Drowned in the Calapooia.

A very sad case of drowning occurred at this city last evening, says the Athany Herald of Saturday, June 28, one affecting the happiness of three families and shocking the active community. About 4 o'clock Mr. coe Guas, electrician of the Albany Elec Roscoe Goza, electricish of the Albany Elec-ric Light Co., with Allen Matthews, son of Mr. A. B. Matthews, and Tay McFarland, son of Mr. and Mrs. McFarland, both de-cessed, started on a boat ride up the Calastarting just above the Magnolia Generally with another boy they had been doing this evenings, for about three weeks. The boat was an old one that had been partially abandoned, but which had been fixed up for use again. It was not very sale. About 4:15 they were seen from the as the last time they were seen alive. Not inghome, those interested became alarmed nd it was found at 9 o'clock at the electric and it was both they had not returned. pistols were fired, thinking perhaps they might have landed on the island and the heat floated off. About 10 o'clock pieces of the boat were found below the falls, when the worst was realized. They had certainly been drowned. A boy who had been in the habit of riding with them said that some-times Mr. Goss rowed the boat down to the edge of the dam just to frighten the boys a little. The water was higher than usual, owing to a chute on the left side of the dam being chesed, and it is possible they had backed up and been carried over the rocks below, the condition of the boat indicating that it had struck the rocky portion of th

The body of Mr. Goss was found the nex erening. The bodies of the two boys were found Sunday about noon. Tay McFarland was a nephew of Dr. Biddle and Mrs. J. L. Page, of Eugene. The funerals, owing to the decomposition of the bodies, took place Sanday afternoon.

SHOULD CELFBRATE, - We have heard Should Criffehate.—We have heard many regrets expressed both by country and town people that Eugene did not see fit to have a celebration of the Fourth of July this year. The observance of the day as a holiday has become so general that the citizens and citizen esses of the great Republic are not satisfied unless they can properly observe the Fourth and celebrate the birthday of the nation with patriotic fervor, speeches, fireworks and other accessories. When there is no celebration in their own immediate vicinity they go to other places and the town that should be filled with an enthusiastic money spending crowd, paran enthusiastic money spending crowd, par-takes of the characteristics of a deserted viltakes of the characteristics of a deserted vil-lage. Had Eugene celebrated this year many hundreds of dollars would have been scattered among the business houses that now go else-where. It costs money and trouble to prepare an appropriate celebration, but the advantages accruing far overbalance the outlay. We trust another Fourth will not be allowed to go by without a celebration in Eugene.

Outside Watchman, A. Oleson. About seven miles up the river, a new school-house had neared its completion, but was burned to the ground on June 22d. There is no doubt about its being set on fire by some party or parties. It is claimed that it was done to wreak revenge on the build-er. Mr. J. A. McLeod, as there has been difficulty about the contract and other mat-ters pertaining to its location.

fore all are gone.

Are Lights. Eugene has made another step forward on the line of substantial improvements. The plant for the arc light system was started Monday night and gives entire satisfaction although complete arrangements had not as yet been made at the light station. The lights are brilliant and are reasonably steady. Hereafter we may depend on well lighted streets. A single light was placed each in Dunn's store and Hayes' saloon and light the rooms admirably. The gransition from a few coal oil lamps to are lights is a reliable index of the progress of Eugene during the last few years.
