Investigating County Affairs.

On the retirement of ex-sheriff Sloan rom office considerable trouble was had by the county in effecting a settlement of his of-ficial accounts. It was supposed to have been all definitely settled at the July term of court, when Mr. Sloan paid the county \$890 to correct errors made in the addition of the delinquent list turned over to his successor. Since that further errors were found, and upon Mr. Sloan being called upon to explain, he asked that the court appoint accountants to investigate and report upon the financial condition of the offices of sher iff, clerk and treasurer during his incom-bency as sheriff. The court granted the reuest and appointed Messrs Sherwood Burr W. Osburn, W. T. Peet, and sidded L Bilyeu as attorney to represent the county. These gentlemen commenced the work Fri-day morning and will continue from day to day until the work is finished, sitting from

8 a. m. to 12 m. each day.

The difficulty in the settlement with Mr Sloan is occasioned by sheriff's assessments and the taxes collected thereon. While is might be considered proper to await the report of the committee, there has been so ch rumor about the matter that we the figures as they show on the face of the books. In the year 1886 ex-Sheriff Sloan assessed taxes to the amount of \$979, and was charged with but \$119.50. In 1887, amount assessed, \$1,372, charged with \$986.35. In 1889, assessed \$1900, charged with \$1,267.95. In 1889 assessed \$4,690, with no charge against him. Total amount assessed, \$8,941. Total amount charged, \$2,373.80; balance unreported, \$6,567.20. It is stated that Mr. Sloan should have credit for about \$2200 for taxes sworn off

and corrections made on the roll with which he has not been credited.

The committee will undoubtedly straighten out the affairs of the office and give the public an explicit statement. The least that can be said about the conduct of the office is that it has been sadly incompetent.

A New Jail.

The Lane county commissioners court is to be complimented for making a move towards the building of a new jail to take the place of the one now in use. It is proposed to build the new structure on the site of the present one, and so that it will not be connected with any court house to be built in the future. The cells and quarters for for the prisoners will be on the first floor and a residence for the jailer in the second

As will be seen by a notice in this week's issue of the Grand, plans and specifications for the new jail are invited, the estimated cost not to exceed \$10,000. Plans must be submitted by Sept. 4th.
