. He occasionally visited Engene and spent his time gambling. The circumstances of the robbery are as follows: Mr. Smith, who is proprietor of a drug store, was called from his residence about 3 o'clock one morning by a party who rep-resented that he wished some medicine. Arriving at the store he was confronted by Arriving at the store he was confronted by two masked men with revolvers, and his safe was robbad of the smount above stated. Briggs' partner confessed and got one year in the penitentiary.

CRNSUS SQUEALS. - The census now being taken will shatter the claims of many towns and cities, that boast in some instances, of having a population double the actual num-ber. The towns, knowing that the census will show their false pretensions, have al-teady begun the cry that the census is im-perfect and that scores of names have been perfect and that scores of names have been missed. Salem and Portland in Oregon are examples. To hear their cries of distress the observer would suppose that one-half the population had not been counted. It is probable that many applications will be made for a recount, but the instances will be so numerous that they will hardly be al-lowed.
