THE EUGENE CITY GUARD.

SATURDAY OCTOBER 11, 1890.

THE MCKINLEY BILL.

The Absurdity of its Claim to be in the Interest of Farmers.

The farmers, says the Huron, S. D., Ra-ralist, are told that the McKinley tariff bill was framed in their interest, and in proof of this they are referred to the protection given them by the increased duties on agricultural products. Let us see how the claim will bear investigation. The duty on corn has been increased from 10 cents to 15 cents per bushel in order to protect the farmer from the importation of "pauper labor corn." The total amount of corn imported for the fiscal year 1859 amounted to 2,401 bashels. The exports for the same time were 69,582,-929 bushels. How thankful the farmers ought to be for the increased protection against foreign corn! On corn meal the duty has been doubled, the present rate of 10 cents per bushel being raised to 20 cents. The necessity for this additional protection is evident when it is known that 396 bushels of corn meal were imported last year, against an export of 312,186 barrels. Oats are to be protected by an increase of duty from 10 to 15 cents per bushel. The imports of oats were 22,310 bushels, and exports 624,226 were 22,310 bushels, and exports 624,226 bushels. Rye will remain with only 10 cents per bushel protection. This is wrong. Sixteen bushels of rye came into this coun-try last year, against 287,525 bushels sent out. There ought to be more protection against those 16 bushels. The duty on wheat has been increased from 20 cents to 25 cents per pushel. The farmers will be grate-ful for this. Last year no less than 130,649 bushels came in to compete with the home product, of which 46,414,128 bushels were exported. Wheat flour is to pay an ad valo-rem duty of 25 per cent. instead of 20 per cent. The imports were 1,156 barrels, and exports 9,374,803 barrels. The American apple crop must be protected. There has been no duty on apples, green, ripe or dried, but the American orchard is to have the probut the American orchard is to have the pro-tection of 2 cents a pound on dried apples. Last year we exported 942,406 barrels of green apples and 22,102,579 pounds of dried apples. We imported not an apple nor a pound of dried apples. The duty on bacon and hams has been increased from two to five cents per pound. The increase five cents per pound. The imports were 215,130 pounds and exports 400,224,646 pounds. On beef, pork and mutton the present duty is one cent per pound; the pro-posed duty is two cents. The imports were 215,575 pounds and exports 286,991,121 pounds. It is as plain as a pike-staff that the farmers are suffering because of want of protection on their corn, wheat, cats, rye, on, beef, pork, corn meal and apples. They are burning their corn in Kansas be-cause 2,401 bashels imported ruined their home market. They are scattering their corn meal on the pround because 336 bushels of foreign meal found its way into the conntry; they blew themselves to pieces with dried apples and water because they had no tariff fence to keep out the foreign apples that had not sought admittance. They mortgaged their farms because one pound of bacon was imported for every 1,500 exported.

State Elections.

On November 4th. the following states will elect state officers, legislature and con grossmen:

Galiforuia, Colorado, Connectient, Dela-ware, Kansas, Massachusetts, Michigan, Minnesota, Nebraska, Nevada, New Hamp-shire, North Dakota, Pennsylvania, South Carolina, South Dakota, Texas, Tennessee

and Wisconsin. The following will elect minor state of-floers, legislatures and congressmen: Florida, Illinois, Indiana, Iowa, Misson-ri, New York, North Carolina, Ohio and New York, North Carolina, Ohio and New York, North Carolina, Ohio and New York, North Carolina, Ohio and

Oregon at the World's Fair.

EDITOR GUARD:---I have just returned from Chicago where I was in attendance at the meeting of the commissioners of the World's Columbian Exposition, and propose to give some of the outlines of what in my opinion will be the proper course for Oregon to pursue when the time comes for action. That time will come as non as the commis-

five millions of the ten which Chicago was to raise, secured. All we could do then was to adjourn subject to the call of the President. The matter of buildings and money will both be settled in a short time, and at the next meeting the committees, who have been appointed and confirmed, will bring the whole matter into business shape. Then, my plan is to have a state commissioner on agriculture, one on fruits, one on lumber and one on minerals, and at the state such commission base a at the same time each county should have a local committee. We have resources that are not surpassed by any other state and we should be present in the best possible shape. My experience is that where an individual county or state makes an exhibit they are charged with showing their best, so we should be careful to exhibit nothing but the should be careful to exhibit homing but the best. If I am any judge of the spirit I see everywhere displayed I must conclude that the coming world's fair will be the greatest the world has ever seen, and will far sur-pass the fairs at Philadelphia or New Oreans. I hope after the next meeting we have, that matters will be so shaped as know just what to do, so by concert of ac-tion we can make our state and her resources known throughout the world, M. WILEINS.

Eugene, October 8, 1890.

Florence Notes.

[The West.] Hays & Wilks' mill is being enclosed with umber cut from its own saws.

Plenty of wild geese and ducks have just premises. No swampy land. Good out-arrived and their frieddly quack informs us this offers. they will remain during the winter.

Oscar Funke has just completed the building of a house for smoking salmon. It is large enough to contain 500 salmon hung at proper distances while they are being smok-

On an average there are 200 cases of sal

year. Florence is to have a cut stone building Florence is to have a cut stone building erected on the corner of Adams and Main streets. It is to be two stories high, the lower story to be used for a bank and the upper for offices. Geo. M. Miller is the in-tending builder. tending builder.

It is estimated that there is no less than 12,800 acres of good farming lands, that is in close proximity to Florence and Glenada, which invites the intrepid settler to occupaney.

There will be some excitement in Florence about coal soon. A stranger came to our office showing samples of coal and assured us he would in the near future determine its extent. By request we do not publish his name

Mr. A. P. Anthony and tamily are now residing at Gardiner. Mr. Anthony is super-

West Virginia. The following will elect congressmen: Alabama, Arkansas, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Montana, New Jersey, Rhode Island, Virginia. The following states have already elected Idaho, Majne, Oregon entrol has a tendency to place our people in the ranks of progressive men, and our town in a more conspicuous position among sister hamlets in Oregon, with prospects ever so

Immense Profit in Hops. [Lynden, Wash., Pioneer Press.]

M. A. Judson informs us that his hopyard,

which contains about twenty acres and leas-ed by the Winkler Bros., is worth \$15,000 some of the outlines of what in my opinion will be the proper course for Oregon to pursue when the time comes for action. That time will come as soon as the commis-sioners are ready to report to President Harrison that the land offered for a site and that the ten millions are secured; then na-der the law by which we are acting the President will asue his proclamation for a world's fair. We have accepted the land offered for a location, as adequate, but the plans of the buildings were not ready, nor was the last five millions of the ten which Chicago was

in the cultivation of the same, and thus, by paying proper attention to this industry, the farmers will be able to reap large returns for their labor.

Dictionaries.

The GUARD office received a consignmen of the Webster's Dictionaries that we are offering as premiums. Those who have subscribed or others who wish to who have subscribed or others who wish to subscribe can now get the book by calling at this office. Those who have taken it are well pleased with the quality and cheapness of the book. Remember, the dictionary and Guand for one year costs but \$5.50. They are needed in every family, the one as They are needed in every family, the one as a work of constant reference and the other to give the complete local news of Eugene and Lane county. You cannot afford to do without either.

Delinquent Tax Notice.

Notice is hereby given that the city tax of 1890 of Eugene is now delinquent and has been placed in my hands for collection. Those who are delinquent are notified that unless prompt payment is made costs will be made I. E. STEVENS, Marshal. Sept. 12, 1890.

For Sale.

80 acres of fine beaver dam land for sale. So acres of this beaver dain and for same So acres of this beaver dain and for same So acres of this beaver dain and for same Easy to clear. Land adjoining and of same character produced last year 6 tons timothy bay per acre. Two spring branches on the premises. No swampy land. Good out-

at this office.

Brick. Brick.

Whiteomb & Abrams, contractors and builders, have plenty of the best quality of brick at their yard 1½ miles east of town, and will supply the demand at reasonable mon put up every day in Meyer & Kyle's prices. They also contract for all kinds of cannery. Mr. Kyle informs us that the sal brick work and guarantee satisfaction. Will mon were never larger or better than this deliver brick on order to any part of town.

MATLOCK'S NEW CHOICE

Idaho, Maine, Oregon and Wyoming.

The beneficent tendency of the McKinley tariff bill, for the manufacturer, is beginning to be felt. On white lead for painting pur-bright. to be felt. On white lead for painting pur-poses there has been an increase of two cents per pound. A substantial increase has been made in the cost of tin and glass, and a number of dealers interviewed expect an ad-vance of from 10 to 25 per cent. in all cheap-er grades of woolen goods. We have yet to learn of any increase in the price of labor. On the contrary it is stated on what seems to be good authority that manufacturer's agents are in Europe seeking to induce arti-sans to emigrate to America. The iniquity known as the McKinley bill was a payment made by the Republican party for the finan-cial aid extended them by the manufacturers with which Harrison was elected president. with which Harrison was elected president. The people will now have a chance to see that the tariff tax is paid by the consumer.

Portland Sunday Welcome: "Taking the point of view centering at the city of Port and, it is apparent that the speculative val-ues have reached a point higher in this vi-cinity than is consistent with an active transfer of property. Values are held at such high rates for suburban property as to check speculative investments, as alies to de-ter the tendency of our tenemont classes from seeking outside homes, as it is safer to pay high rents than to get involved with installment purchases in motor line town. But Danse & Pursmos. sites at present figures.

The school superintendent of Spokane county has revoked the certificate of school teacher Brooks because he chewed tobacco-in and out of school. The charge signing him was preferred by school children. Brooks acknowledged his guilt when he was put on the witness stand, but he said he did to have a school children. Brooks acknowledged his guilt school children. The Colobertod Fronch Gure not know it was sgainst the law of the State or he would not have done so.

The height of the new \$75,000 bridge across the Willamette at Albany will be about 76 fiset above low water mark. The south ap-proach will be easily constructed, but the north one will have to be a long one as its is just a mile from First street to the first land in Ben-ton county that is completely above high wa-ter, which it will probably be impracticable to reach as the cost would be too great.

Dr. Walfred Nelson, who has spent a num-ber of year at Pansma, has just returned to New York Uity from Paris, where he com-pleted a series of investigations concerning the present status of the canal. Dr. Nelson says the feeling in Paris is one of profound despair. Socially, financially and scientifically Ferdi-nand de Lesseps is dead.

Indians cannot have whisky under the law even for medicine. W. M. MoBride, a drug-gist of Adams, Umstilla county, sold fiquor to Indians on a prescription. The United States district astroney holds that the law has been violated and Mr. McBride will, accord-ingly, pay a visit to Judge Deady.

The worst fact about the Krentzer Sonata is not connected with the character of the book itself, but it is that so many people should buy it supposing it bad. Worse still, few under-stand its motive purpose or its intended teach-

It only costs \$25,000 to run one of the big twin screw steamers across the Atlantic. F. Defended Her Honor.

F. F. Templeton was shot and instantly killed about 10 o'clock bunday night by Mrs. Hainey, living five miles from Drain, on the Smith river road. Templeton was about 55 years old, a married man and a sawyer by trade. He and Mr. Hainey had sawyer by trade. He and Mr. Hainey had taken up homesteads on Smith river. Sun-day evening Hainey left for the river to fin-ish a house for Templeton, who was to follow with Hainey's family Monday. Tem-pleton was a large, stout man. Mrs. Hainey is quite small and delicate. She told her husband that she was afraid of Templeton. The people will now have a chance to see that the tariff tax is paid by the consumer. In this data that have a afraid of Templeton, as he had insulted her several times. About to o'clock Templeton made an assault upon Mrs. Hainey with his person indecently exposed. She told him to stand back. He attempted to lay hold of her, when she fired, missing him. He then rushed at her, and she fired a second shot, the ball striking him in the neck, coming out at the base of the publican speakers and papers are assuring the people that "the tariff is not a tax." The San Francisco Examiner states that ladies dross goods and furnishings will be advanced from 10 to 50 per cent over present prices in consequence of the McKinley bill.
