The Goshen Mail.

PLEASANT HILL, Oct. 15, 1900. EDITOR GUARD:—In the issue of your paper under the heading of "A Question of Mail," which is in regard to the carrying of the mail between Goshen and Dexter, via this place, we think that you (unintentionally) are sure to do Mr. James Parvin, the postmaster at Dexter, and myself as postmaster at this place, an injustice when you say, "we cannot comprehend why the Pleasant Hill postmaster and Dexter should desire their mail to be delayed."

Florence Notes.

The West, October 10. A fine two-story stone building will be erected in Florence during the coming week. Capt. John Bergman has harvested the third crop of hay from one of his fields this year. There is plenty of good land for settlers in this country, and many people are daily arriving and locating.

A Sad Accident.

An accident by which the loss of a life was involved took place near Bolkup's springs on the McKenzie Thursday last week. A family by the name of Bull were on the road coming to Eugene. A daughter about ten years of age was riding a pony that was thought to be perfectly gentle. She was behind the wagon when she was heard to scream. The pony dashed by dragging the little girl, her foot having caught in the stirrup. The pony ran a couple of miles along the road, then turned and went back, still dragging the unfortunate girl. When stopped she was dead, being bruised in a shocking manner. Hardly a shred of clothing was left on her person. The remains were buried at the McKenzie Bridge.

The county court gave the Fairmount Co. permission to pass a six foot sidewalk along the north side of the county road, from the University to the east line of Fairmount, and to plant trees 8 feet from the north side of the road. He will drive piles in the river and place on them three benches of 12x12 inch timbers with which to support the bridge while the old pier is being removed. The tops of the piles on which the pier is built are now 35 feet above low water. When the bridge was built in 1878 the piles were sawed off below the water. The bed of the river below has washed out since that time. The bridge will have to be closed for several days when the old pier is taken out. It is thought the river can be safely bridged a short distance above. DROWNED.—Last Monday afternoon at the Warm Springs Indian agency in Crook county Jay Springs Luckey, aged 2 years and four months, was drowned in the swimming pool at the reservation, was drowned in the mill race. It is not much of a walk but Mr. Miller weighed 240 pounds until he went to the McKenzie about two months ago, since which time he has reduced his flesh 40 pounds. He left the bridge Friday morning of last week, arriving in Eugene Saturday evening, winning by half an hour. About eight months ago he held on 100 acres of government land at Knappa opposite Astoria. As was mentioned in a recent issue of the GUARD he sold 150 acres for \$10,000. The Losburg local north leaves Eugene 9:55 a. m., south, 2:55 p. m. Leaves Roseburg 6:29 a. m. north, arrives 5:40 p. m. DESCRIPTIVE PILES.—The river piers of the bridge now building across the Willamette, Salem have settled until they are several inches out of plumb. Work has been stopped on the bridge and it is likely that new piers will be built. The contractors have been paid \$15,000 on the work. MARRIAGE LICENSES.—Issued during the past week: J. N. Wray and Minnie M. Potter; James S. Mahon and Mary C. Cheever; A. J. Bumbaugh and Belle Lee; Geo. Bromfield and Phoebe Foster, E. O. Potter and Emily Bristol, James C. Porter and Nancy Leiby, B. A. HORN.—The 1890 hop crop has nearly all been sold to dealers. Sales during the past week have been in 35 cents per pound.

STREET IMPROVEMENTS. At a special meeting of the Council Thursday evening it was resolved to bring Willamette street to the grade and dress it with fine gravel from Eleventh street to the depot. Also Eighth street from Oak to the city limits on the west. Seventh street two blocks east of Willamette. Sixth street between Oak and Pearl. Fifth street having been cut into ruts, the street committee did some good work by running a large scraper over it making it level. The streets from the railroad crossing on Pearl to the Eugene bridge are being improved in a substantial manner. They will be gravelled 30 feet wide, 12 inches deep in the middle and 6 inches at the sides. The heavy travel on this road and the nature of the soil require extra work so that it will not be liable for frequent repairs. The streets of Eugene are a credit to the town.
