Oregon Crops and Weather.

The weather has been about the average for the week. On the 13th temperature of 90 degrees or more was reported from every portion of the state. On the 14th an occasional sprinkle of rain fell. On the same date a severe and storm, having a velocity of 25 miles an hour was experienced in the Willamette valley, no damage reported. The night has been as usual, cool. The days have been generally cloudless. Smoke from forest fires has begun to fill the atmosphere.

The weather conditions except on the 13, when it was warm, have been favorable to harvesting and threshing operations, which are progressing. Fall and winter wheat is generally harvested and considerable of it threshed. Spring wheat is now being harvested. Reports are turning out better than was expected. The wheat is generally much cleaner than usual, the berry large and plump. No section reports generally poor crops, though in localities the crop is not up to the average. This is more especially true in regard to Umatilla county to the west of Pendleton and in Douglas and Jackson counties. In Umatilla, as a rule, the wheat is above the average. Douglas and other southern counties had usually heavy rains up to April 15. Since then it has been very dry and not so good. The peach crop in Southern Oregon was almost destroyed by the late frosts, but other fruits are plentiful.

Hay is plentiful through the stock country. Bottom and irrigated land in southeastern part of the state has very large crops. The output is estimated, and will be larger than ever before in Oregon. The codlin moth did considerable damage to apples. Plumes and prunes are very plentiful and the weather has been very favorable to the curing of them. In the neighborhood of Helix, Umatilla county, a disease resembling distemper was reported by a looking out among the horses; but so far no fatal results are reported.

The Road to Wealth

Cannot be successfully traveled without good health. To reach wealth or any coveted position in life requires the full possession and operation of all the faculties kind nature has endowed us with. These conditions cannot exist unless the physical being is in perfect working order, and this is impossible when the liver and spleen are torpid, thus obstructing the secretions, causing indigestion and dyspepsia, with all of their accompanying horrors.

DR. HENLEY'S English Dandelion Tonic

exerts a specific influence over the liver, excites it to healthy action, resolves its chronic engorgements, and promotes the secretions; cures indigestion and constipation, sharpens the appetite, tones up the entire system, and makes life worth living.
